Student Engagement

Engaged students are 2.5 times more likely to say that they get excellent grades and do well in school, and they are 4.5 times more likely to be hopeful about the future than their actively disengaged peers.

3 Types of Engagement
-Cognitive
-Behavioral
-Emotional
Emotional can be impacted by engaging in things that are enjoyable. A positive emotional engagement can also support the student to persevere during times of failure and promote self-efficacy.

Accept paradox of power:
Student leaders become most powerful when they give their power away!

East Middle's focus on providing a "complete" high-quality educational experience:

- ➔ Clubs-every Wednesday
- ➔ Social and Emotional Learning-Guidance push in
- ➔ Physical education/Health
- ➔ Band/Music
- ➔ High quality instruction
- ➔ Student leadership opportunities.

Some people make things happen, some watch things happen, while others wonder what has happened.
