*Heather Seawell – Principal*

Dear Senior MCEC Parents,

In order to ensure North Carolina graduates have the requisite skills to enter a career and/or college, the State Board of Education (SBOE) in collaboration with the State Board of Community Colleges (SBCC) developed the CCRG program. This program requires high school seniors that are not career and college ready in reading and/or math by the end of their junior year receive intervention. CCRG is meant to reduce or eliminate the need for remediation for high school graduates when they enter the community.

MCEC seniors that are not exempt will be delivered the CCRG program in their English IV class this semester and receive CCRG math instruction through online modules supervised by Mrs. Hare. MCEC will begin implementation of the CCRG program during the 2023-2024 school year. Students that meet any of the exemption criteria will not be enrolled in the program.

The exemption criteria are identified below:

1. Have an unweighted high school GPA of 2.2 or below or a GPA of 2.8 or higher. Have a college GPA of 2.8+ and 6+ UGETC credits earned with a grade of C or higher.
2. Meet any of the following math or English test scores from the CCRG course for which the criteria are met.

Test	SAT (March 2016 and future)	ACT	Math 3 EOC
English	480 Composite Score for Evidenced-Based Reading and Writing	18	
Reading		22	
Mathematics	530	22	4 or 5

3. Students who are eligible for a College & Career Promise (CCP) College Transfer Pathway.

Students that do not meet the exemption criteria benchmarks will be enrolled in the CCRG program to satisfy this state requirement. For additional information, please call MCEC at 910-898-9690.

Sincerely,

Heather Seawell  
Principal
