

AGREEMENT FOR TEAM PARTICIPATION

[Including Waivers and Releases of Potential Claims]

This Agreement must be signed and returned to the School Office before a Student can participate in Team Activities
Each Team must be listed below. If not listed, a separate Participation Agreement will be required.

Additional Required Forms – Concussion and Head Injury Information Sheet & Sports Physical Examination Form

Student:	Address:

*** LIST ALL TEAMS THE STUDENT PLANS TO PARTICIPATE IN.**

In consideration of the Student's ability to participate on a Team [including any Sport, Cheerleading, Dance, or Marching Band], including try-outs, practices, pre-season or seasonal strength or training sessions or training camps, or actual participation in Team events, shows, performances, or competitions, or the traveling to or from any of these activities ("Team Activities"), the Student and Parent/Legal Guardian ("Adult") signing this Agreement agree as follows:

1. It is a privilege, not a right, to participate in extra-curricular activities, including Team Activities. The privilege may be revoked at any time, for any reason that does not violate Federal or State law or District policies or procedures. There is no guarantee that the Student will make a Team, remain on a Team, or actively participate in Team events, shows, performances, or competitions. Such matters shall remain exclusively within the judgment and discretion of the supervising District employee or volunteer coach.

2. The Student and the Adult understand the nature of the Team, including the inherent or potential risks of Team Activities. The Student is in sufficiently good health and physical condition to participate in Team Activities, and voluntarily wishes to participate in Team Activities. Before participating in any Team Activity, a properly executed Sports Physical Examination Form and Concussion Head Injury Sheet shall be submitted to the school office (valid for one academic year, Fall/Winter/Spring Activities).

3. The Student shall comply with the instruction and directions of Team Activity teachers, coaches, supervisors, chaperones, and instructors. During the Student's participation in Team Activities, as well as academic and/or other school activities, the Student shall comply with all applicable Codes of Conduct. The Student shall also generally conduct himself/herself at all times in keeping with the highest moral and ethical standards so as to reflect positively on himself/herself, the Team and the District. Failure to meet these obligations may, in the discretion of the District, result in removal from the Team and/or Team Activities. Should the Student's violation of these obligations result in bodily injury or property damage, the Adult agrees to (a) pay to restore or replace the damaged property, (b) pay for bodily injury damages to an individual, and (c) defend, protect and hold the District harmless from such claims.

4. Team Activities contain potential risks of harm or injury, including harm or injury that may lead to permanent or serious physical injury to the Student, including paralysis, brain injury, or death ("Injuries"). Injuries might arise from the Student's actions or inactions, the actions or inactions of another Student or participant in a Team Activity, or the actual or alleged failure by District employees, agents or volunteers to adequately coach, train, instruct, or supervise Team Activities. Injuries might also arise from an actual or alleged failure to properly maintain, use, repair, or replace physical facilities or equipment available for Team Activities. Injuries might also arise from undiagnosed, improperly diagnosed, untreated, improperly treated, or untimely treated actual or potential physical conditions or Injuries, whether or not caused by or related to the Student's participation in Team Activities. All such risks are deemed to be inherent to the Student's participation in Team Activities. To the fullest extent allowed by law, the Student and Adult therefore also fully assume all such risks and waive and release any potential future claim they might otherwise have been able to assert against the District and any Board Member, employee, agent, or volunteer of the District ("Released Parties"), including any claim that could otherwise have been made on behalf of the Student or any parent, administrator, executor, trustee, guardian, assignee or family member. The Student and Adult further understand that Team Activities and transportation to and/or from Team Activities are "field trips" for which there is immunity from liability pursuant to Education Code Section 35330.

5. If the Student believes that an unsafe condition or circumstance exists, or otherwise feels or believes that continued participation in a Team Activity might present a risk of Injury, the Student will immediately discontinue further participation in the Team Activity, notify School personnel of the Student's belief, and notify a parent or guardian of the Student's belief. The parent or guardian shall thereafter prevent the Student from participating in the Team Activity until the unsafe condition or circumstance is addressed or remedied to their satisfaction.

6. Emergency medical information regarding the Student is on file with the District and is current. The Adult agrees to provide updated medical information during the course of the Student's participation in Team Activities. If an injury or medical emergency occurs during Team Activities, District employees, agents or volunteers have my express permission to administer or to authorize the administration of urgent or emergency care, including the transportation of the Student to an urgent care or emergency care provider.

In such circumstances, notice to me and/or the Emergency Contact of the injury or medical emergency may be delayed. Therefore, any urgent or emergency care provider has my express authority to conduct diagnostic or anesthetic procedures, and/or to provide medical care or treatment (including surgery), as they may deem reasonable or necessary under all existing circumstances. All costs and expenses associated with such care are solely my responsibility. An Adult can only withhold this authorization by filing an Objection to Medical Care (Education 49407) that is based on their personally held religious beliefs.

