

STUDENT LEADERSHIP

West Middle School BOE Presentation

Leadership through service is a key part of Beta Club. The leadership opportunities for Beta students at West Middle allow us to develop habits and skills that will enable us to succeed personally, professionally, academically, and as members of society. It's important for students to experience leadership opportunities during their schooling, to learn the art of building relationships within teams, defining identities, and achieving tasks effectively. These leadership skills will be important when applying for college or a job.

The Importance of Student Leadership

- It lies at the heart of building community in our school and community.
- It engages students in the systems, processes and learning culture of our school and community
- It promotes self efficacy and social awareness/resilience
- It builds trust within the organization/community
- It allows students to be a powerful resource in developing partnerships in the school and community.
- Investing in student leadership is a potential direct long term investment in the community
