HEAR Report from Interim Superintendent

- Good evening to all joining us here at our Nutrition Center while our Board Room is under renovation.
- As you heard last meeting, and you will likely hear from me during every single meeting, we are focused on two goals this year. Improving student outcomes and achieving operational excellence through high quality customer service. We just finished our 8th day of school, and I am thoroughly impressed with the amazing work happening from day 1! You will see data coming through from me on a monthly basis, but I also want to share some examples of our work in action. Because of the intentional work to find every student, Yokomi had only one no-show the first week of school. Amazing culture work at Hoover resulted in just one tardy the entire week as students moved between classes. Hamilton K-8 starts every day with a drop off “valet” where staff and students are literally opening doors and welcoming students to campus. When we talk about improving academics and amazing customer service – these are the seemingly “small” things that make a huge difference.
- I also want to send my love and strength to the entire McLane community. After a student involved shooting after school at the Auto Zone near campus last Wednesday, we know the fear that courses through any parent. While there are still many questions as the investigation continues, I want to thank our partners at the Fresno County Sheriff’s Office and the Fresno Police Department for their swift action and the commitment of additional resources to continue supporting McLane during this time. I am incredibly proud and grateful to our entire McLane team led by Principal Brian Wulf. They leaped into action immediately, supporting our students and families and each other as a team. I also want to thank our district leaders and teams who stepped in to provide additional support to McLane and who are continuing to do so now including Safety, Supervisors of Schools, Leadership Development, Human Resources, and many more.
- Out of scary moments like this, I have one major ask of our parents, families, community, students, and staff – if you see something, SAY SOMETHING. When you hear a rumor of a potential fight, you hear about a weapon, you hear about someone wanting to do harm to themselves or others, or you just notice something that is off, and your gut tells you something is wrong – SAY SOMETHING. We have the resources and staff to investigate and provide the proper support and intervention before something terrible happens. While we take a lot of safety precautions and measures, there is none more effective than information. We all have a part in keeping our kids, our staff, and our campuses safe places.
- Switching gears, I would like to share a few timely reminders and resources.
- It is Fresno Unified Night at the Fresno State women’s soccer match tomorrow Thursday, August 29. This means free admission to students in kindergarten through eighth grade! Students will need to check in at a table outside the entrance, which will be clearly marked.

- The Foundation for Fresno Unified Students invites employees to be part of "Giving Day: Peak Potential" on Thursday, August 29, an all-day virtual giving event supporting our schools. Donations go directly to the Adopt-A-School initiative to impact school communities. The Foundation matches donations to specific school needs and you can support your favorite region or foundation's choice! Check the Foundation's website tomorrow, August 29 at foundation4fUSD.org to contribute!
- Staff, make sure you are checking out Employee Zone each week on ParentSquare – there are a lot of great resources, learnings, and opportunities for you!
- Next week, Wednesday, September 4, we will hold an open house at Duncan Polytechnical High School where folks will get the chance to learn about the bond measure investments that have absolutely changed the school over the past several years, and they will learn about the upcoming Measure H to continue additional investments in our schools. If you are interested in an invitation, please reach out to our Communications Office at (559) 457-3733 or at communications@fresnounified.org.
- Congratulations and thank you to the entire Farber community for an amazing opening of schools for the first time ever! On Friday, we will hold a ceremonial grand opening, and the Farber team will continue the celebration with a block party Friday night. Join us!
- A big thanks to the Edward M and Jeanne C Kashian Family Foundation for bikes and backpacks to start the new academic year at Williams Elementary School! The Hot Diggity Dog event prior to school starting is an annual favorite at Williams, bringing families together for hotdogs, connecting and school supplies. Students could take home new coats, too!
- To wrap up, I want to share a quick video. Normally we show a video on the first week of school, which we have, and I encourage you to go watch it on our social media, but I am doing something a little different. I want to share our recap of Summer Camps 2024. These camps happen when we are on a break from our board meetings and often, we do not get to see the recap of these amazing experiences. Let us take a look.
- Amazing work to our Expanded Learning team and all of our amazing community partners who made these camps a reality. And thank you to everyone who made this the best opening of schools ever!

BOARD/INTERIM SUPERINTENDENT COMMUNICATIONS

Board members had the opportunity for Board/Interim Superintendent communications. A summary is as follows:

Member Islas commented on feeling hurt and disturbed by the recent shooting near McLane High School and is a firm believer in gun control one reason is too many students internationally and locally are harmed or injured as a result of guns. **Member Islas** commented on the need for honest conversations and set plans to stop it from continuing.

Member Islas commented that the students and families in the McLane region deserve to live in peace and safety. The students rank among the best in the district, they are high achievers, and families work hard to ensure their children will have better opportunities than they had. What happened near McLane can happen anywhere and it will take the community to work together to create greater safety.

Member Islas commented with support for an anonymous community hotline, to allow students or parents to report issues of concern directly to the schools and district as communication is the best alert to threats, if you know something, please say something it can save lives.

Member Islas asked the district to make it a priority for principals to know of community partnerships like Advance Peace. Member Islas asked Interim Superintendent Her to provide space at district events for principals and school staff to learn about these partnerships and provide an invitation to community groups to talk about how they can partner.

Member Islas commented that the district needs to have more dialogue with parents on how to reduce violence in the community. Parents want to know what the district has in place, and parents also have ideas about creating greater safety. Member Islas mentioned a recent poll of parents in the region that found parents do want to participate, and students as well have ideas regarding concerns related to safety.

Member Islas commented on the reality that we do have gangs in the community, and the wish that schools could be off limits and safe zones but there is more work needed to get there.

Member Islas called for improvement in our system relating to transfers, and for the district to take care to not inadvertently create instability or chaos with campus transfers, and asked to see case studies to ensure the district is creating the best opportunities for students who may have had behavioral issues. Member Islas commented that vulnerable students need more opportunities of support not a system that will label or profile them but will understand the complexities of their lived experiences.

Member Islas commented that though the district is facing budget cuts, she hopes the Board will prioritize programs that keep students engaged, the Board needs to find a way to continue to expand CTE, sports, arts, paid internships for students to keep them on track to brighter futures.

Lastly, Member Islas commented on the need to think about having the right people on campus and creating dialogue to build trust and respect with students.

Member Levine expressed appreciation for the comments of Trustee Islas and added to comments relating to Advance Peace and said it is important the district is doing more to be intentional about community-based partners and balance prevention organizations. Shared that Fresno High School has started a partnership that has led to a full-time case worker that has Advanced Peace change agents that Fresno High can call at times when an incident may become violent and requested the district to look for more opportunities for partnerships.

Member Levine commented the anonymous tip line is not only to address concerns about violence and safety and requested the district be sure to enlist student leadership in the process to include their knowledge and connections to peers and ideas of what the tipline could look like to be effective and successful. Member Levine shared on meeting with students that were concerned about vaping on school campuses and how tobacco companies are marketing products for teenagers and how do students feel safe to call out places where vaping is taking place. Member Levine commented on the need to enlist the help of the student advisory board to update or create a policy for the district pertaining to cell phones during the school day.

Clerk Davis congratulated the Interim Superintendent and staff on a fabulous start to the new school year. Shared Back-to-School Nights are taking place and there is excitement in our community about the start of school. Commented that safety staff and bus drivers were in place doing their part for students. Shared that site principals are tremendous and are learning new ways to look at things, and she is excited and looking forward to how the district will achieve its two goals. Provided a shout out to Sunnyside Region. Encouraged Human Resources to hire as many teachers as possible as enrollment is up across the district.

Member Cazares extended heartfelt love to students affected by the incident at McLane and thanked staff who acted quickly in response and continue to do so to bring calm back to the neighborhood. Encouraged the district to consider deploying services to other high schools as students at other schools have friends at McLane and what happened at McLane can affect them as well. Encouraged staff to reach out to the Youth Leadership Institute and Parent University to make sure Hear Something, Say Something is accessible to students.

Member Cazares commented that over the past eight years, the Board has increased investment in Dual Enrollment courses and asked the district to be intentional about messaging the availability of dual enrollment in a timely manner. Commented that in addition to summer camps the district also does impressive work with the winter camps and thanked staff and community partners for making them happen.

Member Cazares shared information related to the Fresno County Library with the League of Mexican American Women hosting the first ever Betty Rodriguez Day! The day will celebrate the life of Betty Rodriguez and talk about what she gave to the community with the hope people will learn from her life and carry the torch. There will also be a book giveaway! The event will take place at the Betty Rodriguez Library, at 12:00 p.m. on September 28, 2024.

B. CONFERENCE/DISCUSSION AGENDA

B-16, PRESENT and DISCUSS Potential 2024 Bond Measure Project Priority List

Staff presented for discussion potential 2024 bond measure projects and priorities. Future project implementation will depend on project definition and scoping, funding availability and Board approval.

For the record, the Board received zero (0) requests to address the Board on agenda item B-16.

For the record, Board members had comments/questions pertaining to agenda item B-16. A summary is as follows:

Member Levine commented on being glad the district is leaning into the equity tool that RSCC put in place so the district can look objectively at where the most urgent overdue facility needs exist. Commented on deferred maintenance, specifically supports the intent of it being flexible and a little open ended. Commented on supporting the Board moving into the equity mindset as much as possible and truly looking objectively at where are the facilities, buildings, neighborhoods with the most urgent needs.

Member Levine commented that he would like to make sure all regions have representation reflected in the bond and would support something that has more parity around the amount each region is allocated within the \$101 million, and then to make sure the Board is not working subjectively but really using the equity framework to look within the regions to find the most urgent needs.

Member Jonasson Rosas referenced a conversation held with a voter who asked why they should give more money to Fresno Unified when southeast Fresno does not get any of the money. Member Jonasson Rosas commented this is a very pervasive sentiment in the region and Fresno, after years of strong bond support because of the belief that education is an opportunity provider that they do not get their fair share, and this is proven by the data.

Member Jonasson Rosas commented, with due respect, that the regional approach has gotten the district into a situation of inequity because everyone is promoting their own school and not where the greatest need exists and the impact to students.

Member Jonasson Rosas commented on being firmly supportive of a project list even when it does not primarily benefit the Roosevelt region, as it is driven by a third-party, objective metric, that is not driven by politics, it is an assessment of where the equity score is and that is what is driving the investment and is what kids deserve.

Member Jonasson Rosas commented on being firmly against the regional approach as it furthers the inequities, particularly those in the Roosevelt region that has more schools than the other regions. Member Jonasson Rosas asked where the equity is in dividing a sum of money between regions, and the Roosevelt region has more schools and older schools. Commented on removing politics and taking an objective measure which is to demonstrate the impact, which is what we are here for, the facilities are in service to the impact targets.

Member Jonasson Rosas commented on appreciating the focus on elementary schools where the bulk of students and needs are. Commented on understating the need for maintaining operation flexibility with the small capital projects but this is sometimes where politics come into factor. Jonasson Rosas would like to have a balance of operational flexibility with an understanding there are small capital projects at every school and the process to determine which project is completed first is of the utmost importance to Member Jonasson Rosas because there is a little lack of trust in the Roosevelt region on how decisions are made. Member Jonasson Rosas commented on good steps taken to determine the order of projects and coming back to the Board for approval every time is good, but more work is needed on what determinations are used to move a project.

Member Jonasson Rosas commented that \$80 million for turf, tracks, and lights is a lot of money when compared to the priorities and the list of portables that are well past their life span.

Member Cazares shared appreciation for the buckets staff presented and the way the Board has moved forward through an equity-based lens, working with RSCC on an assessment tool the Board could use to benefit the neediest schools, and in which the Board agreed is meaningful. Member Cazares thanked the Fresno Teachers Association for their help in identifying sites and commented there are several projects on the list related to safe routes to school and thanked staff for their support of safety for students.

