- Log into your account using the same username and password from the web version.

### Features of PowerSchool Mobile App:

- Access from iOS or Android mobile devices
- Real-time grades and attendance
- Teacher comments
- See all of your children under one parent account
- Course schedule
- Fee transactions and balance
- Automatic email messaging
- Instant push notifications for attendance or grade changes
- Track each student with grade trends

## Canvas App –

*Available for mobiles devices in both the Apple Store and Google Play*

### Features of Canvas:

- Access from iOS or Android mobile devices, and the web
- View course materials
- View course calendar
- Access student homework assignments

### Downloading the Mobile App:

- Find and download the app in your Apple Store, or Google Play Account.
- Log into your account using the same username and password from the web version.

### Creating an Observer Account:

- You must first create an observer account online (more detailed instructions can be found on the North Website).
- Your student must log into their account → click on account, and then settings. On the far right click the button that says Pair with Observer. Copy the code to use for the observer account.
- Go to <https://sites.google.com/pennridge.us/canvaslms>
- Select Parents & Guest → click on “Click Here for an Account”. Complete the information using the pairing code from your student.
- You are now an observer in your student’s class.
