

What is Impacting Student Learning? Student Advisory Council

December 15, 2021

Classroom – +

- Doris Cuthrell always caters to specific learning styles
- All the teachers that I take classes with are good for me. Because they explain to me if I have trouble with a problem.
- Mrs. Martin and other teachers: recognizing and dedicating the efforts needed to prepare students for their state biology exam. Cycotte lets students gather and have fun during lunch to destress.
- Williams and Hare offering tutoring sessions for MCC
- Georgepul helping students falling behind
- We love Mrs. Pratt
- Daywalt helping school spirit activities and making sure freshmen stay on track AVID classes
- After finishing work we get on computer or do missing work
- Give us time to do missing work
- Make sure we focus
- Help us a lot
- Make sure we know how to do the work
- Catch us up if grades lower

Classroom – Δ

- Less work more teaching
- More interaction

Schools +

- Dedicating English 4 to college applications and future plans
- First two weeks of each semester we do team building activities
- Pep rallies with fun games that involve whole school
- Prizes and encouragements during exam times
- We get time in all our classes to do work and have a good time
- We all help each other when we don't get it
- Get different grade levels to interact with each other (mentoring sessions)
- Vending machines allow students to have access to food during class changes (MCEC)
- Hour lunches for extra work or relax time (MCEC)
- Relaxed dress code making us more comfortable (MCEC)
- They provide us with service hour opportunities and Pre-college programs
- A lot of kids in the class together
- Students are allowed to have phones because we have no school bell or intercom system (MCEC)

Schools- Δ

- Everything is good to me. The only thing that needs to be in the school is a vending machine for some of us students to get a break and get our own food when it is lunch time.
- No AP classes
- MCEC able to utilize "fee waiver loophole" and MCHS could not
- MCEC has an hour for lunch, MCHS only has 25 minutes
- MCEC can wear hats and pajamas, MCHS can not
- MCEC lunch staff for the early college tend to not bring enough food for students
- During class teachers need to explain things better. Allow them to go back to the classroom for help during exploratory.

Future Topics

- Have gym every day instead of twice a week
- Everything is good the only future thing I want them to change is the masks and get a chance to go out when it is lunch break
- Senior bell
- Parking pass price
- Course offerings (AP)
- Hats, hoods and dress codes
- On our phones, active time and lunch
- Longer bathroom breaks
- Sports and band
- Bathroom numbers