Member Cazares asked if there was a need for the Board to decide today regarding the \$101 million, and if not, what is the timeline. Member Cazares commented on originally supporting the option of dividing resources by district areas and Trustees working with their area leaders to identify projects, but the Board has dedicated themselves to using the equity lens and Member Cazares is now having a harder time moving towards what are called “pork barrel projects” when there are buildings that may have higher needs in another region; students going to school where it is rat infested, moldy, or wood needs to be replaced, playgrounds that are years old and need to be replaced, and if that is being weighed against something that does not affect a child’s health and safety as detrimental Member Cazares will lean towards making sure a child’s health and safety is attended to first versus making a political decision.

Member Cazares requested a list of equity-based projects based on the highest need in the district, on which FTA collaborated.

Member Islas commented that when people speak without coming to the microphone, she cannot hear. Member Islas commented that the Board made an investment for an assessment tool to help inform the Board and the objectivity of the tool is important. Commented that in options one and two there are schools that rise above others and are on both lists and feels the Board should rely heavily on the assessment tool as a basis for decision making.

Clerk Davis commented the Board could have it both ways, per region and per need. If given \$500 million dollars split seven ways with each region prioritizing the projects, Member Davis feels the communities would feel empowered. Member Davis commented that if a need in another region is more urgent than a need of another region, there might be room for negotiation.

Member Davis asked staff, if taking the \$500 million and setting aside the eight year, \$10 million, will it be feasible to ask the community for another bond. Member Davis commented that the district can do it if our community knows the district is equitably prioritizing needs.

Member Thomas commented that the Board committed to using the equity tool, committed to first serving underserved schools, and the Board needs to stand on this commitment and be sure to first take care of the lowest served.

President Wittrup referenced a facilities walk taken when first elected and the mold seen in the second gym at Bullard High School and commented on not seeing the gym listed on the priority list. President Wittrup commented that when elected parents in the community brought forward concerns about the black mold and the dilapidated condition of the gym and yet the gym did not make the list although in poor condition.

President Wittrup commented when looking at the FTA project list, there are schools listed in southeast and southwest of Fresno that could basically be mowed down and start from the beginning because if those facilities fail, they will fail and there will not be a school for children to attend. Wittrup commented on being very much in support of fixing those schools and making them safe, clean, engaging, and healthy. Wittrup commented there is research that shows students outcomes improve when they are learning in positive conditions.

President Wittrup shared concerns that this project list is uneven when working with \$500 million bond. Commented on knowing there are equity issues to address, but there are also failing facilities in the Bullard region that did not make the equity list simply because the community is seen as higher functioning and of a higher socioeconomic background and if this same gym existed in another part of town given it's condition it would be on the list.

President Wittrup asked why the second gym at Bullard did not make the list and if the district is going to close the gym due to the condition. Wittrup commented on posting pictures of the gym on social media while campaigning because the appalling condition. President Wittrup again referenced the facilities walk when first elected and none of the priorities pointed out during the walks made the list. President Wittrup mentioned that while talking to constituents preparing to vote, she will say northwest voter need to feel like they will see something for the bond and right now Bullard is at \$25.7 million and the Roosevelt region at \$114.6 million, and Sunnyside at \$9 million. So, voters expect something when they vote for a bond and as a Board, we need to think about that as well.

President Wittrup referenced a ballot measure pertaining to state education facilities and asked if it will help the district. President Wittrup commented that a Board approved project list will help voters feel confident that if they vote for this bond, they will see something in their region, their children will have an enriching experience, and there are projects in every region that urgently need attention. President Wittrup supports Trustee Levine's idea of using the equity lens within each respective region, as voters will feel more inspired to vote yes on the bond. President Wittrup commented on fearing that with this current project list, for a

\$500 million bond for Bullard to pull \$25.7 million Wittrup worries about the bond passing.

Member Cazares requested an allocated list, by region, of what this bond will cover aside from the \$101 million, and also a total from past bond measures. Member Cazares commented this is helpful when a constituent calls and has incorrect information.

Member Jonasson Rosas commented there are diverse ways to view data and the number of schools in a region and new facilities built in a region can skew the data. Member Jonasson Rosas suggested per pupil, per age of the building.

For the record, Paul Idsvoog was available to provide clarity.

B-17, PRESENT and DISCUSS the 2024 Smarter Balanced Assessment Consortium Results

The Interim Superintendent presented an overview of the 2024 district Smarter Balanced Assessment Consortium (SBAC) results, new data resources to support sites and planned action steps to improve student outcomes.

For the record, the Board received zero (0) requests to address the Board on agenda item B-17.

For the record, Board members had comments/questions pertaining to agenda item B-17. A summary is as follows:

Member Cazares commented that using data is not new and referenced visiting a kindergarten class at McCardle six years ago where they were adjusting educational goals and guard rails for students as they discussed data. Member Cazares commented that what is new is the district pushing with emphasis on the tools, here is the data how can we get DFS fifteen points or how does this help with the call on customer service which go hand in hand.

Member Cazares asked Interim Superintendent to briefly comment on ninth grade on track and commented on interest in seeing it in grades ten, eleven, and twelve. Member Cazares asked for a brief description of the raw data generator. Member Cazares provided a shout out to schools represented in the presentation and shared that principals are constantly adjusting how data is interpreted and applied to a student's learning environment, and they work hand in hand with teachers and instructional learning teams to make sure they are part of the process. Member Cazares requested the district to purposefully involve staff and teachers in the models developed.

Member Islas thanked Interim Superintendent Her for sticking to her commitment and commented that for the first time it feels as if the Board is getting data in real-time and is provided the opportunity to celebrate all the work happening in the

regions. Member Islas commented that the district does do good things and students do have improved outcomes, despite the bad wrap and negativity we hear.

Member Islas provided a shout out to the McLane region for the gains they made, and commented there are great administrators and teachers that are working hard to change outcomes for the students and families they serve.

Member Jonasson Rosas expressed appreciation for the laser focus on the data. Asked if the data can track a student's enrollment in various programs, similar to a component to AROI, we know a student's academics but sometimes there are interventions or mentoring involved and how is the district tracking the portfolio of services provided to monitor relative gains and impact to student outcomes. Member Jonasson Rosas commented that the ideal is to look at a student's time with Fresno Unified and see all the programs or interventions provided and the relative impact they had to the student's achievement.

Member Levine thanked Interim Superintendent Her for the presentation and Her's leadership and laser focus over this area. Expressed gratitude to the AMA team for their work as it is incredibly valuable to the Board and to sites.

Member Levine asked if a case study of schools which made double-digit gains in both English Language Arts and mathematics could be brought to the upcoming workshop to learn from what was done in the classroom and at the school site.

Member Levine provided a shout out to schools in the Fresno High region for gains made and commented on being curious about schools that saw gains only in distance from standards and asked staff to run numbers, is a distance from standard gain one year an indicator of gains in future years.

President Wittrup expressed appreciation for the work Interim Superintendent Her has done and commented on being impressed with the work done over the summer to put this work together. President Wittrup commented that students will benefit from this work, and it is good to be talking about it in a Board meeting. President Wittrup asked for a way to recognize teachers who are making these tremendous gains and asked to visit classrooms where they are taking place.

Member Jonasson Rosas commented that one of the two goals is customer service and suggested there be a component for a teacher's customer service to parents.

Clerk Davis commented on viewing the data from the perspective of who has the most need and asked if with the first minimum day the principals were tasked with having those hard conversations, and sharing what resources and supports are available to teachers per grade level. Member Davis commented that teachers are waiting to be inspired, encouraged, and acknowledged for their work and this puts

ownership on principals to be the instructional leaders at their school sites. Clerk Davis asked how the district is supporting our principals with having those difficult conversations, as a leadership team what type of supports are provided to principals.

For the record, Interim Superintendent Her, Zerina Hargrove-Brown, Ed.D., and Marie Williams, Ed.D., were available to provide clarity.

BOARD MEETING DATE: September 11, 2024,

AGENDA ITEM A-4

ACTION REQUESTED: ADOPT

PRIORITY GOAL: Achieving Operational Excellence

TITLE AND SUBJECT: Adopt Resolution 25-12, Vehicle Procurement Delegation

ITEM DESCRIPTION: Included in the Board binders and recommended for adoption is Resolution 25-12, Vehicle Procurement Delegation to approve the procurement of specialty vehicles required for various operational and student transportation uses. The district has sought to procure specialty vehicles in a manner required by Public Contract Code Section 20111(a) but has been unsuccessful due to the limited number of vendors and the scarcity of such items, as well as the very high demand in the general market for the vehicles arising, in part, from the pandemic including chip shortages.

While the district's procurement of supplies and equipment is normally subject to requirements for competitive bidding, as set forth in Public Contract Code Section 20111 *et seq.*, the California Court of Appeal in *Graydon v. Pasadena Redevelopment Agency*, (1980) 104 Cal. App. 3d 631, determined that there are well-recognized exceptions to requirements for competitive bidding, including when competitive proposals would be unavailing or would not produce an advantage, or where there is no likelihood of acquiring required items through competitive bidding (*Id.* at 635-637). The district has determined that vehicles may be obtained in a timely manner and at a reasonable price directly from dealerships or manufacturers.

The district recommends approval of the delegation of authority to purchase specialty vehicles as it represents the best interest of the district by obtaining vehicles in a timely manner to fulfill operational needs and requirements.

FINANCIAL SUMMARY: Adoption of the resolution has no direct fiscal impact.

RESOLUTION NO. 25-12

RESOLUTION OF THE BOARD OF EDUCATION OF THE FRESNO UNIFIED SCHOOL DISTRICT APPROVING PROCUREMENT OF CERTAIN MOTOR VEHICLES AND DELEGATION OF AUTHORITY TO TAKE RELATED ACTIONS

WHEREAS, the Fresno Unified School District (“District”) requires the procurement of certain specialty motor vehicles, and incorporated here by this reference (collectively referred to herein as “Specialty Vehicles”), required for various operational and student transportation uses; and

WHEREAS, the District has sought to procure Specialty Vehicles in a manner required by Public Contract Code Section 20111(a), but has been unsuccessful due to the limited number of vendors and the scarcity of such items, as well as the very high demand in the general market for the subject Specialty Vehicles arising, in part, from the pandemic; and

WHEREAS, while the District’s procurement of supplies and equipment is normally subject to requirements for competitive bidding, as set forth in Public Contract Code Section 20111 *et seq.*, the California Court of Appeal in *Graydon v. WHEREAS, the District has not been successful in its efforts to acquire Specialized Vehicles, and thus recommends that the Board find that the acquisition of such items using a competitive bidding process is impractical and unavailing; and

WHEREAS, further, normal procurement efforts have failed to produce an advantage for the District in acquiring the needed Specialized Vehicles and it is largely futile for the District in this instance to obtain such items through competitive bidding; and

WHEREAS, the District has determined that some or all of the Vehicles may be obtained timely and at a reasonable price directly from dealerships or manufacturers; and

WHEREAS, further, it would work an incongruity and not produce any advantage to the District to continue to repeatedly attempt procurement of Specialty Vehicles without success, which in turn would result in failures of District operations and implementation of educational programming associated with such equipment potentially resulting in legal ramifications.

NOW, THEREFORE, the District Board of Trustees (“Board”) hereby determines, resolves, and orders as follows:

Section 1. The foregoing recitals are true and correct and are adopted as findings of the Board.

Section 2. Based on the District’s attempts to procure Specialty Vehicles through competitive bidding, it is not possible or practical to obtain such items while still observing the

requirements of competitive bidding; thus, the acquisition of and delivery of such items in these circumstances is exempt from requirements for competitive bidding consistent with the Court of Appeal's decision in *Graydon v. Pasadena Redevelopment Agency*.

