

SIT Notes - Tuesday, September 1st, 2020

Attendance: **Janet Deaton** (Principal), **Mandy Hall** (IF), Philip Bailey (5th), **Danielle Hurley** (4th), **Amanda Henley** (3rd), **Laura Hannaford** (2nd), **Samantha Stewart** (1st), **Esther McDonald** (K), **Rhonda Mashburn** (PreK), Jaime Woodruff (ELL), **Stacey Crump** (Connect) **Beth Hall** (Assistant), , **Lynn Maness** (Office)

Attendance	
Celebrations	Star had 100% participation for 4th grade i-Ready. LMSs look great and teachers are working hard. Finally, finding a schedule/routine that works.
Approval of Last Meeting Minutes	All in favor of approving last meeting minutes.
Old business	
Schedules	The SIT Team tabled the connect and classroom schedules in the last SIT meeting. - Still continue to wait until we have more information on the date that we will start back in person.
Interims	We will hold a drive through pick-up for interim reports. You could have materials prepared to hand to parents. Interims will go home on the 15th.
Dates for Parent Nights	Dates for parent nights were tabled in the last meeting. What type of parent nights will we have?
TWCS http://asqnc.com/ To view results	Our school has a lot of strengths. The school uses clear communication with parents, good community support, safe school environment, and students are treated equally. Places for improvement are to minimize interruptions (for example parents wanting to talk during class time), Teachers have sufficient access to appropriate instructional materials, Parents and guardians are influential decision makers in the school, Professional development is evaluated and communicated to teachers. The school provides quality services to help students with social and emotional needs.
SIP	Reviewed SIP in Indistar.

Connect Schedules	All teachers are doing it differently (some live/some recorded), parents are voicing concerns over not knowing what will be live and what will be recorded. Schedules are set on the Connect Google Classroom "Stream". Teachers should refer students to the schedule. PE and Guidance are the only Live sessions at this time with the possibility of STEM starting Live next week. Green Ridge (home of music/art) did not want them to do live lessons.
Grade-level assignment expectations	Can we agree on/clarify the number of assignments that should be assigned each day? What is an acceptable amount based on each grade level? District stated a minimum of 1 Live per day and 2 grades per week. Be mindful of the length of worksheets or if it is assigned to use Kami, give students the option to complete on paper and upload a picture. Most teachers are assigning 3 or 4 a day. First grade teachers sent out a survey to parents for feedback on the amount of work being assigned.
Attendance Clarification	Are students counted present if they are not doing the work? Even if there is two-way parent communication? If you see a child or have 2 way communication with the parent, the state says they are counted present. If a student completes an assignment after hours they are still counted present. Remember grades and attendance are two separate things. Get input from grade levels on attendance motivation or celebration. Review the attendance document in the google drive under covid documents.
Grading Time Frame	What grades can parents have access to PowerSchool? Teachers invite guardians on Google Classroom so that guardians can see their child's Summary Report. Will look into a consistent time frame for how long students have to turn in work.
Open Discussion	Sunshine Dues, \$15 non certified \$20 certified. Virtual Assembly for Blue Flame.
