

## **TECHNOLOGY UPDATE**

Dear Families,

We are excited to announce that Kalispell Middle School is transitioning to a 1:1 Chromebook program. This means that each student will receive their own Chromebook to use throughout the school year.

Having a personal Chromebook will enhance your child's learning experience, allowing them to access resources and complete assignments more efficiently. Please note that these Chromebooks will remain on campus and will not be taken home. Additionally, students will be responsible for the care and any damages to their assigned device. To support our students, we teach responsible Chromebook use and care, and we provide safe storage at the school for every student's device.

We appreciate your support as we implement this initiative, and we believe it will greatly benefit our students' educational journey.

Thank you for being a vital part of our school community!
