Effective Communicators:	<ul style="list-style-type: none"> Articulate and express their ideas when responding to questions Effectively use academic language when completing assignments Confidently read and write

Staff's Message

At La Familia we strive to make sure every student is provided with a safe learning environment where students are supported by a dedicated staff that focuses on ensuring academic success. We strive to create a culture of success where students gain a sense of pride and belonging as they prepare for their future. With the partnership of our parents and the community, our focus is to support students in overcoming the unique challenges they have faced and move them toward graduation and to develop the skills they will use to be successful in their plans after high school. We are committed to developing relationships that are based on trust and respect so that students feel valued as we support them in reaching their potential. We aim to develop students to become lifelong learners who are critical thinkers prepared for college and career.

La Familia High School

Turning Obstacles into Opportunities

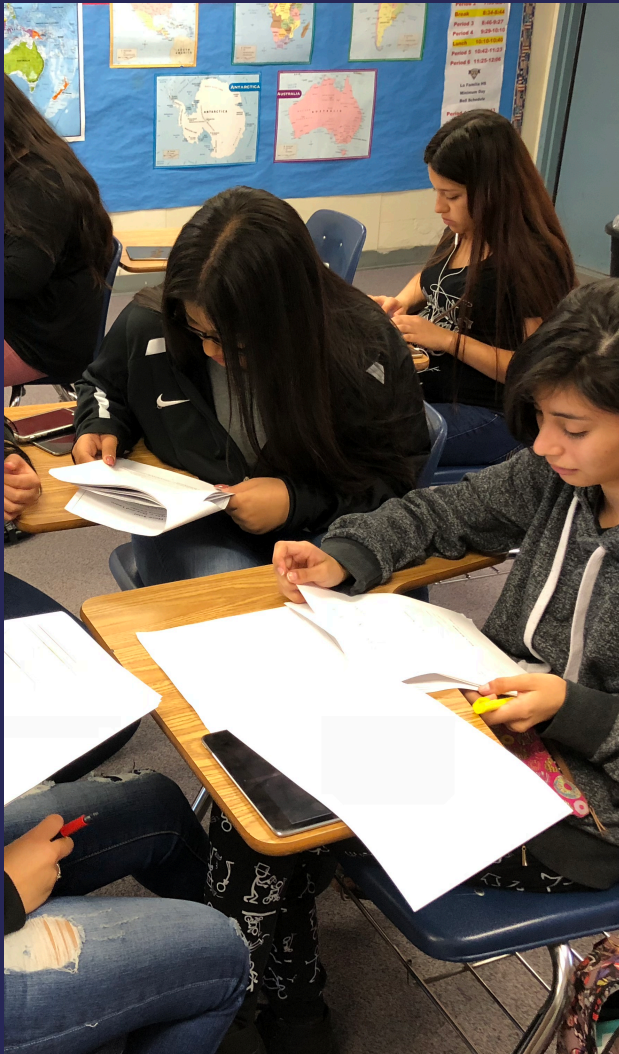

Home of the Lobos!

Academic Programs

Although La Familia High School is a continuation high school we provide students with quality instruction. At La Familia we strive to provide students with meaningful, challenging and relevant instruction. Our staff provide students with instructional

opportunities for personal and academic growth, and the coaching and support needed to demonstrate acquired knowledge and skills. We provide our students with access to a CCSS curriculum that is relevant, coherent, and includes real world applications. LFHS has an experienced staff that collaborates to enable students to succeed academically and to be prepared for life after high school. La

Sports Programs

La Familia offers a variety of co-curricular and curricular activities. Some of these include sports, clubs, and student leadership as well as activities tied to elective classes. Co-curricular activities include a sports program that competes with other alternative high schools in volleyball, basketball, soccer, and softball. Students get the opportunity to learn about physical health, teamwork, and leadership while supporting the “Win with Pride, and Lose with Pride” philosophy. This philosophy helps LFHS work on student’s emotional and psychological development as well as their self-esteem.

Familia is truly a “home” school where a student is known personally by every teacher and staff. Many of our students have not previously experienced academic success and it is remarkable to see the transformation that happens to many of our students during their tenure at La Familia High School.

Club Programs

LFHS offers ASB as well as the Lobos Club which focuses on leadership and civic responsibilities. Students in ASB provide LFHS a student governance group that participates in the improvement of the school as well as oversee fundraising and school activities. The Lobos Club focuses on civic responsibilities and citizenship. Students actively seek opportunities to participate in making improvements to their school and communities by volunteering and taking part in fundraisers, projects, activities and events.
