Facilities Master Plan - Vision

We envision versatile, equitable, healthy environments that balance the factors creating authentic, engaging, and personalized learning experiences to sustain our academic mission and deepen connections to our communities and world.

INTRODUCTION

PROJECT HIGHLIGHTS: 5YP – FY2025-29

The [Five-Year Facilities Maintenance and Capital Plan](#) (5YP) provides an overview of Saint Paul Public Schools' capital improvement projects scheduled to take place in fiscal years 2025 to 2029 (FY2025-29). These projects reflect a collaborative process undertaken with building administrators, staff, students and families to plan and design learning spaces that meet the Facilities Master Plan's (FMP) Vision, Principles and Standards (see below under BACKGROUND for more information).

Among the highlights these projects reflect are:

- **Learning environment upgrades** impacting classrooms, varied learning areas, and core facility rightsizing.
- **Inclusion of dedicated Specialized Services facilities** in prioritization, reflected in major remodeling/addition projects and changes to existing facilities in response to increasing demand for special education services.
- **Health and Wellness** considerations continue, particularly regarding indoor air quality despite the end of federal relief funds (which had supported efforts in previous 5YPs).
- **Broad-range improvements** in addition to major remodeling and addition projects, from flooring to roofs, and boilers to fire alarms and security systems.
- **Athletic improvements** to the usability of existing fields and tracks.
- **Technology upgrades:** providing instructional A/V at high school and middle school sites continues, with rollout to elementaries beginning in FY27. Many projects will involve replacing obsolete data cabling as well.
- **Pre-Kindergarten (Pre-K)** will continue to receive attention in the future as we work to accommodate expected growth in Early Learning programs.
- **Sustainability initiatives** becoming more deeply embedded into our work especially as new State and Federal funding for green energy (solar and geo-thermal) in projects becomes available.
- **Onward SPPS:** implementation of the successor initiative to **Envision SPPS** which consolidated program offerings. With the necessary facility changes accomplished, in SY23-24 the District shifted focus to a new, forward-looking initiative called "Onward SPPS." The transition involves partnering with specific communities to establish new school programs, and changes to better serve the interests of students and families.

In FY29, at the end of this 5YP period, we are reserving significant funds (\$30M-40M) for a major project that is not yet defined. A number of potential projects for FY29 and beyond will be shaped by future strategic decisions and emerging factors.

In addition to construction projects, the 5YP includes a number of planning efforts, including the next set of priorities for athletics, inclusive restrooms, and facility alignment with well-rounded education programs.

SPPS BUILDS and ONWARD SPPS

The 5YP is also broadly known as [SPPS Builds](#) which signals its alignment with the District's overarching strategic plan, [SPPS Achieves](#), specifically under:

Objective 5: Allocate resources based on program effectiveness and organizational priorities.

Strategic Initiatives - 5.3: Align school facilities with well-rounded programs.

In fulfillment of this objective, the District launched [Envision SPPS](#) and its succeeding initiative, **Onward SPPS**. **Onward SPPS** shapes planning for SPPS facilities and the 5YP in these areas:

1. **740 York Ave (formerly known as John A. Johnson)** became home to **LEAP High School** last year and welcomes the Gateway To College program in fall 2024.
2. **SPPS Online School** moves to **Como Park Elementary** in summer 2024.
3. **East African Elementary Magnet School at Jackson Preparatory Elementary School** began in fall 2023 and is growing for fall 2024. Planning is underway for the facilities and location options to accommodate further growth.
4. **Txuj Ci Hmong Language and Culture** was the focus of meetings of SPPS Facilities and Schools teams with an engaged community committee to explore options for the potential growth of that program in the mid-term. For fall 2024, the program moves Pre-K from ECHE to Txuj Ci Lower and 5th Grade to Txuj Ci Upper. Exploration of longer-term options to meet the needs of the Hmong students and families will continue throughout this 5YP.

5. **Early Childhood Hubs – East and West** opened at sites vacated by mergers. The FY25-29 plans include further age-appropriate site modifications at Hub West. Hub East is closed for the immediate future as an early childhood site.
6. **Karen Program** will begin at **Wellstone Elementary** in fall 2024.
7. **African American Program** begins at **Benjamin E. Mays Elementary** in fall of 2025 when the IB World program ceases at that school.
8. **Barack and Michelle Obama Elementary** (under construction) will accommodate a PreK-5 Montessori program and a regular middle school program fall 2025.

