

**Red Creek Central School District**

**District-Wide School Safety Plan**

**Commissioner's Regulation 155.17**

**Approved by the Board of Education of the Red Creek Central School District on August 7, 2024**

**Introduction**

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. School districts are required to develop a District-Wide School Safety Plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies.

The District-Wide plan is responsive to the needs of all programs within the district and is consistent with the more detailed emergency response plans required at the school building level. School districts are at risk of a wide variety of acts of violence, natural, and technological disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. This component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response, and recovery with respect to a variety of emergencies in the school district and its schools.

The Red Creek Central School District continues to support this integral component of the SAVE Legislation through the regular review and updating of its contents. The Superintendent of Schools encourages and advocates this ongoing District-Wide cooperation and support of Project SAVE.

**SECTION I: GENERAL CONSIDERATIONS AND PLANNING GUIDELINES**

**A. Purpose**

The Red Creek Central School District-Wide School Safety Plan was developed pursuant to Commissioner’s Regulation 155.17. At the direction of the District Superintendent, the Red Creek Board of Education appointed a District-Wide School Safety Team and charged it with the development and maintenance of the District-Wide School Safety Plan.

**B. Identification of School Teams**

As referenced in the previous section, the Red Creek Board of Education has appointed a District-Wide School Safety Team consisting of, but not limited to, representatives of the School Board, faculty, administration, school safety personnel, and other school personnel. The members of the team and their positions or affiliations are as follows:

<b>Member’s Name</b>	<b>Position or Affiliation</b>
Matthew VanOrman	Superintendent of Schools
Danielle DeBiase	School Business Administrator
Dennis Taylor	Elementary School Principal
Brian Smiley	Middle School Principal
Patrick Wallace	High School Principal
Robert Carter	Middle School/High School Assistant Principal
Amanda Ventura	Director of Student Services
Dave Welcher	Athletic Director
Kristy Smith	School Nurse
Katherine Madigan	School Board Member
Jack Mekeel	Safety Officer, BOCES
William “Pat” Davenport	Director of Facilities
Stephen Bockus	Transportation Supervisor
Tom Munzert	School Resource Officer

**C. Concept of Operations**

General protocols reflected in the District-Wide School Safety Plan guide the development and implementation of the Building-Level Emergency Response Plan. The District-Wide Safety Plan sets forth the general procedures and protocols to be adhered to at the school and serves as the standard operating procedure.

In developing the District-Wide plan, key internal and external stakeholders were involved in order to garner the best local operational knowledge and the best emergency management and safety expertise in creating and revising the plan. The Red Creek CSD is an integral part of the community and, as such, it is important that community stakeholders are involved and understand the role of the school district and its relationship to the safety of the community at large.

In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the Building Emergency Response Team (BERT).

Upon activation of the Building Emergency Response Team, the Superintendent of Schools or his/her designee will be notified and, where appropriate, local emergency officials will also be notified. Efforts may be supplemented by county and state resources through existing protocols.

#### Chief Emergency Officer

Matthew VanOrman, Superintendent of Schools, is the Red Creek CSD Chief Emergency Officer. The responsibilities of the Chief Emergency Officer are:

- Coordinating communication between school staff and first responders
- Ensuring understanding of the District-Wide safety plan
- Ensuring completion of Building-Level Emergency Response Plan
- Ensuring the amendment of all plans as needed

If the Superintendent of Schools is not able, Brian Smiley, District Safety Coordinator, is the Red Creek CSD secondary Emergency Officer.

#### **D. Plan Review and Public Comment**

Pursuant to Commissioner's Regulation, Section 155.17 (e)(3), this plan will be made available for public comment at least 30 days prior to its adoption. The District-Wide plan may be adopted by the Board of Education only after at least one public hearing that provides for the participation of school personnel, parents, students and any other interested parties. The plan must be formally adopted by the Board of Education.

Full copies of the District-Wide School Safety Plan and any amendments will be submitted to the New York State Education Department within 30 days of adoption. In addition, the Building-Level Emergency Response Plan will be sent to the New York State Police and the Wayne County Sheriff's Department.

This plan will be reviewed periodically during the year and will be maintained by the District-Wide Safety Team. The required annual review will be completed on or before September 1 of each year after its adoption by the Board of Education. A copy of the plan will be available on the district website.

