

Connecting the Canvas Parent mobile app

1. Download the Canvas Parent app on a mobile device.

iOS App Store

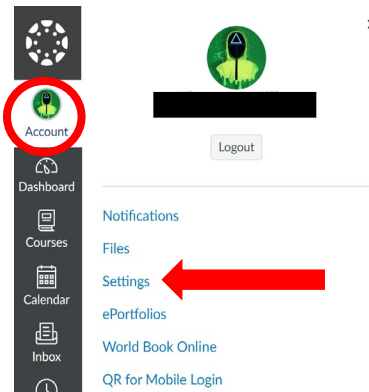

Android Play Store

2. Select “Find School”. As “Pearland” is typed, options will appear – select **Pearland ISD-Observers**

- If the parent has already created a Canvas account, login here.
- If the parent has not created a Canvas account, please create an account.
- If managing multiple students, you must create a parent Canvas account.

3. On a separate device, have the student login to the student Canvas account.

4. Navigate to “Account” and select “Settings”

5. In the Settings menu, select “Pair with Observer” on the right menus.

6. This will display a 6-digit alpha-numeric code. This code will change every time it is displayed. It is only needed once.

7. In the app on the mobile device, select **+ Add Student**, and select “Pairing Code”

Add Student

8. Use the Pairing Code on the student account and enter it on the mobile device.

This should join the parent mobile app to the student.
Repeat steps 3-8 to add another student to the parent app.
