GRADE LEVEL: 12 COURSE NAME: AP Calculus
MEASUREMENT TOPIC: Justify Claims About Limits and Continuity

4

In addition to Score 3, the student makes in-depth inferences and applications.

3

The student will:

- **Explain the behavior of a function using the Intermediate Value Theorem.**
- **Connect limits at infinity and asymptotes.**
- **Justify claims about continuity.**
- **Determine limits by algebraic manipulation.**

2

The student will:

- **Determine types of discontinuities.**
- **Estimate or determine limit values from multiple representations.**

1

With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.

Key Vocabulary:
