

**Addendum #2**  
**August 28, 2024**  
**Route 44 Sidewalk Reconstruction**  
Town of Putnam  
LOTICIP Project No.: L115-0003  
March 25, 2024

Item 0506003 Rebuild Stone Wall

This item was included in the project, after comments from CONNDOT, because some portions of the existing retaining walls at the back of the sidewalk are in poor condition and could potentially interfere with sidewalk replacement work. The item was included so that portions of the walls could be repaired on an "as needed" basis as directed by the Town.
