Meeting Notes - - Looking at 2023-2024 goals and create goals for 2024-2025

- We will no longer have the Playworks coach at JRES next year. We will still continue with junior coaches at lunch recess for first and second grade. Playworks has three levels of support; we are at the second level because we have a coach one week a month.
- Behavior goal- if we have a behavior goal, we can tie it to our PBIS plan. We can use Class Dojo and separate Tier 1, 2, and 3 students when looking at the data. Possibly focus on tier 2 students and reducing the number of students in tier 2. Try to get an ESP for Katie Hedman to help with tier 2 behaviors.
- 2023-2024 math goal progress- The percentage of low-growth students is 16%.
- Keep a WIDA goal- possibly change it so it is not focusing on exiting students out of WIDA but improving their growth.
- Possible goal- 90% of MLL students will make their expected growth in reading as measured by ECRIS.
- Goal- Possible ways to use parents in the school to help support classroom teachers.
