AT TAPESTRY, I CAN!

Tapestry provides after school and out-of-school programming that is a safe space for children to complement their school day learning, seek additional help (tutoring), and explore new and creative activities for physical, social and emotional development, and other enrichment opportunities.

ENRICHMENT ACTIVITIES

Tapestry students engage with hands-on learning and enrichment activities. Students participate often in STEM (Science, Technology, Engineering, and Math) activities. Be on the lookout for creative fall STEM activities during afterschool programming!

Want to try out a STEM activity at home? Check out this list:

OUTSIDE MOVEMENT

Remember to wear shoes/clothing that you can easily move around in for outdoor movement and play time during Tapestry! As the season changes, be sure to bring a sweatshirt or jacket for outdoor time.

Outdoor time encourages building friendships and increases active play! Tapestry students and staff love the sunshine!