### **SECTION II: RISK REDUCTION/PREVENTION AND INTERVENTION**

#### **A. Prevention/Intervention Strategies**

Initiatives that improve the culture and climate in our schools and improve communication at all levels can substantially enhance our ability to truly prevent any negative event from occurring. Prevention would always be preferred over risk reduction. However, not all such events will be prevented despite our best efforts. Therefore, we must formulate plans to intervene and reduce risk by minimizing the impact of any negative event.

This section will identify specific prevention and risk reduction strategies that have been implemented within the Red Creek CSD. Many of these components serve as both prevention and risk reduction tools.

## Program Initiatives

The Red Creek CSD recognizes the importance of programs and activities that improve the school climate and communication throughout the school community and that encourages the reporting of potentially dangerous, suspicious, or violent behavior. Such efforts serve to improve the security, safety, and quality of life for all those in the Red Creek CSD school community. The following is a partial list of such current initiatives:

- UPK-12 Assemblies to discuss pertinent issues
- Interventions by MTSS Coordinator, teachers, counselors, psychologists, aides and monitors, and administrators
- Group setting discussions by psychologist (anger management groups)
- Character Education for all students Grades UPK-12 incorporated into the curriculum.
- Special events, grades UPK-12 for character education
- Beginning of school year assembly to encourage students to report threats, sexual harassment, bullying, or other potential violent incidents to an adult.
- Newsletter articles encouraging students to report incidents to adults.
- Professional Development for staff
- Go Guardian – Monitor student network and device use
- Ongoing assembly/programs for anti-bullying
- Website “Tip Line”

The Red Creek CSD encourages its leadership to develop strategies that support a positive safe learning environment for students, such as community involvement in the schools, mentoring programs, or adjusting scheduling to minimize potential for conflicts or altercations.

## Training, Drills, and Exercises

- The Red Creek CSD will provide annual multi-hazard school safety training for all staff and students. The components of this training will be consistent across the district while the means of dissemination will likely be varied due to the specific needs of program participants involved.

Staff training will be routinely conducted at the beginning of the school year and will be followed by drills that include the entire school population.

- The Red Creek CSD will conduct drills and exercises to test the components of the Building-Level Emergency Response Plan. The use of tabletop exercises to accomplish this task in coordination with local and county emergency response and preparedness officials may be considered when live drills are impractical or not sufficient to meet training goals. At a minimum, eight evacuation drills (fire drills) and four lockdown drills will be conducted each school year.
- In addition, an annual early dismissal drill will occur, not more than 15 minutes earlier than normal dismissal time. Transportation and communication procedures will be included in the test, and parents and guardians will be notified in writing at least one week prior to such drill.
- The emergency back-up generator and lighting systems are also tested annually, and all systems verified functional without electricity.
- Training and/or a drill must be conducted by September 15.

### Implementation of School Safety

- Routine Precautions by all staff

All staff are expected to immediately report to their building principal any information they have received or observations they have made regarding anything that could possibly impact the safety and security of anyone within the school community.

Note: Staff should always err on the side of safety and share such information each and every time. No detail is too small or inconsequential as individual staff may not be aware of all circumstances surrounding a particular student or concern.

- Limited Access

The Red Creek CSD is tasked with implementing this policy while tailoring it to the specific needs of each building. Generally, this means that the fewest exterior doors necessary to maintain normal business will remain unlocked during portions of the regular school day – most commonly to facilitate morning arrival. Those doors that may need to remain unlocked during a portion of the school/business day should be monitored in some fashion. All entrances are to be secured shortly after the start of the instructional day.

Once secured for the instructional day, the District utilizes an audio and video electronic, visitor access control system at their primary entrances that provides a means for school staff to remotely screen and approve visitors prior to actually granting them access into the building.

The District also utilizes a keyless entry / electronic access control system allowing specific access (designated days/times, and entrances) to authorized personnel by presenting a programmed

proximity identification card to a reading device at those entrances. This system also automatically unlocks and locks specific entrances to accommodate normal arrival, dismissal and after school activity.

- Staff Photo Identification Badges

All Red Creek CSD employees are issued photo identification (proximity) badges that are to be displayed at all times while on school district property to assist visitors, students and staff in identifying employees as well as possible intruders.

- Visitor Policy

The District Visitors to Schools policy will provide the detail related to how visitors are handled at each building. Should an unannounced visitor appear at a classroom, office or be observed in the hallways without proper identification (visitor pass or a note from the office), staff may approach and inquire as to a subject's business or contact their school's main office immediately.