7. Education Code Section 32221.5 requires us to notify you that: Under state law, school districts are required to ensure that all members of school athletic teams have accidental injury insurance that covers medical and hospital expenses. This insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses. Some pupils may qualify to enroll in no-cost or low-cost local, state, or federally sponsored health insurance programs. Information about these programs may be obtained by calling the District. Education Code Section 32221 requires that such insurance cover medical and hospital expenses resulting from bodily injuries in one of the following amounts: (a) a group or individual medical plan with accident benefits of at least \$200 for each occurrence and major medical coverage of at least \$10,000, with no more than \$100 deductible and no less than 80% payable for each occurrence; (b) group or individual medical plans which are certified by the Insurance Commissioner to be equivalent to the required coverage of at least \$1,500; or (c) at least \$1,500 for all such medical and hospital expenses. You may meet this obligation in one of two ways:

Option 1: Private medical insurance/Medical. If this option is selected, please provide _____ (Name of Insurer/Provider) and _____ (Policy number/Identifying number), _____ (list coverage dates or "continuous"). The Adult agrees that the Student is covered, and will remain covered during the length of the Team season and that coverage exists in the amounts required by Section 32221.

Option 2: Purchase insurance meeting the requirements of Section 32221, for the period during which the Student is participating on the Team, through a coverage provider made available through the District [please contact the District to gain additional information regarding this program]. If you are financially unable to pay for such insurance, a payment waiver can be submitted [forms seeking this waiver are also available from the District] and, if no other alternate funding is available through private or charitable organizations, the District will obtain financing for, or provide, the required coverage.

8. Employees, agents or volunteers of the District, members of the press or media, or other persons who may attend or participate in Team Activities, may photograph, videotape, or take statements from the Student. Such photographs, videotapes, recordings, or written statements may be published or reproduced in a manner showing the Student's name, face, likeness, voice, thoughts, beliefs, or appearance to third parties, including, without limitation, webcasts, television, motion pictures, films, newspapers, yearbooks, and magazines. Such published or reproduced items, whether or not for a profit, may be used for security, training, advertising, news, publicity, promotional, informational, or any other lawful purpose. We authorize and consent to any such publications or reproductions, without compensation, and without reservation or limitation.

9. This Agreement is to be broadly construed to enforce the purposes and agreements set forth above, and shall not be construed against the Released Parties solely on the basis that this Agreement was drafted by the District. If any part of this Agreement is deemed invalid or ineffective, all other provisions shall remain in force. No oral modification of this Agreement, or alleged change or modification of its terms by subsequent conduct or oral statement, is allowed. This Agreement contains the sole and exclusive understanding of the parties, with no other representation relied upon by the Adult or Student in determining whether to execute this Agreement or in agreeing to participate in Team Activities.

AS THE ADULT SIGNING BELOW: (1) I AM GIVING UP SUBSTANTIAL ACTUAL OR POTENTIAL RIGHTS IN ORDER TO ALLOW THE STUDENT TO PARTICIPATE IN TEAM ACTIVITIES; (2) I HAVE SIGNED THIS AGREEMENT WITHOUT ANY INDUCEMENT OR ASSURANCE OF ANY NATURE, AND WITH FULL APPRECIATION OF THE RISKS INHERENT IN TEAM ACTIVITIES; (3) I HAVE NO QUESTION REGARDING THE SCOPE OR INTENT OF THIS AGREEMENT; (4) I, AS A PARENT OR LEGAL GUARDIAN, HAVE THE RIGHT AND AUTHORITY TO ENTER INTO THIS AGREEMENT, AND TO BIND MYSELF, THE STUDENT, AND ANY AND ANY OTHER FAMILY MEMBER, PERSONAL REPRESENTATIVE, ASSIGN, HEIR, TRUSTEE, OR GUARDIAN TO THE TERMS OF THIS AGREEMENT AND I HAVE EXPLAINED THIS AGREEMENT TO THE STUDENT, WHO UNDERSTANDS HIS/HER OBLIGATIONS.

14.	☐	☐	Seizures?	28.	☐	☐	Parent or grandparent requiring treatment for heart condition less than 50 years of age
15.	☐	☐	Severe or repeated instances of muscle cramps?				
Date of last known tetanus (lockjaw) shot: _____ Date of last complete physical examination: _____				29.	☐	☐	Been seen by a physician on an emergency or urgent basis in the last 12-months?

Explain all "YES" answers here along with any other fact or circumstance that should be disclosed prior to the examination (use reverse of form if needed):

PARENT/GUARDIAN'S AUTHORIZATION: I authorize a physician or duly authorized and supervised physician's assistant or nurse practitioner to perform a Sports Physical Evaluation on the student. The information set forth above is complete and accurate and I know of no reason why the student cannot fully and safely participate in the listed sports. I understand that this is solely a screening examination and that the absence of any health conditions or concerns listed below does not mean that students are free from actual or potential harmful health conditions that may cause the student injury or death while participating in sports. Any question or concern I may have regarding the student's health or safety will be referred to our personal physician or health care provider for review and evaluation.

