The board is committed to providing a safe, orderly, and inviting learning environment and is implementing a layered mitigation strategy to lower the risk of COVID-19 exposure and spread in the schools. The board recognizes that the Centers for Disease Control (CDC), the American Academy of Pediatrics, the Occupational Health and Safety Administration, and the North Carolina Department of Health and Human Services recommend the use of face coverings in schools as a method to reduce the spread of COVID-19 and limit the need for quarantining. The use of face coverings will be required to begin the 2021-2022 school year while inside all school buildings and on school buses or other school transportation vehicles, subject to the exclusions and exemptions in the CDC Order that requires the wearing of face coverings on all public transportation conveyances.

This policy will remain in effect for the 2021-2022 school year. At least once a month, the board will review this policy and consider the need for modifications. The board will vote to approve this policy, with any necessary modifications, at a regularly scheduled board meeting each month.
