Sport Physical Cost: \$50*

*A portion of the cost will be donated back to THHS Athletic Department

Optional \$99 Heart Rhythm Screening (EKG)

About 1 or 2 in every 100,000 young athletes experience sudden cardiac arrest each year. We're adding an electrocardiogram (EKG) to the standard pre-participation physical evaluation for Mustang student-athletes. This may improve detection of heart abnormalities. Early detection can save your student-athletes life! Please let our clinic staff know you would be interested in adding this to your visit.

GOOD LUCK THIS YEAR & GO MUSTANGS!
