

Elementary Student Activities: 2024-2025

Student Activities/Clubs are those activities that seek to meet the interests of students that are not provided by the curricular program of the school. These clubs/organizations require student participation in the process of initiating, planning, organizing, and executing the mission and purpose of the club/organization. Each student activity club/organization must have a NYCS D faculty/staff member as advisor. The Advisor has responsibility to supervise the behavior of students and assist those students in their groups and activities.

As is the case with all extracurricular activities, Student Activities/Clubs must be approved by the Board. Prior to a student activity/club being brought to the Board for approval, it must have satisfied the probationary procedures for establishing a new club as detailed in Administrative Guideline 122-2.