J.J. Hill Montessori will relocate to the Barack and Michelle Obama site in fall 2025. The long-term use of J.J. Hill will be a part of planning in FY25-29.

UPDATING CONCEPTUAL VISIONS and FMP 2.0

Subsequent to our master planning effort in 2016, the District has implemented wide-ranging changes (including a lot of work being completed). The 5YP in this document is guided by the 2016 Facilities Master Plan (FMP). As of July 2024, the District is beginning planning and engagement to create a renewed strategic vision and FMP (or FMP 2.0) that will guide future 5YPs.

Strategic changes at schools will warrant updating of the conceptual visions for them in accordance with our master planning vision, principles, and standards.

EARLY CHILDHOOD FOCUS AND GROWTH

This 5YP continues efforts to accommodate expected growth in early childhood education programs. At national, state, and city (SPARK) levels, we see movements to develop and expand Pre-K and

other education programs for 3- and 4-year-olds. Within the SPPS area, there exist significant waiting lists for the Pre-K spaces that are available – these waiting lists reflect a lack of funding and teacher resources to add classrooms. The on-going partnership with Head Start provides some Pre-K classes to help address the demand.

Current Pre-K programming in SPPS offers space for 1,470 4-year-olds in 85 classrooms within 35 schools, a growth of 40 over 2021-22. There are an additional 80 seats for half-day nature-based Pre-K through Community Ed.

The opening of Bruce Vento in fall 2025 will add more Pre-K capacity. Given the anticipated incremental growth in early childhood funding, and to manage capital funding and cash flow, additional large-scale capital investment for expanded early learning is not planned until after the term of this 5-year plan. The Facilities Department continues to locate appropriate classrooms; looking at those that could be used by relocating current uses/classes and those that would require more intensive changes such as the addition of restrooms and sinks or other ancillary construction.

SPECIAL EDUCATION ALIGNMENT

Planning within the FY2025-2029 5YP will continue to support the evolving understanding of learners with specialized needs, including greater intentionality around spaces dedicated to their use, and other recommendations included in the Envision Special Education Workgroup. For the 2024-25 school year, SPPS is providing space within existing buildings for 15 additional Federal Setting III Special Education classes. We expect further growth in Federal Setting III classrooms as children progress through elementary and middle school. This growth, though the rate is uncertain, will require some Facilities investments in subsequent years. Planning will continue to collaborate with the Office of Specialized Services to monitor data for trends.

INCLUSIVE RESTROOMS

SPPS has led the implementation of a model for single-user restrooms that provide respectful access for individuals to sanitary facilities. The rollout of this model has occurred within major remodeling projects, limited in part by the type of funding available. State law changed in June 2023 to allow use of LTFM revenue to fund these projects. The 2025-29 5YP incorporates an annual program, starting in FY2027, to use a portion of the LTFM revenue to gradually provide the inclusive restroom model at sites not impacted by a major renovation.

SUSTAINABILITY AND GREEN ENERGY

Long-term planning for the efficient use of our physical and economic resources has underlain SPPS Facilities' visions for the District for many years. Increasingly in recent 5YPs, the emphasis on sustainability is more pronounced, particularly with the Board's adoption of the District [Energy Action Plan \(EAP\)](#) that targets a 45% reduction in greenhouse gas emissions by 2030.

The current 5YP includes programs to install geothermal and solar systems as part of our projects. Through these programs, which will maximize State and Federal funding, SPPS will create efficient heating and cooling systems and District-owned energy generation facilities, with the impact of simultaneously reducing greenhouse gas emissions.

BACKGROUND

FACILITIES MASTER PLAN (FMP) / SPPS BUILDS

In 2015, Saint Paul Public Schools developed a 10-year Facilities Master Plan (FMP) to address needed improvements for its 73 facilities, 7.8 million square feet of space, and 519 acres of land. As an implementation plan, SPPS Builds, the successor to the FMP, ensures that resources are aligned to provide schools with equitable

access to facility funding and that projects are coordinated to increase efficiency and decrease costs. In a district where 60 percent of schools are 65 years or older, SPPS recognizes that updating old buildings is critical to providing flexible, adaptable physical environments to support a variety of teaching and learning styles for students' academic success.

