Summer Camps Overview 2024

Introduction

- Overview of the summer camps hosted by Montgomery County Schools and Montgomery Community College.
- Unique career development opportunities for our students, preparing them for future academic and career success.
- Opportunities to earn credit at the summer academy

Summer Academy

Hosted at the middle and high school level

85 High School Participants

166 Middle School Participants

Camp Timberwolf

- Aimed at rising 9th graders transitioning to Montgomery Central and Montgomery Early College.

- Focused on easing the transition to high school with team-building activities, academic readiness workshops, and campus tours.

Camp Timberwolf

- Students participated in classes on leadership, collaboration, and communication.
- Engaged in a STEM activity at iFly in Concord, calculating terminal velocity.
- Collected and analyzed water specimens at Low Water Bridge.

Culinary Camp

- Food Safety
- Kitchen Safety
- Culinary Skills Development
- Hands-on learning by doing

Health Science and First Aid

- Learned how to perform CPR and the Heimlich maneuver on adults, children, and infants.
- Provided students with insights into various medical professions.

- Created their own “first aid guides” to accompany their first aid kits.

First in Flight Drone Camp

- Focused on drone technology, flight mechanics, and practical applications.

- Air Vision, LLC providing content and equipment.

First in Flight Drone Camp

- Hands-on flying experience with various drone models.
- Lessons on drone safety, regulations, and career opportunities.
- End-of-camp drone flying competition.

Ag Central

- Explored agricultural science and technology.
- Lessons on sustainable farming practices and agribusiness.
- Learned about honeybees, sampled honey, and propagated and transplanted plants to take home.

Ag Central

- Interaction with local farmers and agricultural experts.

- Natural resources day, created edible soil horizons, and discovered natural resources on campus.

Sheriff’s Camp

- Montgomery County Sheriff’s department engaged students in solving a mystery.
- Insight into how forensic science works in real-life investigations.
- Interaction with law enforcement professionals to learn about their roles and responsibilities.

Additional Camps

- Allied Health Camp
- Coding Camp
- Teacher Cadet Camp
- Pottery Camp
- Stem Camp
