Students Receive a Daily Behavior Grade Based On Happy Faces and Sad Faces

*If you attend a full day at MLA you can possibly receive 7 Happy Faces. This would give you 7/7 or 100%

*Nobody is perfect so maybe in one block you were shouting out (multiple times) instead of raising your hand. This warranted a straight face which is worth ½ a point. At the end of the day your score may be 6.5/7 or 93%

*We all have a bad day every once in a while. Let's say you were talking back to your teacher because you didn't want to do the assignment or you used profanity at a student who was bothering you. This would warrant a sad face. You might get 6/7 or 86%

Students Daily Grade's are Recorded in a Google Doc
Points are earned based on student's grades (86 points for 86%).
Extra points can be given by teachers.

*At the end of the week each student receives a weekly grade average. This information is put into graph form.

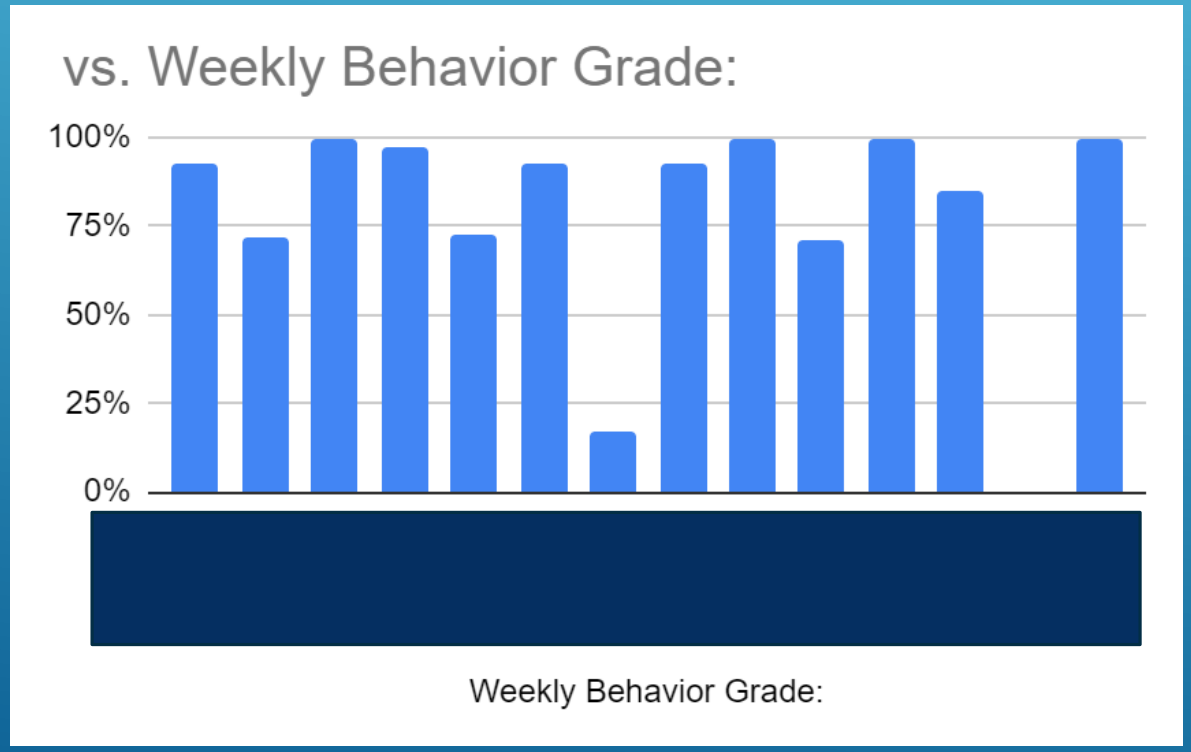

*This documentation is used to see student's improvement from week to week or if a student is having a more difficult time.

*It is also documentation for Teachers to see if we need to make changes in what we are doing and if different strategies need to be implemented.

*We use this documentation to determine if a student is ready to return to their home Middle School.

*If a student is on an abbreviated day we use this information to determine if they are ready for a full day.

*This information is also used on students IEP's to review their behavior progress and helps in making new goals.
