GREENEVIEW LOCAL SCHOOLS NOVEMBER 5, 2024 BALLOT ISSUE
MONTHLY COST CALCULATION GUIDE

PROPERTY TYPE: SINGLE FAMILY
PROPERTY VALUE: $217,000

Here's how to break down what the 3.10 mill combined bond issue/PI levy on the November 5 ballot will cost monthly for a residence valued at $217,000 as an example.

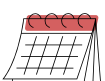

First, assess the property value at Ohio's rate of 35% of the home's total value.

$217,000 x 0.35 = $75,950
(the new assessed property value)

Second, remember that a mill is defined as 1/1000 of $1. Greeneview's millage for this ballot issue is 3.10 mills.

(3.10/1000) x $75,950 = $235.45
(the total amount owed per year for a home with a $217,000 property value)

Third, take the total amount owed per year and divide it by the number of months in a year.

$235.45÷ 12 = $19.62
(the total amount owed per month for a home with a $217,000 property value)
