RE: Weslaco Independent School District Asbestos Management Plan

The Weslaco Independent School District is working hard to maintain compliance with federal and state regulations in reference to asbestos. In keeping with the requirement of the Asbestos Hazards Emergency Response Act of 1986 (AHERA), school district facilities have been inspected for the presence of asbestos. WISD employees planning to perform any work that could potentially disturb building materials are required to review the Asbestos Management Plan Binder beforehand. Should you desire to review the asbestos management plan for your school, a copy of the plan is available in the principal's office as well as the school districts asbestos designated person's office.

If you have any questions, about the plan or this federally mandated program, please contact Stephanie Medellin, Environmental Safety Coordinator at (956) 969-6941.
