

Ms. Bisharat's 9/3-9/6 Newsletter

This week at School

Math:

This week we are continuing our investigation into Brad's Baseball Shop, this time using ratio tables to calculate baseball prices. In addition to this, we are practicing using various multiplication strategies using number relationships.

Reading:

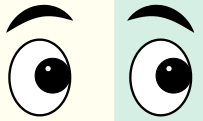

We are continuing the text Esperanza Rising and our study of the Universal Declaration of Human Rights. As we continue to analyze connections between the two texts, we will work on a Mid-Unit assessment this week. The assessment will check in on student understanding of the story so far and the use of main ideas and supporting details to write a summary.

Science:

We are continuing our investigation into matter and its different states. We will conduct another fun experiment in the 2nd half of the week!

Be on the Lookout

- We are starting our third week of homework. I included some more directions for home connection pages in the homework schedule.
- Yellow Friday Folders will be sent home on Friday if there is any necessary correspondence that must go home.
- Homework is due on Friday, September 6th!

Notes and Celebrations

Thank you for a very successful 2 assessment days! Now that this is behind us, we will work as a staff to create focused intervention groups to best support student needs. These are our WIN groups! Ask your students about their experience with WIN last year.
