

## DVUSD Syllabus Statements 2024-2025

### **Academic Integrity Statement**

To be college-, career-, and community-ready, students in the Deer Valley Unified School District are expected to demonstrate academic integrity. Academic integrity is all about being honest and fair in your schoolwork. It means doing work that is entirely your own and giving credit to others (including generative Artificial Intelligence tools) through proper citation when you use their ideas or words.

If you have questions about the guidelines for academic integrity, you should discuss them with your teacher.

### **Academic Dishonesty Statement**

Academic dishonesty refers to any action that compromises the integrity of academic work or evaluation processes. This includes but is not limited to:

- Copying or stealing another person's work or data (plagiarism);
- Allowing another person to copy one's work;
- Doing another person's classwork;
- Creating more than one copy of one's work for distribution;
- Providing another person with the answers on tests or quizzes;
- Noncompliance with teachers' test-taking procedures;
- Unauthorized copying or development of software; and
- Unauthorized use of generative Artificial Intelligence.

Consequences for instances of academic dishonesty range from a conference and loss of credit (student will be given another opportunity to show mastery of learning) up to a 5-day suspension and loss of credit.

## Artificial Intelligence

In the Deer Valley Unified School District, we are committed to providing our students with the best possible education while ensuring their safety, privacy, and well-being. As part of our ongoing efforts to enhance learning experiences, teachers may incorporate generative Artificial Intelligence (AI) in the classroom for students.

Students must adhere to the specific guidelines provided in the assignment details. If no guidance around the use of generative AI is provided, students should follow the “restrictive” level (see chart). Teachers should direct students to contact their teacher before submitting classwork if the student is unsure if the tool or website they are using is permitted on a specific assignment.

AI Use Traffic Light	Level	Description	Example Instruction
	<b>Restrictive</b> <b>No!</b>	AI tools are prohibited for the assignment, and all work must be the student's original creation.	"Do not use AI tools for this assignment. All content must be original, and any use of AI will be treated as plagiarism."
	<b>Moderate</b> <b>Whoa!</b>	Students can use teacher-approved AI tools from the district list for specific parts of their assignments, such as brainstorming or initial research, but the core content and conclusions should be original. Proper citation is required for any AI-generated content.	"You can employ AI tools to assist brainstorming or initial research, however, the main content, arguments, and conclusions should be your own."
	<b>Permissive</b> <b>Go!</b>	Students can utilize district-approved AI tools to assist in their assignments, such as generating ideas, proofreading, or organizing content. Proper citation is required for any AI-generated content.	"You may use AI tools as you see fit to enhance your assignment and demonstrate your understanding of the topic."

## Grade Scales

### 1st-2nd Grade Grade Scale

Students in Kindergarten, 1st, and 2nd grades will receive marks for their proficiency toward the grade level standards using the following scale.

- 4 = Applies grade level skills with greater depth or complexity
- 3 = Demonstrates grade level proficiency
- 2 = Approaches grade level proficiency
- 1 = Displays a significant lack of grade level proficiency

## Reassessment

Retakes are allowed for assessments for full credit, if reperformance opportunities (another assessment on the same learning target later in the marking period as part of the instructional cycle) will not be available during the marking period or in addition to reperformance opportunities during the marking period.

To earn a retake opportunity, a student must complete all of the following:

- Complete all formative coursework related to the content/skill assessed
- Consult with the teacher
- *Submit a reassessment plan or application, if required by the teacher*

A reassessment plan must be scheduled within the following time frames:

- **K-2nd Grades:** Until the week before the end of the marking period
- **3rd-8th Grades:** Within 10 school days of receiving the assessment score
- **9-12th Grades:** Within 5 school days of receiving the assessment score. The student must communicate with the teacher to create a reassessment plan.