- Visitors will be screened using the Raptor Visitor System.

- Student Sign-Out Procedures

Schools are diligent in ensuring that only those persons authorized to sign-out students are allowed to do so utilizing the applicable data maintained within School Tool. Staff may also require a photo ID if the requesting party is unknown to them and may contact a parent or guardian for confirmation when deemed appropriate.

- Video Surveillance

A digital video surveillance system is in service at all Red Creek CSD facilities to assist in monitoring, deterring, and recording activity in high use areas, as well as areas of chronic concern or perceived vulnerability.

- Fire Alarm

A fire detection alarm that is linked to a central monitoring station is in service at all Red Creek CSD facilities. These alarms and fire response procedures are tested regularly consistent with New York State Education Department regulations.

- School Resource Officer (SRO) is contracted with the Wayne County Sheriff's Office.

### Vital Educational Agency Information

The Red Creek CSD maintains general information about each educational agency located in the BOCES service area, including the business and home telephone numbers of key officials of each such educational agency.

## **B. Early Detection of Potentially Violent Behaviors**

The District recognizes the importance of early recognition and intervention into conflicts and potentially violent or threatening behaviors. As such, the District will ensure that appropriate school violence prevention and intervention training will be incorporated into all phases of staff professional development.

Informative materials regarding the early detection of potentially violent behaviors shall be made available to the school community through various means that may include brochures, district-wide newsletters, and the district website.

Students, parents, and all staff are encouraged to share information regarding any student conflicts, threats or troubling behaviors with the appropriate school administrator so that an investigation can commence in a timely fashion if deemed necessary.

This communication may extend beyond Red Creek CSD personnel to include members of the District's Safety Team, Law Enforcement, Mental Health Professionals, etc., when deemed appropriate and within existing legal parameters.

## **C. Hazard Identification**

The list of sites of potential emergency include: all school buildings, playground areas, properties adjacent to schools, buses, and off-site field trips. The School Safety Team has assessed Red Creek CSD facilities for any unique hazards and has documented them on the Building-Level Emergency Response Plan.

## **D. Construction and Capital Project Safety**

Each school under the direction of the Superintendent of Schools and the Building Maintenance Mechanic as well as the involved construction manager (if applicable) will take steps to ensure the safety and security of the students and staff during periods of construction. This requirement may include conducting background checks on workers, maintaining sufficient and appropriate emergency egress routes, and notifying building occupants of any changes.

The District-Level Safety Team, or a subcommittee thereof, will be involved in monitoring safety during construction projects as needed. The Committee may include the Building Maintenance Mechanic, Superintendent of Schools, architect, construction manager, and contractors. The committee will hold additional meetings as needed to review issues and address complaints related to health and safety resulting from the construction project.

## **SECTION III: RESPONSE**

### **A. Notification and Activation (Internal and External Communications)**

Incident Commanders are authorized to and will initiate contact with the appropriate law enforcement officials in the event of a violent incident. The district maintains a list of local law enforcement agencies, and the designation of the individual who is authorized to contact the law enforcement agencies.

The process for informing educational agencies within a school district of a disaster or an act of violence include the following possible forms of communication: telephone, e-mail, district radio system, NOAA weather radio, district website, intercom or PA system, local media, others as appropriate or necessary.

In the event of an emergency, or impending emergency, the District will notify all principals/designees within the district to take the appropriate action. The District will utilize Parent Square to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal. The District might also use social media or the local news media in some instances to post information.

## **B. Situational Responses**

### Multi-Hazard Response

In the event of a catastrophic emergency (fire, building collapse, etc.) the evacuation of the building and the preservation of life is the only consideration. It is anticipated that specific procedures outlined in this document, particularly as they relate to notifications, line of authority, etc., may well be violated in cases involving catastrophic emergencies.

There are many variables that could impact the manner in which the Building Emergency Response Team responds to a particular occurrence. These variables could include: time of day, weather, age of students, and location of students, anticipated response time of emergency responders, availability of support personnel, and availability of transportation. Specific emergency situations are identified, and standard response procedures are detailed in the Building-Level Emergency Response Plan; however, given the aforementioned variables, it is impractical to try and map out the specific steps to take for every conceivable scenario. It is more practical to focus on just a few critical decisions that need to be made in every emergency pursuant to our primary goal of preventing injury and loss of life.

