GRADE LEVEL: 12 COURSE NAME: Anatomy and Physiology
MEASUREMENT TOPIC: Explain the Excretory System

4	In addition to Score 3, the student makes in-depth inferences and applications. <ul style="list-style-type: none">• Obtain and communicate information to demonstrate an understanding of the homeostatic imbalances of the excretory system and the resulting disease states (ex. kidney stones, ph imbalance, infection).
3	The student can: <ul style="list-style-type: none">• Explain how the excretory system maintains homeostasis, including blood pressure and pH.• Use a model to illustrate the microanatomy of excretory structures and describe their functions.
2	The student can: <ul style="list-style-type: none">• Identify the main anatomical structures of the excretory system and their primary function.
1	With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.

Key Vocabulary:
