

# MUSIC EDUCATION

We offer a music program that is fully integrated into the rest of the academic program.

Music is thoughtfully chosen to promote Wornick's mission AND encourages basic musicianship including: range, register, proper vocal technique, and age appropriate instrumentation. Ultimately, older students will work with younger students as mentors, teachers, leaders, and accompanists. The goal is to encourage student leadership and participation in all community events, T'Fillah serives, and school celebrations.