The Superintendent of Schools is designated as the person in charge – the Incident Commander – during the initial response to any emergency in the District. The Superintendent of Schools will provide leadership, organize activities, and disseminate information with the assistance of the Building Emergency Response Team (BERT) if needed. If the Superintendent of Schools is unavailable, or not on site, Brian Smiley, District Safety Coordinator, will act in their absence with the same authority and responsibility.

In most instances where this level of school response is warranted, the District will be seeking assistance from outside emergency responders in resolving the situation. As such, the immediate objective is generally to contain and manage the incident until the emergency responders arrive on scene.

Procedures for obtaining advice and assistance from local government officials including the county or city officials responsible for implementation of Article 2-B of the Executive Law. By

contacting 9-1-1, the system for coordinating the delivery of assistance from both the county and local agencies will be activated.

The Building-Level Emergency Response Plan includes procedures and actions that will be implemented in the event of the occurrence of a hazardous event. The plan is not available to the public, nor are they to be included in the District-Level Safety Plan.

#### Responses to Acts of Violence: Implied or Direct Threats

The District policies and procedures for responding to implied or direct threats of violence, including suicide, by students, teachers, other school personnel and visitors to the school will be included in the Building-Level Emergency Response Plan. The following types of procedure(s) may be used by the District:

- Use of staff trained in de-escalation or other strategies to diffuse the situation.
- Inform Director or Principal of implied or direct threat.
- Determine level of threat with Superintendent of Schools/Designee.
- Contact appropriate law enforcement agency, if necessary.
- Monitor situation, adjust response as appropriate, and include the possible use of the Emergency Response Team.

#### Acts of Violence

The District policies and procedures for responding to acts of violence by students, teachers, other school personnel and visitors to the school will be included in the Building-Level Emergency Response Plan. The following types of procedure(s) could be used by the District:

- Determine level of threat with Superintendent of Schools/Designee.
- If the situation warrants, isolate the immediate area and evacuate if appropriate.
- Inform Director or Principal.
- If necessary, initiate lockdown procedure, and contact appropriate law enforcement agency.
- Monitor situation; adjust response as appropriate; if necessary, initiate early dismissal, sheltering or evacuation procedures.

#### Response Protocols

The District selection of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage takings, intrusions and kidnappings will be included in the Building-Level Emergency Response Plan. The following possible protocols are provided as examples:

- Identification of decision-makers
- Plans to safeguard students and staff
- Procedures to provide transportation, if necessary
- Procedures to notify parents
- Procedures to notify media
- Debriefing procedures

### Arrangements for Obtaining Emergency Assistance from Local Government

Arrangements for obtaining assistance during emergencies from emergency services organizations and local government agencies include contacting 9-1-1 immediately. Additional support can be obtained by contacting the Wayne County Sheriff's Department, NY State Police, Red Creek Fire Department, and the Wayne County Emergency Management Office.

### District Resources Available for Use in an Emergency

District resources which may be available during an emergency include all of the District's vans, trucks, heavy equipment, and other vehicles. We can also contact the Village of Red Creek DPW or the Wayne County Highway Department to request additional heavy equipment and other resources.

### Procedures to Coordinate the Use of School District Resources and Manpower during Emergencies

The Red Creek CSD will use the Incident Command System to coordinate the use of school district resources and manpower during emergencies.

### Protective Action Options

Plans for taking the following actions in response to an emergency where appropriate will be included in the Building-Level Emergency Response Plan: school cancellation, early dismissal, evacuation, and sheltering.

## **SECTION IV: RECOVERY**

### **A. District Support for Buildings**

After an incident, the District Crisis Plan will be initiated by the appropriate level emergency response team. Necessary resources will be deployed in order to support the Emergency Response Team and the Post-Incident Response Team.

### **B. Disaster Mental Health Services**

Mental health services needed will be addressed by the appropriate emergency response team using the District Crisis Plan.

## **ADDENDUM: SCHOOL DISTRICT REMOTE PLAN**

Red Creek Central School District is dedicated to provide quality and uninterrupted instructional support to its students, teachers and staff. This Remote Learning Plan (RLP) addendum will outline the steps,

processes and procedure, that we will take in the event that remote learning is needed. While in-person instruction will always be our main goal, we do recognize that at times remote learning is needed. The addendum will outline what will be provided to administrators, staff, teachers, and students. This will include but not be limited to:

- Technology Hardware – Personal Computers, laptops, Chromebooks
- Technology Hardware – Monitors, keyboards, mice
- Audio/Video equipment – Web-cameras, Microphone/speaker
- Internet Access – Mifi devices
- Remote access to staff resources and data files
- Licensing for remote software, such as ZOOM, Google Meet, Microsoft Teams
- Access to file sharing systems and Learning Management Systems (LMS)
- Hardware/Software Technical Support
- Instructional Technology Support
- Access to remote learning resources
- Communication

In the event there is the need for remote learning, the Technology (IT) Department, will put into action our RLP. The plan is able to be scaled to an individual level all the way up to the entire school district, and any combination in between.