Section 3. The Board hereby approves the purchase of Specialty Vehicles, and delegates authority to Ann Loorz to take such action as may be necessary to secure proposed purchase orders, in a collective amount, plus any fees, applicable sales tax and freight, and execute contracts consistent with the direction of the Board contained herein.

Section 4. The Board hereby authorizes the Superintendent and/or his designee to take any and all such actions necessary to effectuate the purpose of this Resolution and secure the acquisition of Specialty Vehicles.

Section 5. This Resolution shall take effect immediately upon approval and adoption by the Board and shall be operative through June 30, 2025, when the administration will report to the Board the then-current status of the market for Specialty Vehicles.

In compliance with the FTA CBA, we conducted a vote of bargaining unit members for the purpose of renewing our site waiver to allow our 8-period day schedule. The vote was conducted by secret ballot from March 21-March 22, 2024. There were a total of 19 votes cast.

The results were as follows:

19 "Yes" votes to continue the 8-period day waiver

0 "No" votes

With a unanimous vote in the affirmative, the required threshold for site bargaining unit member approval to continue with the Computech waiver to allow an 8-period day is met.

Waiver Language:

We, the staff at Edison Computech Middle School, are requesting a renewal of our waiver of the FUSD/FTA collective bargaining agreement for the 2024-2025 school year. We wish to waive Article 20-Hours to change section 6, from "the traditional school's seven (7) period day" to read "eight (8) period day". **Renewing this waiver means we will teach six periods, be provided 2 periods of prep, and have lunch one period.** This waiver will sunset at the end of the 2024-2025 school year at which time we understand we can apply for another waiver.

I. Services.

a.) OBJECTIVE: CORE Districts to provide a research partnership, facilitation of work between all departments and participating districts, co-construction of a continuous improvement strategy, coaching, development and management of tools for the work, facilitating virtual or in-person learning sessions based on the conditions/mandates set forth by the state and local governments, and co-designing analytics for the work. This work will impact all school sites, all 73,000 students and all staff that works directly with students and most staff that works indirectly with students. CORE is a collaboration of nine school districts serving more than 1 million students participating as a collaborative team that include Fresno, Garden Grove, Long Beach, Los Angeles, Oakland, Sacramento, San Francisco, Santa Ana, and San Jose Unified. CORE supports the improvement of specific outcomes by developing continuous improvement structures, mindsets, and routines that foster learning at both the district and site levels, resulting in districts and schools making progress toward producing more reliable, equitable outcomes for their students.

As a collaborative effort, the work of CORE Districts is directed by, and in service of, the participating school districts. Exemplifying this, the CORE Board of Directors is comprised of the superintendents of each member school district and provides supervision, direction, and strategic vision for the organization. The number of participating districts is capped at 15, thus each participating district has a meaningful voice and leadership role as they collaborate with other districts. Organizationally, CORE Districts is a 501c3 nonprofit serving to operationalize the collaboration and supporting partnership and shared learning at the superintendent, central office, school leader, and teacher levels.

Powered by data, innovation, research and continuous learning, we are facilitating inter- and intra-district collaboration to innovate, implement, and scale successful strategies and tools that help all students succeed.

<p>The problem is... and this is needed to remedy it . . .</p> <p>CORE Districts is a collaborative of nine of California's largest urban school districts serving over 1 million students. With 85% of our students being people of color, 75% economically disadvantaged, and 22% English learners, we serve a population with significant needs - those most likely to fall through the cracks of our current system. Unfortunately, the public education system today continues to produce inequitable outcomes for these students.</p> <p>We are facing an unprecedented moment in public education where the set of challenges our world faces today could cause massive disruptions if we don't rethink how our system, particularly secondary education, is designed to serve students.</p> <p>These challenges compounded by ongoing funding concerns in most of CORE's districts compel us to collaboratively</p>	<p>If we have these resources in place . . . Include how these outcomes will be monitored and measured.</p> <p>CORE Districts' long-term goal is for there to be better alignment of secondary education systems, and for all California students to have strong support, effective programming, and an educational community standing together by their side so that they can achieve and succeed in college and career. We are working towards this goal by supporting and facilitating inter- and intra-district collaboration to innovate, implement, and scale successful strategies and tools that help students succeed.</p>

About the CORE Collaborative

CORE Districts is a collaboration of school districts working together to improve student achievement through highly productive, meaningful partnership and learning between member school districts. CORE supports the improvement of specific outcomes by developing continuous improvement structures, mind sets, and routines, that foster learning at both the district and site levels, resulting in districts and schools making progress toward producing more reliable, equitable outcomes for their students. Currently, nine school districts serving more than 1 million students participate in the collaborative: Fresno, Garden Grove, Long Beach, Los Angeles, Oakland, Sacramento, San Francisco, Santa Ana, and San Jose Unified. Together, our districts share a fundamental belief that all students can achieve at high levels and are deeply committed to providing learning opportunities that will help them to do so.

As a collaborative effort, the work of CORE Districts is directed by, and in service of, the participating school districts. Exemplifying this, the CORE Board of Directors is comprised of the superintendents of each member school district and provides supervision, direction, and strategic vision for the organization. The number of participating districts is capped at 15, thus each participating district has a meaningful voice and leadership role as they collaborate with other districts. Organizationally, CORE Districts is a 501c3 nonprofit serving to operationalize the collaboration and supporting partnership and shared learning at the superintendent, central office, school leader, and teacher levels.

Powered by data, innovation, research and continuous learning, we are facilitating inter- and intra-district collaboration to innovate, implement, and scale successful strategies and tools that help all students succeed.

Partnership Benefits

All the partnership benefits described in this agreement may not apply to all of CORE's member Districts. Additionally, the partnership benefits outlined in this agreement are subject to change over time, based on availability and each District's decision to participate in different offerings. CORE Districts will also respond to the needs of its Districts by facilitating learning sessions either virtually or in-person based on the conditions/mandates set forth by the state and local governments. Decisions regarding the scheduling and delivery of sessions will be communicated with participants in advance. Districts also agree to allow CORE staff access to student level data in order to perform the services outlined in this agreement.

District Partnerships to Achieve Impact

One or more Districts will be invited to enter into a multi-year partnership with CORE, in an effort to invest in those Districts' vision and theory of action to deepen and spread disciplined continuous improvement in their organizations. The intent is to achieve measurable impact on key focus areas for improvement, as well as develop insights, learning and proof points around how large urban districts embody the principles of continuous improvement. The roles and commitments of participating Districts and CORE include:

Districts will have access to the improvement capability programming offered by CORE, and in some instances, travel coverage to attend CORE-wide programming. The specific problems of practice and number of improvement projects may change over time to meet the needs of the partner District and capacity of CORE.

CORE Data Collaborative

In 2014, with leadership from and stakeholder engagement in Districts, CORE Districts developed an innovative multiple measures accountability system, called the School Quality Improvement System, as well as an underlying data system. This accountability system is fully compliant with the federal ESSA legislation and is aligned to LCFF- in fact, the metrics utilized for the Index (the calculation at the heart of the accountability system) can be used for the LCAP. The system has evolved into a multi-function dashboard, with opportunity for data exploration in a number of areas.

As a member of the CORE Data Collaborative, the District will receive:

- **Annual Multi-Metric School and LEA Data Dashboards with Performance Benchmarked against Peers across California:** A comprehensive, multi-metric dashboard of results at the school and LEA levels, including the follow results for each indicator, will be provided each school year-
 - Current performance
 - Historic performance and trends over time, where data are available
 - Index level, where available (on a scale from 1 to 10 based upon baseline performance across the CORE Districts)
 - Comparison with the LEA results (for school level reports)
 - Comparison with the Partnering Education Level
 - Comparison with the CORE Data Collaborative Network
 - Subgroup performance for all of the major subgroups (e.g., English Learners, Racial/Ethnic Subgroups, Students with Disabilities, Socio-Economically Disadvantaged Youth, Foster Youth, Homeless Youth) where data are available
- **Included metrics:** Academic Achievement, Academic Growth, High School Readiness, Graduation, Chronic Absence, Suspension Rates, English Learner indicators
- **Access to additional metrics as they become available:** The data collaborative may begin to produce additional metrics (e.g., an on track measure); if the educational institutions provides the underlying ingredients for such data, results will be provided back to the education agency at no additional charge
- **Optional metrics** (if collected and provided to CORE Districts): Social Emotional Skills, Student/Staff/Family Climate Surveys based upon the CORE District surveys

Dynamic Reporting and Opportunities for Deeper Analysis using the CORE Insights Platform

Based upon the users and user rights provided by the District, educators will have access to view and analyze reports and data in the CORE Insights platform, and other platforms as they become available.

Strategic Analytics by our Partners at Education Analytics

In partnership with Education Analytics and in consultation with participating education agencies, CORE will conduct strategic analytics to explore patterns, identify trends, develop additional indicators, and identify outlier schools that can potentially serve as exemplars. Findings will be shared with all members of the CORE Data Collaborative.

Twice Annual Professional Learning Sessions for Teams of Up to Five People

CORE Districts will host two in person convenings each year (one in the Fall and one in the Spring) for up to five people from each District. Each convening will be a full day. If in person convenings are infeasible due to COVID-19, CORE will implement a comparable virtual convening. District will be responsible for all travel costs. CORE Districts will provide the venue, meals during the day, and general session facilitation.

Additional Professional/Peer Learning Opportunities

CORE Districts will offer additional professional learning opportunities, such as webinars. Such opportunities will be made available to Districts who participate in the CORE Data Collaborative.

CORE-PACE Research Partnership

Participating education agencies will become part of the CORE-PACE research partnership with opportunities to engage in and learn from research on the quantitative data in the CORE data system, and qualitative "deep dive" studies into policy and practice. Policy Analysis for California Education (PACE) is an independent, non-partisan research center based at Stanford University, in partnership with the University of Southern California and the University of California-Davis, the University of California--UCLA, and the University of California-- Berkeley. Founded in 1983, PACE seeks to define and sustain a long-term strategy for comprehensive policy reform and continuous improvement in performance at all levels of California's education system, from early childhood to postsecondary education and training. PACE bridges the gap between research and policy, working with scholars from California's leading universities and with state and local policymakers to increase the impact of academic research on educational policy in California. PACE works with a network of approximately 50 policy scholars from all of the leading research universities in California, both public and private.

PACE has been the CORE Districts' primary research partner since 2015. Over the past couple of years, PACE has intentionally been working to support the evolution of the organizational relationship along the continuum articulated by Penuel and Gallagher (2017) from a positive "collaborative" (where the research partner takes the lead on the work, with the goal of benefiting the education partner) to a "jointly negotiated" relationship (where the research and education partners co-construct research questions, there is ongoing involvement of both parties in bringing data to bear on progress, both parties collaborate on building data-based understandings, and the scope of work is broad and jointly agreed upon). The resulting Research-Practice Partnership has two main facets: (1) where PACE serves to connect questions relevant for policy and practice to researchers interested in answering them using the CORE data system, (2) the mixed methods developmental evaluation of CORE's programming to drive improvement.

