

What is an Early College High School Program?

The Greenville Early College High School program provides students with the opportunity to earn 60 hours of college credit and an Associate's Degree or a certification to work while being enrolled in high school. We partner with Paris Junior College to offer students dual credit courses at **NO COST** to participating students and their families.

Greenville Early College High School

WHY CHOOSE ECHS?

- Greenville ECHS offers three programs of study - Engineering, EMT, and CNA
- We are a four-year cohort program
- Students earn professional licenses and certificates
- Students earn both college and high school (dual) credit
- Students can still participate in extracurricular activities, such as band, robotics, athletics, art, and many more!

Students earn an equivalent of 2 years of college credits at NO COST

*2 years at Paris Junior College ~ \$28,000
2 years at Texas A&M Commerce ~ \$44,000*

Credits earned while in ECHS transfer to most Texas public colleges and universities

ECHS has a partnership with Innovation First International (IFI), L3 - Harris, and Hunt Regional Medical Center - providing unique job opportunities after graduation
