SUBJ: DISCUSSION ITEM (School Safety)

Over just the last month, we have dealt with a number of incidents of alleged/possible threats to Montgomery Central High School on social media. While one of the possible threats could not be found on social media after an exhaustive search, one did turn out to be a generic threat hoax aimed at "Central High School" that has made rounds all across the country since last year. I would like to have a discussion with the Board regarding any thoughts or concerns you may have and if you would like us to look at enhanced security measures for the school. Some examples could include, but not be limited to, the use of metal detectors to enter the building and the use of clear book bags amongst the student population. We are happy to hear the discussion and entertain any other ideas along those lines if the Board wishes to pursue enhanced security measures at MCHS.

I am available to answer any questions you might have.
