

4-H empowers young people to lead for a lifetime. Our programs in science, healthy living and citizenship are backed by a network of 100 public universities and a community of 4-H volunteers and professionals. Through hands-on learning, kids build not only confidence, creativity and curiosity, but also life skills such as leadership and resiliency to help them thrive today and tomorrow.

JOIN A CLUB

Joining a local 4-H club is the first step in becoming involved in your 4-H community. Clubs generally meet on a monthly basis. Clubs can be organized by community or by projects. Club meetings are a great place for teaching kids practical things like pet care, growing gardens, or identifying insects. Becoming a 4-H member also teaches important skills like responsibility, leadership, and communication.

WHAT IS 4-H?

OPEN TO YOUTH IN GRADES K-12

COMPLETE PROJECTS!

JOIN A CLUB AND MAKE FRIENDS!

APPLY FOR SCHOLARSHIPS AND LEARN LIFE SKILLS!

CHOOSE A PROJECT

Members choose from a diverse collection of individual projects based on their interests and are mentored by knowledgeable adult volunteers and parents in the project areas. Love farm animals, but live in town? Learning about farm animals doesn't require owning one. Projects help members learn life skills, make new friends, enhance self-esteem, achieve personal goals, develop positive relationships with peers and volunteers, and have fun learning and sharing as a family and a club.

PROJECTS
