Each parent is encouraged to learn about the educational program, the educational goals and objectives of the school system, and his or her own child's progress. The board also encourages parents to participate in their children's education and in activities designed by school personnel to involve them, such as parent conferences, in order to ~~encourage~~ foster effective teacher and parent communication. Parents are responsible for cooperating with school employees to facilitate their children's compliance with board policies concerning homework, school attendance, and behavior.

For purposes of this policy, "parent" includes parents, legal guardians, and legal custodians of students who are under 18 years old and who have not been emancipated.

~~A.~~ PARENTAL INVOLVEMENT PLANS

1. Parental Involvement Plan as Part of the School Improvement Plan

The principal shall publicize drafts of the parental involvement plan prior to finalization and solicit input from parents of students in the school. This plan must include, at a minimum, efforts ~~that meet the requirements established in this policy. In addition, the plan must include ways~~ to enhance parental involvement by promoting ~~in~~ the following ~~areas~~ priorities:

2. Title 1 Parent and Family Engagement Plan

   Each school participating in the Title 1 program must develop, with parents and family members, a school-level written parent and family engagement plan that involves parents in the planning and improvement of Title 1 activities and describes the means for carrying out school-level policy, sharing responsibility for student academic achievement, building the capacity of school staff and parents for involvement, and increasing accessibility for participation of all parents and family members of children participating in Title 1 programs. See policy 1320/3560, Title 1 Parent and Family Engagement.

3. Parental Involvement Component of s School Plan for Managing Student Behavior

In addition, parents will be notified promptly if school personnel suspect that a criminal offense has been committed against the parent's child, unless notification would impede an investigation by law enforcement or the child welfare agency.

   ~~Principals or designees shall plan for periodic communication with parents~~. The principal must effectively communicate to parents the manner in which textbooks are used to implement the school's curricular objectives. Any parent interested in learning more about their child's course of study or the source of any supplementary instructional materials should contact the principal for more information. PARENTAL INSPECTION OF AND OBJECTION TO INSTRUCTIONAL MATERIALS

Policy Code: **3210**

In policy 3200, Selection of Instructional Materials, the board establishes a process for the selection of instructional materials to meet State Board of Education requirements and the educational goals of the board. That process provides an opportunity for parental input in the selection of materials.

The board recognizes that despite the opportunity to participate in the selection of materials, parents still may have concerns about instructional materials used in the school system. Thus, to further involve parents in the education of their children, the board also provides opportunities for parents to review instructional materials and a process for parents to use when they object to instructional materials.

A. PARENTAL RIGHT TO INSPECT MATERIALS

~~Parents have a right under federal law to inspect all instructional materials which will be used in connection with any survey, analysis, or evaluation as part of any applicable federally funded programs.~~ Parents ~~ordinarily also~~ may review all ~~other~~ instructional materials ~~following procedures provided by the school or superintendent. The term "instructional materials"~~ as defined in policy 3200, Selection of Instructional Materials. Instructional materials do~~es~~ not include academic tests or assessments. ~~Some materials available through the Internet and used in individual classes to provide up-to-date information or information on current events may not be available for advance review; however,~~ Parents who would like to inspect and review instructional materials should make a request in writing to the principal. The principal shall schedule a mutually agreeable date and time for the parent to come into the school to review the materials. All efforts should be made to schedule the time as soon as possible but no later than 10 business days from the date of the request. ~~a~~All materials used in reproductive health and safety education shall be available for review as provided in policy 3540, Comprehensive Health Education Program.

B. PARENTAL OBJECTION TO MATERIALS

Parents may submit an objection in writing to the principal regarding the use of instructional materials. The principal may establish a committee to review the objection. While input from the community may be sought, the board believes professional educators are in the best position to determine whether a particular instructional material is appropriate for the age and maturity of the students and for the subject matter being taught.

If the principal or the committee determines that any material violates constitutional or other legal rights of the parent or student, the principal or the committee shall either remove the material from instructional use or accommodate the student and parent. Before any material is removed, the principal or the committee shall ensure that the curriculum is still aligned with current statewide instructional standards and articulated from grade to grade.

If an objection made by a parent or student is not based upon constitutional or legal rights, the principal or the committee may accommodate the objection after considering the effect on the curriculum; any burden on the school, teacher, or other students that the accommodation would create; and any other relevant factors. Books and other instructional materials may be removed from the school media collection only for legitimate educational reasons and subject to the limitations of the First Amendment.

The decision of the committee or principal may be appealed to the superintendent. The decision of the superintendent may be appealed to the board.

The superintendent shall develop the necessary administrative procedures to implement this policy.

The comprehensive health education program provided by the school system will meet the requirements of state law and the objectives established by the State Board of Education The board may, in its discretion, expand on the subject areas to be included in the program and on the instructional objectives to be met.

A copy of all objectives and materials will be available for review in the media center of each school where these subjects will be taught.

The principal or designee shall also notify parents of the right to withhold or withdraw consent for their child's participation in all reproductive health and safety education instruction or in specific topics such as STDs, the effectiveness and safety of contraceptive methods, awareness of sexual assault and sexual abuse, and sex trafficking prevention and