## **A. Individual Plan Supports**

### **Technology Hardware – Computer devices**

Technology hardware will be supplied to any staff or students that require it. Appropriate equipment such as Personal Desktop Computers, Laptops, Chromebooks, and iPads would be distributed to support the RLP in part or whole. All hardware would be processed by the technical team, before distribution, to ensure that they are up to date with operating system, as well as security and filtering software. All hardware will be remotely managed and tracked by the Technology (IT) technical staff.

#### **Technology Hardware – Accessories**

Technology hardware accessories will be provided, if needed, to enable the remote workstations to be enhanced for efficiency and accessibility. These accessories would include separate and possibly larger single or dual computer displays. In addition, separate full-sized keyboards and external mice would be provided as well.

#### **Audio/Video (A/V) equipment**

To make sure that teacher student interactions can take place and can be substantive, the Technology (IT) department will make available, Web-cameras to staff and students that need them. Most portable devices have built in cameras that would be more than adequate to enable remote Audio/Video connections. In the case that a separate microphone or speaker is need they will be provided. The A/V equipment will also be available to all non-instructional staff to allow for operational continuity of the district. This would include the offices Special Education, Business, and District Administration, along with any other offices at the approval of the Superintendent of Schools.

#### **Internet Access**

If there is a need to grant internet access to anyone who does not have it, a portable cellular MiFi device will be distributed with consultation and agreement of the department head.

### **Remote Access- Data**

Remote access to data files and resources is key to a successful RLP. The Technology (IT) department will provide access to the main data file server through a Virtual private Network (VPN) or remote access through our Classlink system. Staff, including administrators and teachers, already have access to Classlink, that enables them to reach their files remotely from any device. Students would have access to their instructional materials and lessons through systems such as Google classrooms or a full Learning Management System (LMS). This will allow teachers to manage their classroom content as well as file share, bi-directionally, with their students. Teachers would also have continued access to their student management system, currently School Tool, through the internet.

### **Remote Software**

Licenses for remote videoconferencing software will be provided to all staff. Systems that we support are:

- ZOOM
- Google Meet
- Microsoft Teams

### **Hardware/Software Technical Support**

Remote Technical Support will continue to be provided. Our technical support web presence is located on our Red Creek Central School District web site. It can be accessed through the link below.

<https://www.rccsd.org/departments/instructional-technology>

The site contains contact information and the hours of operation. It also includes guides for parent and student support for the most common technical issues as it pertains to them. The site will be always evolving with new information and updates.

### **Instructional Technology Integration Support**

The Technology (IT) Department provides Instructional Technology Integration training and professional development for all hardware and software platforms that are supported. The staff consists of Model Schools Instructional Integration Specialists that directly provide the training. This training is ongoing whether in a remote session or not. The Instructional Technology Integration Specialists role is to support instructional technology and curriculum initiatives. The primary focus of the position is to enrich and support teaching and learning, while strengthening the technology skills of students, teachers, and staff through technology integration within the curriculum. This position also provides, staff development, and instructional support to all instructional and administrative staff. The goal of the specialist is to promote the use of technology to support student achievement in the Pre-K-12 classroom. The Integration Specialists have also created and maintain a Remote learning Tool kit web presence. These resources are available to anyone. It is located at the link below.

<https://www.rccsd.org/departments/instructional-technology/red-creek-chromebook-handbook>

### **Communication**

Highly effective communication is key to any organization, whether their day-to-day operation is person to person or remote. However, in a fully remote environment it is extremely important. The Technology (IT) department will maintain the lines of communication to all Red Creek Central School District employees. Current methods to reach our organization include:

- Telephone
- Email
- Texting
- Web page banners and announcements
- Social media

In addition, we also have in place a mass communication system, currently Red Creek uses Parent Square for mass communication. All staff can be reached by at least one of the following.

- Email
- Text – registered to receive
- Phone call
