

Accessing Resources Through the Public Library

Accessing resources through the public library is quick and easy. Most students signed up for the Branch Out program at the beginning of the school year. Some students may be registered, but not know that they are.

<https://www.gwinnettpl.org/>

To access all of the resources within the site students will use their student id number as the password or card number and their four-digit birthday (mm/dd) for the password/pin.

eRead Kids allows students to access both eBooks and audiobooks for kids.

eRead Kids

E-books and e-audiobooks for children, courtesy of Axis360.

Tumble Math allows students to access books that focus on mathematical concepts. **TumbleBooks** can be accessed through the public library site but is also available in the Online Research Library.

Tumble Math

A comprehensive collection of math picture books complete with animation and narration.

TumbleBooks

A collection of animated, talking picture books, suited for elementary school children.

PressReader and **Flipster** allow students to access numerous magazine and newspaper articles.

PressReader

Read full issues of thousands of top newspapers and magazines from over 100 countries.

Flipster

Browse and download digital versions of the latest issues of popular magazines. Lending periods vary.
