

PLATEAU TRANSPORTATION CENTER

OVERVIEW

The Plateau Transportation Facility on the Sammamish Plateau was built in 2004 to solve the issue of Plateau-bound buses driving the miles to and from the main bus facility in downtown Issaquah each day rather than starting from and returning to a closer Plateau location. Eliminating those few miles each day saves travel time and gas. The Plateau Transportation Center is approximately 2,000 square feet in size.

PLANNED PROJECTS

- Anti Intruder Window Coverings
- Cameras
- Exterior Walls & Windows
- Hardware / Access Control
- HVAC Controls
- LED Lighting
- Major System Replacements and Modernization
- Roof Replacement & Repair

PROJECT BUDGET: \$1,437,000