In the next year and a half, SPPS will initiate and prepare a renewal of the FMP – FMP2.0 – for the following ten years.

The FMP (and its successor) provides the District with guiding documents (see below) to determine how to prioritize projects for improvements over the next five years as outlined in this 5YP. Annual adjustments may be made to the 5YP based on unforeseen emerging factors that impact the initial assessments made to the scheduling and prioritizing of particular facility improvement projects. See the summary of adjustments from the FY24-28 5YP at the end of the school work scopes.

GUIDING DOCUMENTS - FMP and SPPS BUILDS

The 5YP is informed by guiding documents developed during the FMP planning process through extensive stakeholder engagement with more than one thousand people. FMP guiding documents are the qualitative data used to assess facilities and include a **Vision** statement (see box on page 1) along with facility [Principles](#) and [Standards](#) that inform the District's **Criteria** for prioritizing facility improvement projects. These guiding documents will serve the renewed FMP 2.0 as well, providing meaningful continuity over the span of the two 10-year FMPs.

CRITERIA FOR PRIORITIZING FACILITY IMPROVEMENTS

We developed a model of weighted criteria to evaluate the impact of each project on teaching and learning: **The greater the impact to student learning, the greater the need to complete the project.** SPPS uses the criteria listed below to identify and prioritize major capital-improvements to ensure projects are student-centered,

efficient and impactful. To generate each project's impact score and initial priority ranking, each criterion has a different weight of importance (impact).

1. **Growth and Alignment:** Alignment to projected programmatic and enrollment needs.
2. **Quality Learning Spaces:** Overall improvement in the quality of instructional space that supports student learning.
3. **Identifiable Main Entries:** Safe and respectful main building entries that welcome students and community into our buildings.
4. **Building Condition:** The condition of building systems, as determined by the Facility Condition Assessment, as they support healthy student and staff environments.
5. **Core space:** The quantity and quality of core functional spaces such as gyms and cafeterias to support student learning and wellness.
6. **Overall Alignment:** Overall improvements to the building and site should align with functional and programmatic needs as determined by the Facility Condition Assessment and the Facility Master Plan process.

***Note:** The identification of 'Permanent Construction' as the first criterion in 2015 has successfully led to fully phasing out temporary structures for learning environments as of 2020. Therefore, it has been removed from the list of criteria in this document.*

Additional criteria may be considered to address the following:

- a. **Enrollment enhancement opportunity:** A new or fully modernized school may be used as an opportunity to attract students.

- b. **Geographic Distribution:** School renovation work should be distributed across the district to ensure there is equity in school improvements.
- c. **Large Impact:** A renovation of or addition to a facility that is anticipated to have a large impact on another school, an entire community, or a major part of the city, may be a determining factor in giving the work scope priority.
- d. **Program Requirements:** A new school district program imperative might require a major facility renovation in order to offer that academic program in a quality way. Equity of access to programs and support for programs will be a key consideration.
- e. **Partnership Opportunities:** Partnerships can be financial, technical, joint-use and/or joint development and may take some time to mature. The opportunity for a partnership that has been developed and is funded may mean that a particular facility needs renovations or construction ahead of schedule or that a delay is warranted while the partnership is formalized. Equity of access to quality partnerships will be a key consideration.

QUANTITATIVE DATA - FMP and SPPS BUILDS

The quantitative data that inform the FMP are many and include both attention to the condition of buildings and grounds and the extent to which these facilities support or hinder teaching and learning. Several of these assessments have been updated to inform the 5YP:

- Educational Adequacy Assessment (2009)
- Facility Condition Assessment (2020, rev. 2023)
- Facility Alignment Assessment (2015, individual schools updated as major remodelings are carried out)
- Dynamic Programs: Site Capacity and Growth Parameters

- Athletic Facilities Considerations
- Use and Utilization Survey and Report (2023)

FINANCING

As part of the FMP, the Board of Education passed the resolution on [Long-Term Facilities Maintenance and Improvement Investments](#) that fortifies the District's commitment to the continued funding of capital investments for the betterment of students and communities.

SPPS monitors construction industry data for trends in cost inflation, and we adjust our project cost estimating accordingly.