Concussion

INFORMATION SHEET

CDC HEADS UP
SAFE BRAIN. STRONGER FUTURE.

This sheet has information to help protect your children or teens from concussion or other serious brain injury. Use this information at your children's or teens' games and practices to learn how to spot a concussion and what to do if a concussion occurs.

What Is a Concussion?

A concussion is a type of traumatic brain injury—or TBI—caused by a bump, blow, or jolt to the head or by a hit to the body that causes the head and brain to move quickly back and forth. This fast movement can cause the brain to bounce around or twist in the skull, creating chemical changes in the brain and sometimes stretching and damaging the brain cells.

How Can I Help Keep My Children or Teens Safe?

Sports are a great way for children and teens to stay healthy and can help them do well in school. To help lower your children's or teens' chances of getting a concussion or other serious brain injury, you should:

- Help create a culture of safety for the team.
 - Work with their coach to teach ways to lower the chances of getting a concussion.
 - Talk with your children or teens about concussion and ask if they have concerns about reporting a concussion. Talk with them about their concerns; emphasize the importance of reporting concussions and taking time to recover from one.
 - Ensure that they follow their coach's rules for safety and the rules of the sport.
 - Tell your children or teens that you expect them to practice good sportsmanship at all times.
- When appropriate for the sport or activity, teach your children or teens that they must wear a helmet to lower the chances of the most serious types of brain or head injury. However, there is no "concussion-proof" helmet. So, even with a helmet, it is important for children and teens to avoid hits to the head.

Plan ahead. What do you want your child or teen to know about concussion?

How Can I Spot a Possible Concussion?

Children and teens who show or report one or more of the signs and symptoms listed below—or simply say they just "don't feel right" after a bump, blow, or jolt to the head or body—may have a concussion or other serious brain injury.

Signs Observed by Parents or Coaches

- Appears dazed or stunned
- Forgets an instruction, is confused about an assignment or position, or is unsure of the game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events *prior to* or *after* a hit or fall

Symptoms Reported by Children and Teens

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness, or double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Confusion, or concentration or memory problems
- Just not "feeling right," or "feeling down"

Talk with your children and teens about concussion. Tell them to report their concussion symptoms to you and their coach right away. Some children and teens think concussions aren't serious, or worry that if they report a concussion they will lose their position on the team or look weak. Be sure to remind them that *it's better to miss one game than the whole season.*

cdc.gov/HEADSUP

CONCUSSIONS AFFECT EACH CHILD AND TEEN DIFFERENTLY.

While most children and teens with a concussion feel better within a couple of weeks, some will have symptoms for months or longer. Talk with your children's or teens' healthcare provider if their concussion symptoms do not go away, or if they get worse after they return to their regular activities:

What Are Some More Serious Danger Signs to Look Out For?

In rare cases, a dangerous collection of blood (hematoma) may form on the brain after a bump, blow, or jolt to the head or body and can squeeze the brain against the skull. Call 9-1-1 or take your child or teen to the emergency department right away if, after a bump, blow, or jolt to the head or body, he or she has one or more of these danger signs:

- One pupil larger than the other
- Drowsiness or inability to wake up
- A headache that gets worse and does not go away
- Slurred speech, weakness, numbness, or decreased coordination
- Repeated vomiting or nausea, convulsions or seizures (shaking or twitching)
- Unusual behavior, increased confusion, restlessness, or agitation
- Loss of consciousness (passed out/knocked out). Even a brief loss of consciousness should be taken seriously

➤ **Children and teens** who continue to play while having concussion symptoms, or who return to play too soon—while the brain is still healing—have a greater chance of getting another concussion. A repeat concussion that occurs while the brain is still healing from the first injury can be very serious, and can affect a child or teen for a lifetime. It can even be fatal.

What Should I Do If My Child or Teen Has a Possible Concussion?

As a parent, if you think your child or teen may have a concussion, you should:

1. Remove your child or teen from play.
2. Keep your child or teen out of play the day of the injury. Your child or teen should be seen by a healthcare provider and only return to play with permission from a healthcare provider who is experienced in evaluating for concussion.
3. Ask your child's or teen's healthcare provider for written instructions on helping your child or teen return to school. You can give the instructions to your child's or teen's school nurse and teacher(s) and return-to-play instructions to the coach and/or athletic trainer.

Do not try to judge the severity of the injury yourself. Only a healthcare provider should assess a child or teen for a possible concussion. Concussion signs and symptoms often show up soon after the injury. But you may not know how serious the concussion is at first, and some symptoms may not show up for hours or days.

The brain needs time to heal after a concussion. A child's or teen's return to school and sports should be a gradual process that is carefully managed and monitored by a healthcare provider.

To learn more, go to cdc.gov/HEADSUP

Discuss the risks of concussion and other serious brain injuries with your child or teen, and have each person sign below.

Detach the section below, and keep this information sheet to use at your children's or teens' games and practices to help protect them from concussion or other serious brain injuries.
