EXPANDED OPTIONS/SB300
Chemeketa Community College and Dallas High School

What is EXPANDED OPTIONS?

~DHS students may take Chemeketa classes in Dallas or at the Main Campus in Salem for no fees through the EXPANDED OPTIONS PROGRAM. Books and materials are provided.

Who is eligible to take these classes?

~Students must be 16 years old, enrolled full-time at Dallas High School and in grade 11 or 12.

~Students must be on track to graduate (although NOT graduated yet) and have developed an Educational Plan and Profile that is on file. The Plan and Profile must support the course choice. Requested college classes must be part of a student's overall career/educational plans.

~Students must take or have taken all 3 CCC Placement Exams and scored well enough to be placed in college level classes.

What college classes can and can't be taken?

~Students CAN take classes that meet a specific graduation requirement or are part of an overall career interest area. Technical courses are eligible.

~Students CANNOT take college classes that are also available at the high school, even if the course at the high school is not offered for college credit. For example, COMM 111 would not be approved through expanded options because we offer speech in the high school.

~Students CANNOT take college level classes that have prerequisites that are not met or that are part of a college major and therefore not available as a single course out of a program.

What is the process to apply for EXPANDED OPTIONS?

~Meet with your counselor to discuss Chemeketa classes (in Dallas or Main Campus) that fit a specific educational need.

~Make sure you are on track to graduate (but not graduated) and have developed an Educational Plan and Profile at DHS.

~All 3 CCC Placement tests must be taken prior to registering for any college class through EXPANDED OPTIONS.

~Parent permission and administrative approval is required. Paperwork turned in WELL BEFORE THE DEADLINE.