Research to Inform Policy and Practice

CORE Districts' member Districts have the opportunity to participate in single or multi-LEA research studies in ways that are designed to inform continuous improvement in the CORE Districts and policy and practice in California and beyond. PACE leads and facilitates quantitative research in the partnership by:

- Building and maintaining the infrastructure for quantitative research using CORE's member Districts' data. This includes:
 - 1) Developing and maintaining a data warehouse going back to 2010-11 containing student and school-level data for CORE and Data Collaborative districts, and 2) managing the entirety of the process for conducting new research within CORE, from developing research questions to publishing final products.
 - 2) Managing CORE's quantitative research portfolio. PACE engages researchers from UC Santa Barbara, USC, UC Riverside, UC Irvine, University of Virginia, Brown, Harvard, UC Davis, UC Los Angeles, UC Berkeley, and other universities on studies co-designed with PACE and the CORE districts. The portfolio of research conducted by these PACE "affiliates" now includes 40 ongoing or completed studies, some of which have validated measures of socio-emotional learning and others of which provide insight into important educational policy issues (e.g., school accountability, the relationship between student characteristics and academic and behavioral outcomes, variation in the effects of schools, districts, or policies for various student subgroups). New studies are approved by the CORE Board on an annual basis.
 - 3) Conducting original research to inform policy and practice. These studies, which are conducted by PACE faculty and staff, are released more quickly than the PACE-affiliate studies and usually have tighter implications for policy and practice. They leverage PACE's expertise in both quantitative and qualitative methods to answer complex questions on a timeline that supports districts' learning and decision-making. These studies might investigate such topics as pipelines into teaching and school leadership, workforce quality, or using CORE's multiple measures data system to build a stronger understanding of school performance and improvement in student outcomes. They could also include evaluations of new programs or interventions designed to address persistent barriers to strong and equitable student outcomes.

Developmental Evaluation

As CORE's research partner, PACE conducts research on CORE's approaches to supporting the CORE Districts member Districts to improve. The goals of this work are: (1) for CORE's staff and its Districts to receive ongoing, formative feedback and (2) to share research findings in ways that impact education in California more broadly. Towards these goals PACE:

- Works closely with CORE staff to document, revisit, and revise CORE's theory of action on a regular basis as CORE and PACE learn together about CORE's work
- Co-develops research questions with CORE, to help them test and refine their approach
- Develops a rich of understanding of CORE's practices and how Districts (i.e. participating districts, schools, and educators) experience working with CORE through activities such as:
 - Attending and documenting a sample of network meetings and capability-building programs
 - Interviewing CORE staff to understand how team members are enacting their roles in supporting improvement
- Interviewing district and school administrators and educational leaders (including teacher leaders) working on improvement teams with CORE to understand how CORE's work is experienced by Districts (i.e. participating districts and schools)
- Estimates the effects of BTSC on participating districts and schools by:

Conducting a quasi-experimental design to estimate the effects of BTSC on participating schools

- Shares findings from the research:
 - With CORE to support CORE's ongoing internal improvement (e.g., through regular check-ins and improvement reviews with CORE)
 - With participating schools and districts at their request (e.g., presentations for staff in one or more of the CORE Districts)
 - With policy-makers, educators, and the broader research community through conferences, briefs, reports, and social media.

Each year, CORE District staff and member Districts' Superintendents will be able to prioritize additional research topics for exploration through PACE's quantitative portfolio.

State and National Voice:

Together, CORE Districts' Districts serve more than 1 million students and their families, representing 18 percent of all California students. Thus, by working together, CORE Districts' member Districts serve a significant proportion of the state's students and have the opportunity to have a much greater voice at both the state and national level.

In addition to the capability building, data and research partnership benefits described above, the member District's Superintendent has the opportunity to participate in a PLC, collaborating and learning from others around shared problems of practice. These often have state and federal policy implications.

Through the power of the group, Districts have an outsize policy impact. Examples of CORE's policy impact include:

- State Accountability System - our voice is strong in policy discussions about how data is used at the state-level for accountability versus how data is used locally by educators for improvement. CORE- PACE analysis has been critical in state decisions around measuring and reporting chronic absence and school culture/climate in the state's accountability data system, and CORE Districts' use of student academic growth data is a major influence on how the state will move forward to include student academic growth as an indicator on the California school dashboard.
- California's emerging Cradle to Career Data Infrastructure - CORE's use of practitioner-focused dashboards and tools stand out among the case studies being considered by policy makers and influencers in the governor's efforts to build a cradle to career data infrastructure. Among the ways CORE's voice stands out are CORE's latest developments and tools to help answer questions like what is a student's likelihood of graduating? Of graduating A-G? Of being successful in college?
- LCAPs - Released months before the state Legislature developed California's LCAP process, CORE's School Quality Improvement Index informed much of the policy conversation and the LCAP data metrics have 85 percent crossover with CORE's Index.
- ESSA- The Every Student Succeeds Act perfectly aligns with CORE's Index and our multiple measures work helped influence the final bill.
- NCLB Waiver - CORE Districts received the only district-level waiver from NCLB, which allowed the districts to develop a novel and holistic accountability system and receive increased flexibility for the use of their Title 1 funds.

Hold Harmless

To the fullest extent allowed by law, the District shall hold CORE Districts, its agents, employees, volunteers, and representatives ("Indemnities") free and harmless from any and all claims, demands, negligence (including the active or passive negligence of Indemnities, regardless of whether sole or otherwise, as allowed by law), causes of action, costs, expenses, liabilities, losses, damages or injuries, fines, penalties in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, (collectively "Loss") to the extent arising out of or incident to, but not limited to: breaches of any District data (including but not limited to employee, board member, and student data) by CORE District's, its partners, and the 3rd party platforms CORE uses for its work.

AGENDA ITEM A-9

ACTION REQUESTED: APPROVE

PRIORITY GOAL: Improving Student Outcomes

TITLE AND SUBJECT: Approve Agreement with District Management Group, LLC

ITEM DESCRIPTION: Included in the Board binders is an agreement between Fresno Unified School District and District Management Group, LLC (DM Group). DM Group's Breakthrough Results program provides dedicated coaching, job-embedded professional learning, collaboration, and data analysis and visualization. These supports improve student outcomes and build teacher and leader capacity.

Participating grade-level teams will set grade-level goals based on their baseline data, attend weekly team meetings, share data, and receive coaching during each 10-week cycle. Participating grade-level teams will develop skills to monitor their classroom and grade-level data and implement appropriate student support and timely interventions.

Fresno Unified School District students enrolled in grade three in 2023/24 were an average of 49 points distance from standard as measured by statewide summative assessment results in English Language Arts. As a result of the services provided by DM Group, participating grade-level site teams expect to improve their average distance from standard by at least fifteen points on end-of-year statewide summative assessments in English Language Arts.

During the 2023/24 school year, Bullard Region piloted DM Group's Breakthrough Results program. Twelve teams and 263 students representing nine Bullard Region schools participated in the pilot. On average, participating students in first grade increased their words correct per minute by 154%, and students in second grade increased their words correct per minute by 70%, from the baseline to post-assessment. Among the 53 participating teachers, coaches, and site leaders surveyed, 100% agreed that their students benefited from participating in Breakthrough Results, they grew professionally, and they felt inspired and empowered to reach the goals they set as a team.

FINANCIAL SUMMARY: Sufficient funds in the amount of \$1,300,000.00 are available in the School Leadership budget.

or misuse of the District's Confidential Information. Such an action for a restraining order or injunction is in addition to and does not limit all other remedies provided by law or in equity or by agreement between the Parties.

1. **Indemnification and Hold Harmless.** To the fullest extent allowed by law, the Contractor shall defend, indemnify and hold District, its agents, employees, Board of Trustees, members of the Board of Trustees, officials, officers, volunteers, and representatives ("Indemnities") free and harmless from any and all claims, demands, negligence (including the active or passive negligence of Indemnities, regardless of whether sole or otherwise, as allowed by law), causes of action, costs, expenses, liabilities, losses, damages or injuries, fines, penalties in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively "Loss") to the extent arising out of or incident to: 1) the performance or breach of any of the terms and conditions of the contract (including but not limited to) the Contractor's use of the site; or 2) any acts, omissions, negligence, in connection with the performance of Services or otherwise arising from this Contract ("Indemnification"); or 3) the willful misconduct of the Contractor or their respective agents, subcontractors, employees, material or equipment suppliers, invitees, or licensees. Self-insured retentions must be declared to and approved by District. The District may require "Contractor" to provide proof of ability to pay losses and related investigations, claims administration and defense expenses within the retention. The policy shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or the District. **The District shall be named as an additional insured on the policies by separate endorsement.** A Certificate of Insurance and endorsements shall be attached to this Agreement as proof of insurance. About District Management Group	17

Executive Summary

District Management Group (DMGroup), founded in 2004, has a nearly 20-year successful track record of partnering with urban school districts and schools to connect academic programming and the delivery of high-quality instruction in order to:

- accelerate student learning across elementary, middle, and high schools; and
- meet and exceed ambitious goals outlined in district strategic plans; and
- build and strengthen teacher and educator capacity to sustain these improvements.

With this long track record of success and deep experience, DMGroup is uniquely positioned to support the important and ambitious goals of Fresno Unified School District (FUSD) and supporting the transformation of the education for students in FUSD.

To help support the ambitious goals in FUSD, DMGroup would implement DMGroup's research-proven and field-tested **Breakthrough Results (BTR) Program**. This program is based on *Improvement Science and Continuous Improvement Approaches* used widely in the best performing schools and districts, various industries, non-profit organizations, and government entities. Adapted specifically for public schools and school districts over many years, DMGroup has successfully implemented BTR Program in more than 500 schools in the past 5 years, with more than 5,000 teachers and educators, and has helped more than 20,000 students across the country.

DMGroup's BTR Program is a structured process that achieves outstanding measurable performance gains supported by dedicated coaching and real-time, integrated professional development to enable schools to realize meaningful performance goals. This rapid cycle of teaching, prototyping, and implementation, driven by a focus on performance results, will create a sense of energy and urgency to generate positive results for 3rd grade literacy achievement. The BTR Program works from the "top down" as well as "bottoms up" to achieve outstanding results, build team and school administrator leadership capacity, and transform the performance and culture of the entire school. It encompasses performance coaching for participating teachers and staff members of the school.

A multi-faceted DMGroup Team will be dedicated to this effort including the following resources:

- **DMGroup Performance Coaches** will support, coach, and professionally develop teachers, instructors, and participating building staff working in rapid action learning cycles to work through a process that achieves targeted, measurable student results in rapid cycles to support the goals of the school and building leadership.

- **DMGroup Data Analytics Team** will provide frequent and rigorous data and performance goal tracking and support on a regular, timely basis using easy-to-use data dashboards to support the data-driven actions of the school staff and leaders.
- **DMGroup Project Management Team** will provide comprehensive, in-depth, “soup to nuts” project management support and services to all participating teams. The priority is to ensure that FUSD staff are not burdened with logistical or project management duties in conjunction with this work. This project management team will also be responsible for ensuring that there is frequent communication on progress and project updates at all levels including:
 - school leadership as well as teachers and staff
 - FUSD central office and regional leadership

With DMGroup’s extensive experience and comprehensive approach, the BTR Program can amplify the significant investments that FUSD has already made in 3rd grade literacy (e.g., curricular resources, professional development, etc.) in order to meet or exceed the district’s ambitious goals.

Project Approach

DMGroup's **Breakthrough Results (BTR) Program** is a proven and comprehensive program that will help achieve outstanding measurable student results while building leadership capacity of the FUSD teachers, select school staff, school administrators and building leaders. Participants will explore new ways of working together and create a healthy space to try new strategies and build trust amongst the team and transform school culture to support continuous improvement that will be lasting.

BTR Program will provide each participating team with the following:

- **Dedicated BTR Performance Coach** who will work with school-based teams established for specific subject areas for improvement to achieve outstanding results.
- **BTR Data Analytics Team** who will help gather data and present them in a timely and actionable manner to all participants.
- **BTR Project Management Team** who will ensure that all aspects of the project are executed smoothly, with fidelity, and with minimal burden on school-based staff.

