

Parent Input Session

Parent Input Session Opportunity

Fargo Public Schools wants to hear from you! We are conducting a research project to learn what our community thinks about a number of important issues for our school district, including our Long-Range Facilities Plan. FPS has hired an independent research firm, Creative Entourage Research, to gather input, and a representative from that firm will lead input sessions with various community stakeholders. From the input sessions, questions will be developed for a phone and electronic survey of our larger community. Survey results will be presented to the Fargo Board of Education in January to assist them in decision-making for a potential bond referendum to fund the Long-Range Facilities Plan.

A total of 20 current parents of FPS students are needed to participate in an input session on **Thursday, October 3 at 6 p.m. at the District Office PD Room, located at 700 7th Street South in Fargo.** If more parents volunteer than the session can accommodate, a randomized selection process will occur. Participants must live within the Fargo Public Schools attendance boundary.

To volunteer for this input session, please [complete this form](#). The form will close on Wednesday, September 18 at 7 p.m. All volunteers will be contacted after the form's closure.

Listening to our community is a high priority for the future of our schools; please volunteer to participate in this important effort! Contact Director of Facilities James Hand at handj@fargo.k12.nd.us with any questions.
