District Proposed 8/8/24:

Section 26 Early Childhood Assessment Team

Beginning with the 2024-25 school year, the District will develop and establish an Early Childhood Assessment Team and it will be staffed at appropriate levels. At the conclusion of the 2024-25 and 2025-26 school years, the District and the Association may elect to meet to review program numbers and discuss ~~and~~ potential adjustments based on enrollment. Participation on the Early Childhood Assessment Team equates to 0.2 caseload.

Upon request of either party, the District and Association will meet to determine if staffing needs to be **changed** adjusted based on an increase or decrease of current enrollment.