Key principles of the **BTR Program** approach include the following components:

- **Focus on results**: BTR Program's change theory is based on the belief that "successful change programs begin with results"¹ and thus the best way to achieve change is to ensure that teams achieve and experience results.
- **Achieve with urgency**: There is a lot of research that demonstrates the importance of working with a sense of urgency and limited time. These sets of circumstances create the conditions for rapid trial and error cycles, discovering new solutions, and establishing a short "plan-do-act" cycle that reinforce results.
- **Adjust actions based on data**: Having access to accurate and actionable data frequently is one of the foundations for helping teachers and school leaders make constant adjustments in teaching and student support that can yield rapid results. A lot of work will be done by the DMGroup team (behind the scenes) to ensure that teachers and school leaders have ready access to useful and actionable data that can inform the work in the classroom and schools.
- **Provide Just-in-time coaching and professional development**: Voluminous research support providing adult training and support on a just-in-time basis. Providing training and support at the time when school leaders and teachers need the new capability and that allows them to employ the newly acquired skill immediately is far more effective than teaching a skill in a classroom setting to be used many days or weeks later.
- **Build cohesion, trust, and teamwork**: BTR Program is designed to establish a sense of teamwork based on mutual trust and accountability among participants. Numerous research indicates that the strongest performing teams are ones that

can rely on each other, establish high standards for one another, and work constructively with a strong sense of accountability. BTR Program is designed to do just that.

- **Empower school-based teams:** BTR Program approach believes that transformational and lasting change is based at the school and classroom. Thus, BTR Program will help form high functioning and results-oriented teams that will be empowered and supported to achieve outstanding results and build lasting capacity.
- **Provide public support and public accountability:** BTR Program approach also harnesses the power of working together where each school team will know that they are all part of a similar effort across FUSD to achieve outstanding results.
- **Consolidate learning and build lasting capacity:** A final step in the BTR Program is to help arrange and facilitate a reflection and learning cycle designed to help participants consolidate their learning and build lasting capacity for change and achieving results through a process of organizing, reflecting, and incorporating the lessons learned from this work.

Detailed Work Plan – Project Timeline and Key Deliverables

The BTR Program has developed a process to assist school-based teams as they roll out this initiative and engage in the continuous improvement process to reflect upon and refine the work. The BTR Program consists of one (1) cycle (e.g., semester) of approximately 16 weeks of improvement focused on the specific subject area selected by the district. A sample schedule of phases and activities is outlined in the table below:

Design/Pre-Launch	BTR Performance & Coaching Support	Outcomes Retrospective
2 – 3 Weeks	10 Weeks	2 – 3 Weeks
<ul style="list-style-type: none"> • Design overall BTR Program • Conduct diagnostic analysis • Meet with BTR Team Leaders to review pre-launch materials • Assist in determining baseline 3rd grade literacy data • Discuss goal setting • Help build the capacity for SMART goal formulation 	<ul style="list-style-type: none"> • Assist Team Leaders in launch of 10-week BTR Program • Help facilitate weekly BTR Team meetings • Collect, organize, and share bi/weekly 3rd grade literacy data • Provide coaching and integrated professional development to build BTR Team member capacity 	<ul style="list-style-type: none"> • Create and share final outcomes report • Develop capacity and coherence in becoming an organization that can review and learn from past events. • Help participants facilitate post-performance reflection

The following work plan details the BTR Program over a typical school semester. The BTR Program includes the following key components and deliverables:

Design/Pre-Launch Phase (2-4 weeks)

BTR Program Set Up

As a very first step in establishing and rolling out the BTR Program, DMGroup will work with each identified and participating team to establish and review the overall program design of the BTR Program. Here are some highlights of this first step:

- Introduce and establish constructive and healthy working relationship among participating school leaders, teachers, DMGroup's dedicated BTR Team Performance Coaches.
- Conduct meetings and interviews with school personnel to establish a shared understanding of the context, priorities, and goals.
- Facilitate meetings with key school personnel along with FUSD leaders to gather information and build consensus to develop a framework that helps guide district decision-making.
- Perform deep-dive diagnostic analyses to identify priority areas for each school-based team.
- Establish baseline 3rd grade literacy performance.

DMGroup is extremely well-positioned to do this work given its team of management consultants with extensive history of working with districts around the country, direct and recent experience partnering with FUSD, and its in-depth understanding of what needs to happen to bring about transformational results.

Deliverables: Each team will have established a good working relationship with the BTR Program coaches that will be dedicated to each team and be equipped with a comprehensive diagnostic review of their current context for the work to be done.

BTR Program Goal Setting

An essential part of BTR Program is to go through a rigorous and important exercise with each team to establish performance goals that are aligned with the ambitious goals of the district and that reflect the ambitious yet achievable goals that will help transform each participating team. DMGroup will work with each team to ensure that SMART goals are well-aligned to FUSD's strategic priorities. The BTR Program will then translate these SMART goals to clear and actionable items that can turn into results and outcomes throughout the BTR Program.

Deliverables: BTR Program teams will establish key milestones and components of the work including (but not limited to):

- SMART goals focused on 3rd grade literacy that are aligned to FUSD strategic priorities and goals that are actionable and will form the basis for this project.
- Target students.
- Launch timing and approach.

BTR Performance & Coaching Support Phase (10 weeks)

Achieve Outstanding Results for Students

BTR Program will be working to achieve outstanding results while building capacity throughout the semester. In order to accomplish this, 3rd grade literacy support will be provided over the course of a school semester, aligned to the district academic, holiday, and testing calendars. This approach is very consistent with best practices the way DMGroup has achieved results in other districts in the past.

Deliverables: Measurable, outstanding results aligned to FUSD strategic priorities.

Provide Performance Coaching

BTR Program team will help establish 3rd grade literacy teams to improve student achievement during the duration of this program. These activities will include the following:

- Individual weekly coaching sessions by the BTR Performance Coach and the team leader of each subject team
- Provide help facilitating weekly team meetings.
- Ensure performance data collection by DMGroup Data analytics team during weekly team meetings.

- Help facilitate constructive, reflective, and action-oriented weekly team meetings.
- Assist teams in rapidly prototyping approaches, identifying winning solutions, and leveraging lessons learned to accelerate team progress towards achieving performance goals.
- Integrate professional development to participants to build their capacity,
- Share insightful/actionable bi/weekly data with FUSD staff.

Conduct Progress Monitoring

BTR Program team will help collect, monitor, and share progress of each team towards their SMART goals. Throughout the program, the DMGroup Data Analytics Team will ensure insightful and actionable performance data is collected and shared on a bi/weekly basis, aligned to the progress monitoring schedule.

Build Capacity

BTR Program team will build capacity will participating leaders, teachers, and staff to develop new leadership strategies, put them into action, and achieve results while they elevate their performance to new levels.

Provide District Leadership Support & Services

BTR Program team will conduct weekly reflective and retrospective meetings with the FUSD sponsorship teams to share performance data, which is collected bi/weekly by the DMGroup Data Analytics Team. At the end of the semester, DMGroup will collect and tabulate feedback and prepare a final report outlining results and capacity building.

Outcomes Retrospective Phase (2-4 weeks)

Analysis, Evaluation, & Impact

BTR Program team will help evaluate the impact of the schools' initiative and develop a report to share findings and recommendations with school staff and FUSD leaders. This will include an extensive analysis of the 3rd grade literacy student achievement data to determine what is working well as well as areas of further growth. An overview of findings and recommendations will be provided.

End of Cycle Reporting

BTR Program team will document results, compile team data, and help identify core insights that will assist continuous improvement. The report will evaluate the impact of the team's performance and share findings and recommendations for additional support or investment necessary within the current semester and beyond to support the rapid acceleration of student achievement grounded in research.

The various components outlined above are all designed to support the leadership development and capacity building of FUSD leadership, school site leaders, administrators, and teachers. Through building on a combination of consulting support, rapid cycles of planning and doing, consistent performance monitoring, and

supported by deep reflection, participating schools will be able to develop the ability to align and meet the ambitious goals of the district's strategic plan.

Deliverables: Accelerated student outcomes in support of FUSD's 3rd grade literacy-focused strategic priorities and goals and professional capacity to sustain the work.

Executive Summary

District Management Group (DMGroup), founded in 2004, has a nearly 20-year successful track record of partnering with urban school districts and schools to connect academic programming and the delivery of high-quality instruction in order to:

- accelerate student learning across elementary, middle, and high schools; and
- meet and exceed ambitious goals outlined in district strategic plans; and
- build and strengthen operational staff and administrators' capacity to sustain these improvements.

With this long track record of success and deep experience, DMGroup is uniquely positioned to support the important and ambitious goals of Fresno Unified School District (FUSD) and supporting the transformation of operational efficiency in FUSD.

To help support the ambitious goals in FUSD, DMGroup would implement DMGroup's research-proven and field-tested **Breakthrough Results (BTR) Program**. This program is based on *Improvement Science and Continuous Improvement Approaches* used widely in the best performing schools and districts, various industries, non-profit organizations, and government entities. Adapted specifically for public schools and school districts over many years, DMGroup has successfully implemented BTR Program in more than 500 schools in the past 5 years, with more than 5,000 teachers and educators, and has helped more than 20,000 students across the country.

DMGroup's BTR Program is a structured process that achieves outstanding measurable performance gains supported by dedicated coaching and real-time, integrated professional development to enable schools to realize meaningful performance goals. This rapid cycle of teaching, prototyping, and implementation, driven by a focus on performance results, will create a sense of energy and urgency to generate positive results for operational efficiency. The BTR Program works from the "top down" as well as "bottoms up" to achieve outstanding results, build team and school administrator leadership capacity, and transform the performance and culture of the entire school. It encompasses performance coaching for participating operational staff and administrators of the school.

A multi-faceted DMGroup Team will be dedicated to this effort including the following resources:

- **DMGroup Performance Coaches** will support, coach, and professionally develop operational staff and administrators working in rapid action learning cycles to work through a process that achieves targeted, measurable results in rapid cycles to support the goals of the school and building leadership.
- **DMGroup Data Analytics Team** will provide frequent and rigorous data and performance goal tracking and support on a regular, timely basis using easy-to-

use data dashboards to support the data-driven actions of the school staff and leaders.

- **DMGroup Project Management Team** will provide comprehensive, in-depth, “soup to nuts” project management support and services to all participating teams. The priority is to ensure that FUSD staff are not burdened with logistical or project management duties in conjunction with this work. This project management team will also be responsible for ensuring that there is frequent communication on progress and project updates at all levels including:
 - school leadership as well as operational staff and administrators
 - FUSD central office and regional leadership

With DMGroup’s extensive experience and comprehensive approach, the BTR Program can amplify the significant investments that FUSD has already made operations in order to meet or exceed the district’s ambitious goals.

Project Approach

DMGroup's **Breakthrough Results (BTR) Program** is a proven and comprehensive program that will help achieve outstanding measurable results while building leadership capacity of the FUSD operational staff and administrators. Participants will explore new ways of working together and create a healthy space to try new strategies and build trust amongst the team and transform school culture to support continuous improvement that will be lasting.

BTR Program will provide each participating team with the following:

- **Dedicated BTR Performance Coach** who will work with school-based teams established for specific subject areas for improvement to achieve outstanding results.
- **BTR Data Analytics Team** who will help gather data and present them in a timely and actionable manner to all participants.
- **BTR Project Management Team** who will ensure that all aspects of the project are executed smoothly, with fidelity, and with minimal burden on school-based staff.