The District's budget for *SPPS Builds* is funded from the sale of bonds, capital loans, and the Long-Term Facilities Maintenance Program (including levies). Federal American Rescue Plan (ARP) funding has ended as of fall 2024. SPPS has issued bonds every year since 1994 to fund facility projects. A tax levy allows school districts to raise money through public taxation to fund construction projects to ensure school buildings are kept in good shape and meet the learning needs of students. The Board of Education determines the levy amount each year based on specific facility needs for the upcoming year.

By law, Building Construction Funds cannot be used for other funding categories, such as the General Fund which pays for teacher salaries, other teaching and learning needs, and transportation. Increases to the Building Construction Funds do not decrease the General Fund.

NOTES ON SCHOOL WORK SCOPES

The table of contents lists the individual pages that show large and small proposed scopes of work by school site. At the end, work scopes that run across the District are shown in a page called **District Wide Projects**.

As part of this plan, a series of **annual programs** are set up to deliver smaller-scale, similar scope work across multiple sites for targeted average annual costs. These programs address needs related to mechanical systems, instructional A/V, and flooring, among others, and allow for administrative, cost and scheduling efficiencies. Work scopes that are part of an annual program are noted as 'Program' in the "Estimated Project Cost" column.

In addition to the annual programs, a number of work scopes are combined into larger **bundled projects** for efficiency of delivery. The estimated project cost column reflects these as "Bundled."

Rough order of magnitude estimates of cost are included for those projects that have been through a chartering process. Typically, projects to be carried out within a year will go through this process of additional development. The estimates include hard and soft costs, appropriate contingencies and anticipated inflation to the midpoint of construction.

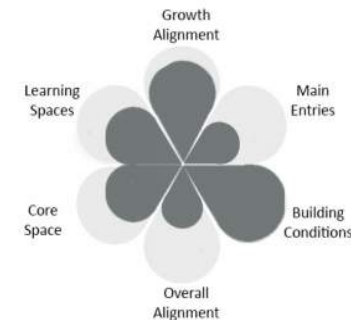

Dates are by fiscal year (FY2025 runs July 1, 2024 - June 30, 2025). Dates shown represent the first fiscal year for anticipated spending, and may not be the year that actual construction begins or is completed.

KEY

The Work Scopes pages include two graphic indications of prioritization.

Petals = Criteria for Prioritization: The first looks like a flower, in which each petal represents one of the [six criteria for prioritization](#). The degree to which a building **meets or exceeds each criterion** is indicated by how much gray is filled out in the petal. **The more each individual petal is filled with dark gray, the more that particular building feature meets or exceeds the standard.** A building that has just been remodeled would have each petal filled with dark gray (little or no light gray showing).

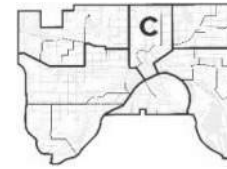

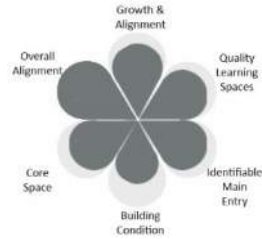

Green Circle = Impact score based on need: Based on the petal/criteria category, green circles visually indicate the degree to which a facility meets the District's [Facilities Standards](#). The larger the green circle, the more that facility has been determined to need improvements based on the overall impact on the school community.

Adjustments from prior 5YP with reason for adjustment

<u>REPRIORITIZATION</u>	
<u>Site</u>	<u>Project Description</u>
Central	Lintels/Windows
Gordon Parks	Security Improvements
John A Johnson	Paving
L'Etoile	Pavement/Parking
	Playground
Maxfield	Playground
	Parking Lot
	Replace Univents / Mechanical
Mississippi	Sidewalk, playground, traffic flow
Murray	Mechanical - AHU
Nokomis North	Ventilation
	Partial Plumbing / Piping Replacement
	Roof Replacement
Rondo	Playground
Student Placement	Boiler Replacement

<u>STAFF CAPACITY</u>	
<u>Site</u>	<u>Project Description</u>
Farnsworth Upper	Locker Replacement Phase 2

<u>LEAD TIMES</u>	
<u>Site</u>	<u>Project Description</u>
EOS	Print Shop AHU

<u>CONDITION CHANGE</u>	
<u>Site</u>	<u>Project Description</u>
740 York	Roof and RTU replacement
Humboldt	Kitchen HVAC replacement

Definitions of categories:

Reprioritization Due to changes in the context of the school, project, building system, or funding, the schedule for the project is shifted. In some cases individual scopes of work are regrouped for efficiency and economics.

