GRADE LEVEL: 10-12 COURSE NAME: AP Physics
MEASUREMENT TOPIC: Engage in Experimental Design

4

In addition to Score 3, the student makes in-depth inferences and applications.

3

The student can:

- **Apply mathematical routines in solving for quantities that describe natural phenomena.**
- **Design a plan for data collection for a real world problem possessing constraints or limitations.**

2

The student can:

- **Graphically represent data from various parts of investigation.**
- **Analyze data to identify patterns or determine relationships among concepts being studied.**

1

With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.

Key Vocabulary:
