## Grade Retention

- Students advance to the next grade level based on their ability to meet content standards in language arts and math. Retention may be considered if it is in the student's best educational interest. Parents will be informed prior to any decision on retention. State law requires retention for students reading below a third-grade level if they do not show improvement after remediation efforts.

## Student Support

- **SAFE Team Process:** Early intervention strategies are implemented if a student is not meeting academic goals. This includes identifying and addressing specific needs and providing support as necessary.

## Student and Parent Portal

- Parents and students can access the Student Parent Portal to monitor academic progress, check grades, and review assignments. This portal is a valuable tool for staying informed about student performance and school activities.

## Technology

- Students must follow the district's technology use policy, using school devices and internet access responsibly and for educational purposes only.
- Personal devices, including cell phones, should be turned off and kept in backpacks during the school day.

## Textbooks and Supplies:

- Textbooks, iPads, and library books are provided by the district. Students are responsible for lost or damaged materials and will be charged for replacement costs.
- Students should regularly check and maintain their supplies, including pencils and paper.
