GRADE LEVEL: 10th - 12 Grade

COURSE NAME: AP Biology

MEASUREMENT TOPIC: Apply Concepts in Cell Structure and Function

4

In addition to Score 3, the student makes in-depth inferences and applications.

- Connect biological concepts, processes, and observational data to broader theories or biological themes.

3

- **Predict the causes or effects of a change in, or disruption to a biological system, related to Cell Structure and Function, based on biological concepts or processes, models of biological concepts or processes, or data.**

- **Apply biological concepts and processes in Cell Structure and Function to illustrative examples and novel scenarios.**

2

- **Explain biological processes related to Cell Structure and Function.**

- **Describe biological concepts related to Cell Structure and Function.**

1

With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.

Key Vocabulary: organelles, surface area to volume ratio, membrane permeability, membrane proteins, membrane transport, concentration, concentration gradients, tonicity, osmoregulation, compartmentalization
