

Westonka Public School District (0277-01)

District Boundaries and Program Locations

For a listing of public school programs within this school district, go to page 3. See page 2 for an additional map of specific attendance areas.

This map is intended to display a single public school district and the pertinent public school locations. School locations are labeled if they are classified as elementary, middle, or high schools. The school district boundary appearing on the map does not necessarily represent the legal boundary of the district. It is a generalization of the boundary maintained by the Department of Education, based on land parcel information from Minnesota counties. Please contact your county auditor or assessor to obtain an accurate legal description of the boundary.

Westonka Public School District Elementary Schools and Attendance Areas

This map is intended to convey specific elementary attendance areas as defined by the school district. Those attendance areas are labeled in all caps, along the edge of the boundary if necessary. Actual elementary school locations are included, regardless of whether or not they have an assigned attendance area. In order to reduce overlapping labels in this map, elementary schools are labeled only with their school number. (See the school listing on page 3 for reference.) This map is informational only and may not be accurate; please note that it is not mandatory for districts to provide information on attendance areas to MDE, and each district determines their own rules on which students attend specific schools.