Key principles of the **BTR Program** approach include the following components:

- **Focus on results**: BTR Program's change theory is based on the belief that "successful change programs begin with results"¹ and thus the best way to achieve change is to ensure that teams achieve and experience results.
- **Achieve with urgency**: There is a lot of research that demonstrates the importance of working with a sense of urgency and limited time. These sets of circumstances create the conditions for rapid trial and error cycles, discovering new solutions, and establishing a short "plan-do-act" cycle that reinforce results.
- **Adjust actions based on data**: Having access to accurate and actionable data frequently is one of the foundations for helping operational staff and administrators make constant adjustments in their day to day work that can yield rapid results. A lot of work will be done by the DMGroup team (behind the scenes) to ensure that operational staff and administrators have ready access to useful and actionable data that can inform the work in the school buildings.
- **Provide Just-in-time coaching and professional development**: Voluminous research support providing adult training and support on a just-in-time basis. Providing training and support at the time when operational staff and administrators need the new capability and that allows them to employ the newly acquired skill immediately is far more effective than performing a skill to be used many days or weeks later.
- **Build cohesion, trust, and teamwork**: BTR Program is designed to establish a sense of teamwork based on mutual trust and accountability among participants. Numerous research indicates that the strongest performing teams are ones that

can rely on each other, establish high standards for one another, and work constructively with a strong sense of accountability. BTR Program is designed to do just that.

- **Empower department-based teams:** BTR Program approach believes that transformational and lasting change is based at the school buildings. Thus, BTR Program will help form high functioning and results-oriented teams that will be empowered and supported to achieve outstanding results and build lasting capacity.
- **Provide public support and public accountability:** BTR Program approach also harnesses the power of working together where each departmental team will know that they are all part of a similar effort across FUSD to achieve outstanding results.
- **Consolidate learning and build lasting capacity:** A final step in the BTR Program is to help arrange and facilitate a reflection and learning cycle designed to help participants consolidate their learning and build lasting capacity for change and achieving results through a process of organizing, reflecting, and incorporating the lessons learned from this work.

Detailed Work Plan – Project Timeline and Key Deliverables

The BTR Program has developed a process to assist school-based teams as they roll out this initiative and engage in the continuous improvement process to reflect upon and refine the work. The BTR Program consists of one (1) cycle (e.g., semester) of approximately 16 weeks of improvement focused on the specific area selected by the district. A sample schedule of phases and activities is outlined in the table below:

Design/Pre-Launch	BTR Performance & Coaching Support	Outcomes Retrospective
2 – 3 Weeks	10 Weeks	2 – 3 Weeks
<ul style="list-style-type: none"> • Design overall BTR Program • Conduct diagnostic analysis • Meet with BTR Team Leaders to review pre-launch materials • Assist in determining baseline operations data • Discuss goal setting • Help build the capacity for SMART goal formulation 	<ul style="list-style-type: none"> • Assist Team Leaders in launch of 10-week BTR Program • Help facilitate weekly BTR Team meetings • Collect, organize, and share bi/weekly operations data • Provide coaching and integrated professional development to build BTR Team member capacity 	<ul style="list-style-type: none"> • Create and share final outcomes report • Develop capacity and coherence in becoming an organization that can review and learn from past events. • Help participants facilitate post-performance reflection

The following work plan details the BTR Program over a typical school semester. The BTR Program includes the following key components and deliverables:

Design/Pre-Launch Phase (2-4 weeks)

BTR Program Set Up

As a very first step in establishing and rolling out the BTR Program, DMGroup will work with each identified and participating team to establish and review the overall program design of the BTR Program. Here are some highlights of this first step:

- Introduce and establish constructive and healthy working relationship among participating operational staff, administrators, and DMGroup’s dedicated BTR Team Performance Coaches.
- Conduct meetings and interviews with school personnel to establish a shared understanding of the context, priorities, and goals.
- Facilitate meetings with key school personnel along with FUSD leaders to gather information and build consensus to develop a framework that helps guide district decision-making.
- Perform deep-dive diagnostic analyses to identify priority areas for each school-based team.
- Establish baseline operations department performance.

DMGroup is extremely well-positioned to do this work given its team of management consultants with extensive history of working with districts around the country, direct and recent experience partnering with FUSD, and its in-depth understanding of what needs to happen to bring about transformational results.

Deliverables: Each team will have established a good working relationship with the BTR Program coaches that will be dedicated to each team and be equipped with a comprehensive diagnostic review of their current context for the work to be done.

BTR Program Goal Setting

An essential part of BTR Program is to go through a rigorous and important exercise with each team to establish performance goals that are aligned with the ambitious goals of the district and that reflect the ambitious yet achievable goals that will help transform each participating team. DMGroup will work with each team to ensure that SMART goals are well-aligned to FUSD's strategic priorities. The BTR Program will then translate these SMART goals to clear and actionable items that can turn into results and outcomes throughout the BTR Program.

Deliverables: BTR Program teams will establish key milestones and components of the work including (but not limited to):

- **SMART** goals focused on operational efficiency that are aligned to FUSD strategic priorities and goals that are actionable and will form the basis for this project.
- Target departments and projects.
- Launch timing and approach.

BTR Performance & Coaching Support Phase (10 weeks)

Achieve Outstanding Results

BTR Program will be working to achieve outstanding results while building capacity throughout the semester. In order to accomplish this, operational efficiency support will be provided over the course of a school semester, aligned to the district academic, holiday, and testing calendars. This approach is very consistent with best practices the way DMGroup has achieved results in other districts in the past.

Deliverables: Measurable, outstanding results aligned to FUSD strategic priorities.

Provide Performance Coaching

BTR Program team will help establish operations teams to improve operational efficiency during the duration of this program. These activities will include the following:

- Individual weekly coaching sessions by the BTR Performance Coach and the team leader of each subject team
- Provide help facilitating weekly team meetings.

- Ensure performance data collection by DMGroup Data analytics team during weekly team meetings.
- Help facilitate constructive, reflective, and action-oriented weekly team meetings.
- Assist teams in rapidly prototyping approaches, identifying winning solutions, and leveraging lessons learned to accelerate team progress towards achieving performance goals.
- Integrate professional development to participants to build their capacity,
- Share insightful/actionable bi/weekly data with FUSD staff.

Conduct Progress Monitoring

BTR Program team will help collect, monitor, and share progress of each team towards their SMART goals. Throughout the program, the DMGroup Data Analytics Team will ensure insightful and actionable performance data is collected and shared on a bi/weekly basis, aligned to the progress monitoring schedule.

Build Capacity

BTR Program team will build capacity will participating operational staff and administrators to develop new leadership strategies, put them into action, and achieve results while they elevate their performance to new levels.

Provide District Leadership Support & Services

BTR Program team will conduct weekly reflective and retrospective meetings with the FUSD sponsorship teams to share performance data, which is collected bi/weekly by the DMGroup Data Analytics Team. At the end of the semester, DMGroup will collect and tabulate feedback and prepare a final report outlining results and capacity building.

Outcomes Retrospective Phase (2-4 weeks)

Analysis, Evaluation, & Impact

BTR Program team will help evaluate the impact of the schools' initiative and develop a report to share findings and recommendations with school staff and FUSD leaders. This will include an extensive analysis of the operations department data to determine what is working well as well as areas of further growth. An overview of findings and recommendations will be provided.

End of Cycle Reporting

BTR Program team will document results, compile team data, and help identify core insights that will assist continuous improvement. The report will evaluate the impact of the team's performance and share findings and recommendations for additional support or investment necessary within the current semester and beyond to support the rapid acceleration of achievement grounded in research.

The various components outlined above are all designed to support the leadership development and capacity building of FUSD leadership, school site leaders, operational staff, and administrators. Through building on a combination of consulting support,

rapid cycles of planning and doing, consistent performance monitoring, and supported by deep reflection, participating schools will be able to develop the ability to align and meet the ambitious goals of the district's strategic plan.

Deliverables: Accelerated outcomes in support of FUSD's operational efficiency - focused strategic priorities and goals and professional capacity to sustain the work.

The problem is classified employees do not have equitable opportunities to participate in Cultural Proficiency training and this is needed to remedy it by offering an opportunity to learn during times that do not impact the school day.	If we have Dr. Jones-Holt in place, classified employees will have multiples opportunities to engage in work that supports the districts MVVG....	And do provide professional development in the form of facilitated discussion.	And reach classified leaders and professional...	We will increase the number of employees that make the connection to the district initiative. Along with the understanding of how to serve students through an equity lens as measured by Pre and Post Survey of knowledge, collaboration, satisfaction and goal attainment.	Shape these behaviors such as reflection on their role as educators in perpetuating or ending educational gaps. These outcomes will be measured through the Personal Journey to Liberation Courageous Action Plan.	And ultimately achieve increases in employee satisfaction, retention, customer service, collaboration, and knowledge about cultural differences. Decrease in fears related to cultural differences, complaints from (parents/ Students), bystander behaviors, and avoiding, courageous conversations as measured.

After its review of the Confidential Information Contractor will return to the District all Confidential Information disclosed to it (including copies or summaries of Confidential Information), or with the District's permission destroy the Confidential Information and certify in writing that it has been destroyed.

14. Injunctive Relief. Each Party acknowledges that a breach or threatened breach of this Agreement may cause immediate and irreparable harm to the District and that, to protect against such harm, the District may seek from a court of competent jurisdiction the issuance of a restraining order or injunction to prohibit any threatened disclosure

or misuse of the District's Confidential Information. Such an action for a restraining order or injunction is in addition to and does not limit all other remedies provided by law or in equity or by agreement between the Parties.

15. Indemnification and Hold Harmless. To the fullest extent allowed by law, the Contractor shall defend, indemnify and hold District, its agents, employees, Board of Trustees, members of the Board of Trustees, officials, officers, volunteers, and representatives ("Indemnities") free and harmless from any and all claims, demands, negligence (including the active or passive negligence of Indemnities, regardless of whether sole or otherwise, as allowed by law), causes of action, costs, expenses, liabilities, losses, damages or injuries, fines, penalties in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively "Loss") to the extent arising out of or incident to: 1) the performance or breach of any of the terms and conditions of the contract (including but not limited to) the Contractor's use of the site; or 2) any acts, omissions, negligence, in connection with the performance of Services or otherwise arising from this Contract ("Indemnification"); or 3) the willful misconduct of the Contractor or their respective agents, subcontractors, employees, material or equipment suppliers, invitees, or licensees. The Contractor's Indemnification includes, but is not limited to, the payment of all damages and attorney's fees, fines, penalties and other related costs and expenses.

a. The Contractor's defense obligations (with counsel approved by District), shall arise immediately upon tender of any of the Indemnities, and the defense shall be paid at Contractor's own cost, expense and risk, for any and all such aforesaid suits, actions or other legal proceedings of every kind that may be brought or instituted against any of the Indemnities, notwithstanding whether liability is, can be or has yet been established.

b. The Contractor shall pay and satisfy any judgment, award or decree that may be rendered against any of the Indemnities, in any such suit, action or other legal proceeding. The Contractor shall reimburse Indemnities, and each of them, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided.

c. Acceptance of insurance certificates and endorsements required under the contract does not relieve the Contractor from liability under this indemnification and hold harmless clause. The requirements of this Section (Indemnification and Hold Harmless) shall apply whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

16. Insurance. Without limiting "Contractor" indemnification, it is agreed that "Contractor" shall secure and maintain in force during the term of this Agreement a Commercial General Liability policy (Contractual liability included) utilizing an occurrence policy form, with limits of not less than two million (\$2,000,000) dollars per occurrence, four million (\$4,000,000) annual aggregate limit. Business automobile Liability Insurance shall be maintained for owned, scheduled, non-owned or hired automobiles with a combined single limit not less than two million (\$2,000,000) dollars per occurrence. In the event "Contractor" is working with students individually or providing professional services to students, "Contractor" shall maintain a policy providing coverage for sexual molestation and/or abuse claims. In the event that "Contractor's" Commercial General liability policy excludes coverage for sexual molestation and/or abuse claims shall be required to procure a separate or supplemental policy providing such coverage. The limits of coverage for the abuse and molestation policy shall be not less than \$2,000,000 per claim and \$4,000,000 aggregate. If any of the required policies provide coverage on a claims-made basis then the following shall apply; 1) The retroactive date must be shown, and must be before the date of the contract or the beginning of contract work; 2) Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract work; (3) If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work. Self-insured retentions must be declared to and approved by District. The District may require "Contractor" to provide proof of ability to pay losses and related investigations, claims administration and defense expenses within the retention. The policy shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or the District. The District shall be named as an additional insured on the policies by separate endorsement. A Certificate of Insurance and endorsements shall be attached to this Agreement as proof of insurance. The "Contractor" policy shall provide that it is primary such that insurance maintained by the District, if any, shall be excess and not co-primary.

