East Middle School

Empowering students for the 21st Century

Joan B. Frye, Principal
Della B. Ingram, Assistant Principal

February 1, 2011

Dear Dr. Ellis and Board of Education,

On behalf of the student body of East Middle School, the Student Council is writing to you for your approval to add an additional color to our school uniform policy. As students have been requesting an additional color for some time now, the student council narrowed down the color choices to three colors: red, black, and Carolina blue and also included a line to write-in a color choice. To empower our students with this important improvement, we then surveyed the entire student body during homeroom on which color they would like best. Of the possible color choices, an overwhelming amount of students voted for the color black.

As we have the support of our school to add a color, we now request for you, the Superintendent, to consider our request. We hope the Board of Education will also approve this improvement to our school colors. Our school continues to work hard and wear our uniforms correctly.

We are asking for your approval to add and wear this new color this school year. We hope it will encourage our students to do better by making this change. We, the student body, hope that you will approve adding the new color black to our uniform policy.

Sincerely,

Aimee Dominguez

Aimee Dominguez, Student Council President