Staff Capacity Staff scheduling could not accommodate these projects on the original timeline.

Lead Times Availability of equipment and materials restricted these projects from going forward in the year they were originally scheduled.

Condition Change Physical condition of component worsened or changed in a way that necessitated a change in the repair schedule.

APPENDIX

GLOSSARY OF TERMS

Addition: Adding to or expanding an existing building.

Asset Preservation: Committing necessary resources to preserving, repairing, or the adaptive re-use of current assets to keep facilities healthy.

Building: A roofed structure for permanent or temporary shelter for people, plants, or equipment.

Construction: The phase of a project where the construction trades build the new facility and/or renovate or repair the existing facility.

Design: The phase of the project that creates the architectural and engineering specifications and drawings that a construction contractor will bid on and use to perform the work.

Enrollment:

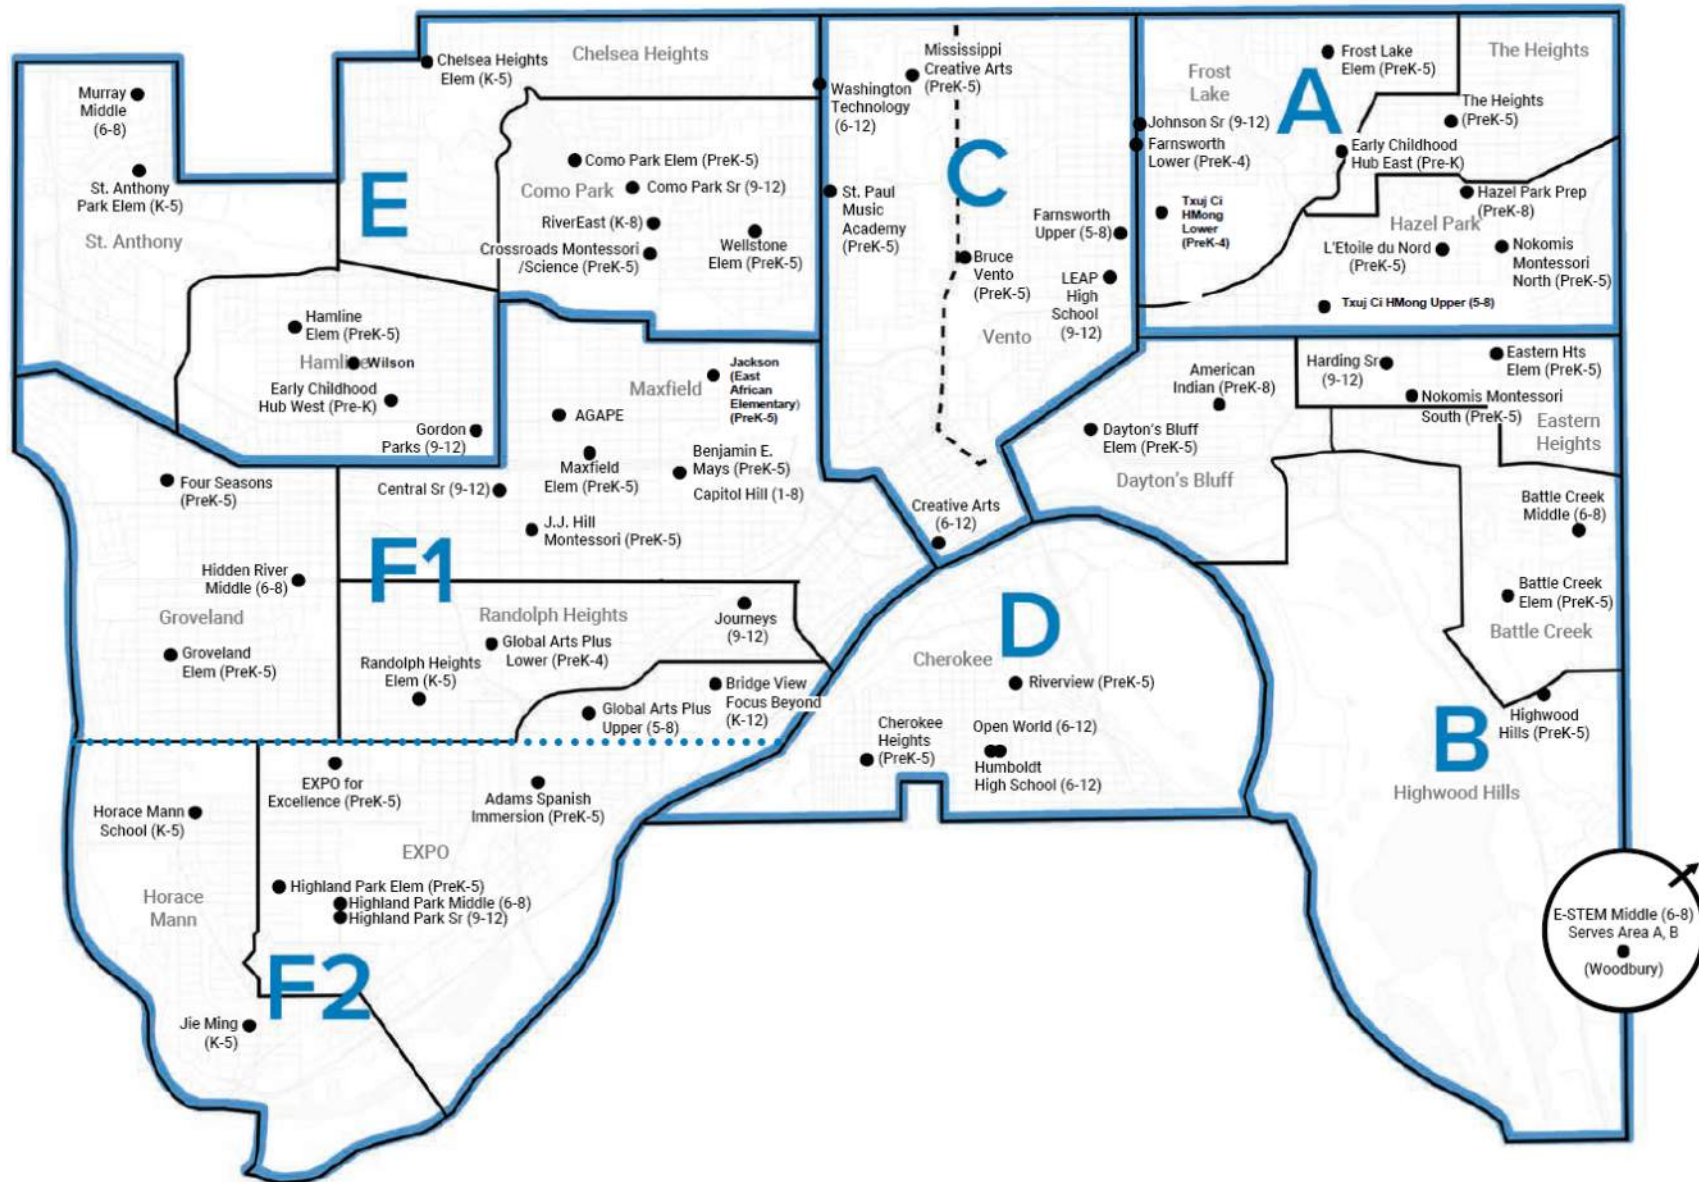

- **Official Enrollment:** A school's official enrollment number is defined by the Minnesota Department of Education by the number of students enrolled at a school on October 1 of each year; this number is used for determining state and federal aid given to schools for each school year.
- **Target Student Enrollment:** The current ideal student enrollment at a particular school based on its programming.
- **Design Enrollment:** The student enrollment planned for a school in the future as part of a comprehensive analysis of the District.

SPPS Builds Five-year plan: An on-going long-range plan that annually considers facility improvements and adjustments based on current context. The five-year plan consists of building expansions, renovations, and asset preservation types of projects.

Project Highlights: Identifies the main or core portions of the project as opposed to the full scope of work.

Renovation: Improving broken, damaged, or outdated buildings to update and restore them to a good state of repair or return to a new condition.
