Re: Required Annual AHERA Notifications

---

The US Environmental Protection Agency's (EPA) Asbestos Hazard Emergency Response Act (AHERA) requires all schools to inspect building materials for the presence of asbestos. AHERA excludes schools from the inspection requirement if the school was constructed after October 12, 1988, and has a signed statement from the architect or project engineer responsible for constructing the school stating that no asbestos-containing materials were specified for use in the construction of the school. Our school has been provided such statements, and is therefore, exempt from the requirement to conduct an asbestos inspection.

---

The EPA requires us to annually notify you that we are aware of the AHERA regulation, and that we are in compliance. The Management Plan is available for your review at any time during normal school hours (Monday-Friday, 8:30 am to 3:30 am). You can find The Management Plan at our main office, in the student handbook and on the school website. The Asbestos Program Manager (LEA), Marina Adams, is available to answer any questions you may have about have about asbestos at madams@endeavorcharter.com

Endeavor Charter School Addition  
Certification Of No Asbestos Containing Materials Or Work

Dear Marina,

The letter serves as our certification that that no asbestos containing materials or work was included within the scope of the Endeavor Charter School Addition.

All materials used on this Project were non-Asbestos Containing Building Materials (ACBM) and such submittals were included in the closeout package previously submitted.

Should you require anything further, please reach out to me.

Respectfully submitted,

Doug Nale  
Director of Operations – Education

RE: Asbestos Containing Building Materials

Ms. Adams:

J. D. Beam, Inc. was the Design Building General Contractor for the original building located at the address above for the Endeavor Charter School. The construction began in 2013 and was completed in the summer of 2014. To the best of our knowledge, no Asbestos Containing Building Materials, were designed or installed in this building.

Best Regards;