17. Independent Contractor Status. While engaged in carrying out the terms and conditions of the contract, the Contractor is an independent contractor, and not an officer, employee, agent, partner, or joint venture of the District.
18. Workers' Compensation Insurance. Contractor agrees to provide all necessary workers' compensation insurance for Contractor's employees, if any, at Contractor's own cost and expense.
19. Fingerprinting Requirements. The Contractor shall also ensure that its consultants on the Project also comply with the requirements of Section 45125.1. If required by Education Code Section 45125.1, the Contractor and its consultants, prior to any of the Contractor's employees, or those of any other consultants, coming into contact with the District's pupils submit through the DISTRICT fingerprints to the Department of Justice (DOJ) for the monitoring and supervision of employee(s) and/or affiliated constituents. Contractor will not begin work on the Project site until obtaining a DOJ cleared status through the DISTRICT. Contractor further acknowledges that other fingerprinting requirements may apply, as set forth in Education Code Section 45125 et seq., and will comply with any such requirements, including having Consultant certify that none of these employees and/or affiliated constituent(s) will have been convicted of a felony as defined in Education Code section 45122.1. Board Agenda Item

BOARD MEETING DATE: September 11, 2024

AGENDA ITEM A-12

ACTION REQUESTED: APPROVE

PRIORITY GOAL: Achieving Operational Excellence

TITLE AND SUBJECT: Approve Use of Individual Piggyback Contracts

ITEM DESCRIPTION: Included in the Board binders and recommended for approval is a list of seven piggyback contracts for use during 2024/25 for efficient and cost-effective procurement. This is in addition to piggyback contracts approved by the Board previously, to allow for expedited purchases related to disposable paper products, electrical equipment and supplies, irrigation materials, and identity management software.

Use of piggyback contracts is allowed under Public Contract Codes 10299 and 20118 and is a procurement best practice that takes advantage of competitive pricing from a contract formally bid by another school district or public agency. The district has determined that when appropriate, use of piggyback contracts is advantageous and in the best interest of the district to reduce administrative time and expense, provide favorable pricing and/or provide options and flexibility.

Approval does not commit the district to purchases or require that any specific contract be utilized. Use of piggybacks allows the district to expedite supplies/materials to meet specific needs quickly or to utilize a different contract if a vendor from an existing contract cannot provide services in a timely manner.

All purchases associated with piggyback contracts are presented to the Board for ratification on monthly purchase order reports. The complete contracts are available for review in the Purchasing Department.

FINANCIAL SUMMARY: Estimated annual expenditures for each piggyback contract (if utilized) are indicated on the backup material; funding will be determined on a project-by-project basis.

AGENDA ITEM A-14

ACTION REQUESTED: APPROVE

PRIORITY GOAL: Achieving Operational Excellence

TITLE AND SUBJECT: Approve State of California Pedestrian and Bicycle Safety Program Grant

ITEM DESCRIPTION: Included in the Board binders is the grant agreement from the Office of Traffic Safety (OTS) for the Pedestrian and Bicycle Safety Program. The Office of Traffic Safety is California's leading traffic safety organization. The goal of the annual grant program is to prevent serious injury and death resulting from motor vehicle crashes so that all roadway users arrive at their destination safely.

Fresno Unified School District was awarded the maximum funding of \$200,000 to implement a Pedestrian and Bicycle Safety Program expansion of the Safe Routes to School Safety Assessments piloted at 15 school sites last year. This grant will enable the district to continue safety assessments at an additional 15 school sites for this new school year--expanding our efforts to improve student safety in our communities. Evaluation reports will be produced through the assessments to develop key recommendations for both infrastructure and non-infrastructure improvements. These outcomes will assist Fresno Unified in working with various local and community partners to further improve the safety of our students, families, and staff to leverage more resources.

Fresno Unified will continue to engage the support and expertise of community partners such as City of Fresno Police Department, Public Works, and Active Transportation Committee; County of Fresno Public Works and Planning; Fresno County Transportation Commission; Fresno Council of Governments; Fresno County Bicycle Coalition; and many more key organizations.

FINANCIAL SUMMARY: The Office of Traffic Safety grant awards \$200,000 for the 2024/25 fiscal year. Additional funds to support pedestrian and bicycle safety are available in the Safety budget.

1. PROBLEM STATEMENT

This 2024 Office of Traffic Safety grant application requests funding to implement SRTS traffic safety assessments and educational activities for schools in the Fresno Unified School District (Fresno Unified), the third largest urban district in California. Located in Fresno County, our 110 schools encompass much of the City of Fresno (approximately 76.79 square miles) as well as several Fresno County islands. There are 67 elementary schools, 14 middle schools, 10 high schools, 3 special education schools, 6 alternative education and adult schools, and 10 charter schools in operation. Fresno Unified operates a workforce of ten thousand employees who serve over 72,000 PK-12 grade students, 86.4 percent of which are low income, qualifying for the Federal Free and Reduced-Price Meals Program. Additionally, Fresno Unified reflects a diverse community of students and families who travel daily by walking, bicycling, or riding to and from school via transit bus, school bus, or family vehicle. Among our student enrollment, 69.3 percent are Hispanic, 10.5 percent are Asian, 7.6 percent are African American, 8.2 percent are White, and 2.9 percent are identified as Two or More Races. Historically, the communities of Fresno lag far behind economically when compared to other cities of the state. In November 2023, the unemployment rate of Fresno was 6.3 percent compared to only 4.9 percent for California.

Since August of 2022, there have been more than 32 incidents where Fresno Unified students have been hit by vehicles as they walked or biked to or from school, including one fatality in October 2022. During the 2022-2023 school year, 17 students were involved in pedestrian-involved crashes, including the death of a Hoover High School student. The Fresno Unified Traffic Safety Accidents Data reflects an alarming trend when compared to previous school years dating back to 2018, which then averaged only 6 traffic crashes annually. So far, in the 2023-2024 school year, there have been over 17 crashes reported involving students and/or parents hit by vehicles as they traveled to or from school. One crash last September involved 11 Roosevelt High School students being hit by a vehicle as they waited after school at a Fresno City transit bus stop. The teen driver did not have a license and the students, who were hit by the vehicle, suffered severe injuries and were transported to local hospitals for treatment. A day later, a mother and her four small elementary school-age children were also hit by a vehicle near Birney Elementary School as they walked in an intersection crosswalk at First Street and Princeton Avenue. They were hit by a driver who ran through a red traffic light, with one of the children traveling several blocks atop the moving vehicle.

Traffic safety in Fresno is a major concern for our community. From 2018-2022, there were nearly 500 fatal or severe injury crashes in Fresno, and half of all fatalities were pedestrians. Most of Fresno's city streets consists of arterial superblocks. With schools located directly on, or adjacent to, these ultra-wide, high-speed, high-volume arterials. Establishing safe routes to schools is imperative. After the fatal crash claimed the life of a 15-year-old male student outside of Hoover High School in October 2022, Fresno Unified took immediate action to fund the Fresno Unified Safe Routes Site Assessments pilot project. This initial pilot study includes traffic safety site assessments at 15 schools and along major student travel routes. The project is also conducting SRTS workshops to outreach, engage, and train students and families on how to improve traffic safety conditions and receive their input on identifying potential traffic hazards and necessary improvements. The student was hit while crossing the street after school but was not in the crosswalk at the time of impact. Promoting safe travel behaviors and actions will help prevent pedestrian injuries as well as to save human lives. Fresno Unified has also observed an accelerated number of traffic crashes affecting students' safety over this current school year. Last August, a female student was injured after being hit by a vehicle walking home from Fremont Elementary School in central Fresno, on West and McKinley Avenues. The young student was in the crosswalk when she was hit by the driver, who did not see her. She was immediately taken to the hospital for her injuries. Last September, a 12-year-old student was hit by a vehicle in central Fresno at 7:30 am near Yosemite Middle School, on Olive and 9th Avenues. The young student was hit by a 17-year-old driver as he turned onto Olive from 9th Avenue. She was also taken to the hospital for her injuries.

The Fresno Unified School District's 2023-2024 Traffic Safety Accidents Data details comprehensive reports of local crashes impacting students, buses, and schools from the last calendar year. In addition to Fresno Unified data, TIMS and SWITRS crash data and mapping reflect increasing pedestrian- and bicyclist-

involved crashes in Fresno. There were 2,007 injury victims in 2021, affecting 155 pedestrians and 54 bicyclists. However, the numbers significantly increased to 2,265 victims, in 2022, affecting 190 pedestrians and 86 bicyclists. As vehicular traffic congestion increases along our community streets, the potential hazards to walking, biking, and traveling by bus increasingly becomes more dangerous, necessitating Fresno Unified to further examine ways to reduce or prevent future harm to our students and families traveling to and from school each day.

Close to 85 percent of Fresno Unified students are living in households identified as socially-economically disadvantaged, according to the California Department of Education, reflecting a substantial community living in Fresno whose students are commonly dependent on walking and bicycling for transportation, including riding the school bus or local transit service to and from school, daily. Fresno is also located within the San Joaquin Valley Air Basin which is in nonattainment for both federal and state Air Quality Standards. This is a community that has a significant need for safe walking and bicycling conditions for public health benefits, especially for our developing youth. Additionally, increased walking and bicycling can help reduce the heavy vehicular traffic congestion that impacts roadways adjacent to the travel routes commonly used by students. This is also important, because high poverty rates reflect higher cases of poor health among our developing children. As a result, Fresno reflects a growing population that has higher than average rates of obesity, asthma, pre-diabetes and other adverse health conditions more common among our proposed target population. Sadly, there is an increased risk among our target population for being affected by increased personal safety risks as well as hazardous health risks, due to vehicular congestion around our schools. The hazardous conditions are growing more alarming each year as we are experiencing higher rates of crashes and "close calls" involving students and their families, as well as school staff, who are also increasingly at risk of direct physical harm by increased vehicular traffic. Consequently, we propose to reduce these risks by expanding our existing SRTS assessments to include additional school sites, increase our community engagement, and develop a pedestrian and bicycle safety education program that serves our target population.

The initial 2023-2024 SRTS assessment pilot study, funded by Fresno Unified, involved 15 schools which included two schools from each of our seven high school regions and one specialty school. There were four comprehensive high schools, one specialty high school, six middle schools, one K-8 school, and four elementary schools. The school sites selected for the pilot study were chosen based on the higher frequency and severity of traffic safety incidents that occurred during the prior 2022-2023 school year where students were hit by a vehicle and/or a school bus crash was reported. Also considered were busy street intersections, traffic congestion near school bus stops, and sites that had a neighboring school within one mile which influenced higher vehicle traffic volumes along those roadways. With 86.4 percent of our student population identified as low income, similar data will be considered for selecting future SRTS assessment sites to provide traffic safety assessments to new schools in the 2024-2025 school year, and provide site-based activities and community education, which will include outreach and engagement to Fresno Unified students and families. Additionally, the program will facilitate walking school buses and bike rodeos for students, while also funding implementation plans for school site- or district-specific traffic safety recommendations that were previously completed for the schools identified in the previous 2023-2024 SRTS assessment pilot study. These school sites were selected based on alarming student-involved crash data to identify infrastructure and non-infrastructure improvements that could be implemented in a timely manner to change the increasing trajectory of pedestrian-involved crashes. Additionally, based on the Fresno Unified School District's cultural diversity, these strategies also provide an opportunity for increased outreach and community engagement and education for Fresno's diverse cultural community.

