Revised 2.15.2024

HISTORY

Created in 2012 by the United Way of Delaware County and Delaware Public Health District, the Delaware County Hunger Alliance mission is "Fighting to End Hunger." The Alliance is a cross-sector collaboration of community partners committed to connecting our neighbors in need with services that provide access to healthy food options, nutrition education, and resources that promote economic stability.

From July 1, 2021 to June 30, 2022, 10,464 unduplicated individuals were served in Delaware County. According to Feeding America, in 2021 there were approximately 15,800 individuals in Delaware County who were faced with food insecurity on a regular basis. Through the Delaware County Hunger Alliance, our partners use best practices, data and creativity to increase hunger-related services, outreach and opportunity throughout Delaware County.
