PRINCIPLES OF HEALTH SCIENCE

BIOGRAPHY

I was born in Dallas, but grew up in San Benito. I am a graduate of Texas A&M University – College Station. Whoop! Gig'em Ags! In 1998, I completed my Bachelor of Science degree in Community Health. Prior to teaching, I worked in corporate wellness and as a public health professional with the Texas Department of State Health Services.

In 2005, I began my teaching career. I have served as an educator in San Benito for the past 19 years with SBCISD, IDEA, and now STISD. Most of my experience is in teaching middle school sciences. I love teaching middle school! I am honored to serve as a founding teacher of the Rising Scholars Academy, and I look forward to serving our students, parents, and families. I live in San Benito with my husband Roman, our senior Aggie son, Roman Jr., daughter Rachel who is a freshman at STISD Medical Professions. When I am not teaching, I enjoy spending time with my family.

For wisdom will enter your heart, and knowledge will be pleasant to your soul. – Proverbs 2:10