3. Conduct Walking School Buses at schools with an effort to reach students.	15
4. Conduct bicycle rodeos.	7
5. Hold quarterly meetings with countywide pedestrian and/or bicycle safety stakeholders to collaborate on events, share best practices, and leverage resources.	4
6. Execute subcontracts referenced in the budget. Prior to finalizing the subcontract, grantee should work with the OTS to ensure all costs in the sub contract are allowable. Upon execution of subcontract, upload a copy of the subcontract and request a revision to the grant budget to add new budget line items for associated costs under contractual services. If not yet executed, provide ETA.	1
7. Provide Crossing Guard training to reach individuals who will perform the duties of a Safety Patrol or Crossing Guard.	5
8. Conduct a High Visibility Student Safety Messaging Campaign promoting traffic safety, good user behavior, wayfinding, and sharing the road to be displayed in high impact corridors citywide, based on SRTS's 2023-2024 assessment recommendations and design suggestions. Messaging can include information for all user types, including those who walk, roll, bike, skateboard, scooter, and drive. The objective is for a minimum of 10,000 people to be reached as part of this campaign. When reporting, include locations, potential number of individuals reached, and a short summary of key transportation and/or safety concerns addressed at each location.	1
9. Conduct a Community Quick-Build Demonstrations to educate residents about traffic calming and safe street design through the design and installation of short-term infrastructure to address traffic safety issues, based on SRTS's 2023-2024 assessment recommendations and design suggestions. The objective is to reach a minimum of 500 people during a one-day demonstration, and significantly more, if installed for a longer duration. When reporting, include date/location, potential number of individuals impacted, and a short summary of key transportation and/or safety concerns addressed at each location.	1
10. Develop a Safe Routes to School Action Plan for each of the five (5) designated school sites with recommendations for improvements to sidewalks, pathways, pavement/crosswalk markings, signage, lighting, and signals at each site and incorporate these into the FUSD Safe Routes to School (SRTS) Action Plan. Work with schools who lack crossing guard programs to develop one. Promote community engagement for students and their parents/guardians, which includes local residents and businesses, to promote behavior changes/protocols for those walking, biking, or driving near these school sites. When reporting, include major findings, number of students impacted, timeline for implementation, and whether school administrations committed to following SRTS's recommendations. Upload copies to GEMS.	5
11. Evaluate the most critical transportation issues facing students at each of the five (5) designated school sites, utilizing measurable methods to collect data on student walking/biking behavior and motorist driving behavior before/after school hours to document gaps in infrastructure, such as lack of sidewalks,	5

pavement/crosswalk marking, signage, lighting, and signals. Analyze recent crash data, include surveys of students, parents/guardians, teachers, school administrators, and first responders, and record motorist traffic counts and student travel tallies (ped/bike counts). Examine data collected for common themes and/or priorities to inform the SRTS assessment/action plan process. When reporting, include date/location and short summary of key transportation concerns observed/reported.

Fresno Unified School District
Board Agenda Item

BOARD MEETING DATE: September 11, 2024,

AGENDA ITEM B-20

ACTION REQUESTED: DISCUSS AND APPROVE

PRIORITY GOAL: Improving Student Outcomes

TITLE AND SUBJECT: Discuss and Approve Proposition 28 Annual Report

ITEM DESCRIPTION: Included in the Board binders is the Proposition 28 - Arts and Music in Schools Funding Guarantee and Accountability Act Annual Report. California Education Code (EC Section 8820[g][4]) requires a Proposition 28 (Prop 28) Annual Report to be board approved and posted on the school district, and California Department of Education web pages, by September 30, 2024.

In February 2024, Fresno Unified received \$12,800,000 in Prop 28 funds. The law requires at least 80% of the funds be spent on certificated or classified employees who teach during the school day. The remaining 20% may be used for materials, supplies, professional learning, vendors, etc. In cases where districts are not able to hire enough personnel to fulfill the 80% allocation, there is a waiver process that allows districts to retain their unspent funds.

In 2023/24 Fresno Unified District spent \$670,349 (7.575 full-time equivalent) on certificated employees and \$1,075,166 on materials and supplies. Fresno Unified School District is in the process of applying for the waiver to retain funds which were unspent.

In 2024/25 Fresno Unified will employ an additional 22.2 full-time equivalent (FTE) which will result in an estimated \$4,004,099 cost for certificated employees.

Each school site's School Plan for Student Achievement (SPSA) outlines their planned site expenditures.

FINANCIAL SUMMARY: There is no fiscal impact to the district at this time.

Proposition 28 provides increased investments in Arts Education, which is critical for academic growth, student personal development, social emotional expression and an overall appreciation for diversity and culture. Proposition 28 provided approximately \$12.8 million in 2023/24 for school investments in Arts Education in Fresno Unified School District.

During the 2023/24 budget development period, school principals received clear guidance on how to spend Proposition 28 funds. The instructions included that State law requires schools to use at least 80% of funds to employ certificated or classified employees to provide arts instruction. This may include Elementary Arts Itinerants, Secondary Arts Teachers, Teacher Assistants, or Instructional Aides. Principals were also informed that any positions purchased under Proposition 28 funds must have job duties consistent with the respective class description. Finally, principals were informed that the remaining 20% may be used for training, supplies, materials, and arts educational partnership programs. Due the funds being allocated so late in the school year; most secondary principals used their funds to have arts teachers prep periods bought out in order to offer additional art class offerings. In addition, Fresno Unified School District was able to hire two more full-time dance teachers, and one more full-time theater teacher. There were 16 school sites that did not spend any of their funding and this fiscal year but have plans in place for the 2024/25 school year.

The plan moving forward is to continue hiring elementary arts integration and dance teachers, as well as expanding our mariachi and folklorico programs as indicated by our educational partners' feedback.

Although this is a new program, we are grateful that California voters recognized the importance of investing in arts education through a ballot initiative. Proposition 28 funds are important to our school communities because these increased investments in arts education are critical for academic growth, student personal development, social emotional expression and overall appreciation for diversity and culture.

Summary

Staff recommends the Board approve:

- 2023/24 Unaudited Actual Financial Report
- 2023/24 Year-End Budget Revision
- Resolution No. 25-13 Gann Appropriation Limit

The following describes differences from the estimated actuals to the unaudited actuals:

Local Control Funding Formula

The Local Control Funding Formula (LCFF) decreased from the estimated actuals due to a prior year adjustment of \$600,000 due to correction to 3-year average.

State Revenue

State revenues increased by approximately \$4.4 million due to an increase in one-time lottery funding reported by the California Department of Education (CDE) on July 12, 2024 of \$3.1 million and additional transportation revenue of \$1.3 million due to final calculation.

Local Revenue

Local revenue increased by approximately \$2.5 million mainly due to the following:

- Recognize increased Medi-Cal Administrative Activity (MAA) reimbursements received for prior years of \$600,000
- Recognized decrease in other local revenue of \$600,000 based on actuals
- Recognize increased interest income of \$4.5 million mainly due to increased cash balances from grants
- Recognize GASB Statement 31 which requires government agencies to recover the fair value of investments held by governmental external investment pools to record any unrealized gains/losses to revenue. The Fresno County investment pool reported unrealized losses of (3.03%) as of June 30, 2024. This is a change in the unrealized loss from June 30, 2023 of (4.54%). As a result, the district recognized a decrease in the fair value adjustments of \$9.5 million for the General Fund and \$7.1 million for all other funds. The estimated actuals anticipated \$11.5 million for a decrease of \$2.0 million

Expenditures and Contributions – Unrestricted General Fund

Carryover for one-time projects increased from estimated actuals included with the 2024/25 Adopted Budget by approximately \$6.5 million. These projects include items such as the Design Science facility project, Lawson upgrade, Education Center remodel, and school site and department carryover. The amounts are included in the assigned fund balance to be fully appropriated in the 2024/25 Budget (Budget Revision No 1).

Actual expenditures and contributions were lower than estimated actuals by approximately \$30.5 million. The primary contributing factors are as follows:

- Utilities savings – \$2.0 million
- School site and department expenditures more than anticipated – \$4.0 million

- One-time savings of federal recovery savings mainly due to lower facility projects anticipated as shown below – \$24.5 million (\$29.5 million total with \$5.0 million supporting Title I and Title II)
 - Title I support of Social Workers – \$3.0 million
 - Title II support of one buy-back day – \$2.0 million
 - Special Education teacher and paraeducator substitutes – \$5.0 million
 - General Fund support of Social Workers, Child Welfare Assistants, Noon Time Assistants, Home and Hospital, Custodial support, and student laptops – \$20.5 million

Education Protection Account

As required by the passage of Proposition 30 in November 2012, a public hearing must be conducted to discuss and approve utilization of Education Protection Account (EPA) funds for 2023/24. This EPA public hearing may be conducted at the same time as the budget public hearing. All K-12 local agencies have the sole authority to determine how the funds are spent, providing salaries and benefits are not used for administrators or any other administrative costs (as determined through the account code structure).

On June 21, 2023, the Board approved the estimated EPA funds to be 45% of the LCFF funds; this equates to \$208.7 million, with all funds planned to be used to support teacher salary and benefit costs. On June 19, 2024, the California Department of Education recalculated the 2023/24 EPA to be 21.99% of the LCFF. The total EPA amount for 2023/24 is \$101.9 million; all funds will be used to support teacher salary and benefit costs.

Board of Education Designated Funds

At the June 20, 2024 Board of Education meeting, 2023/24 one-time expenditures, carryover of one-time funds, and committed funds were approved totaling \$156.6 million. These items have increased to approximately \$201.1 million and includes an increase of \$44.5 million to Pandemic Learning Recovery from federal recovery savings, future textbook adoption, technology infrastructure support, and site and department carryover as follows:

Each year the district must approve a maximum appropriation limit level (Gann Limit) in compliance with the State Constitution.

Should the Board have any questions, please contact Patrick Jensen at 457-6226. Thank you.

[illegible]

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through pay roll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 7200-7700, goals 0000 and 9000) 49,506,287.98
2. Contracted general administrative positions not paid through pay roll
 - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. _____
 - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

B. Salaries and Benefits - All Other Activities

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 1,117,391,994.16

C. Percentage of Plant Services Costs Attributable to General Administration

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 4.43%

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. 0.00
Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part IV - Carry-forward Adjustment	
The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates	

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	68,969,350.61
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(3,101,200.43)
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (3.08%) times Part III, Line B19); zero if negative	21,053,650.07
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (3.08%) times Part III, Line B19) or (the highest rate used to recover costs from any program (3.08%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	21,053,650.07
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	21,053,650.07

Up to 50% of the increase in IDEA Part B Section 611 funding in current year compared with prior year may be used to reduce the required level of state and local expenditures. This option is available only if the LEA used or will use the freed up funds for activities authorized under the Elementary and Secondary Education Act (ESEA) of 1965. Also, the amount of Part B funds used for early intervening services (34 CFR 300.226(a)) will count toward the maximum amount by which the LEA may reduce its MOE requirement under this exception [P.L. 108-446].

Up to 50% of the increase in IDEA Part B Section 611 funding in current year compared with prior year may be used to reduce the required level of state and local expenditures. This option is available only if the LEA used or will use the freed up funds for activities authorized under the Elementary and Secondary Education Act (ESEA) of 1965. Also, the amount of Part B funds used for early intervening services (34 CFR 300.226(a)) will count toward the maximum amount by which the LEA may reduce its MOE requirement under this exception [P.L. 108-446].
