III. CONDUCT ON SCHOOL BUSES AND CONSEQUENCES FOR MISBEHAVIOR

- A. Riding the school bus is a privilege, not a right. The school district's general student behavior rules are in effect for all students on school buses; including nonpublic and charter school students.
- B. Consequences for school bus/bus stop misconduct will be imposed by the school district under adopted administrative discipline procedures. In addition, all school bus/bus stop misconduct will be reported to the school district's transportation safety director. Serious misconduct may be reported to local law enforcement.
 1. School Bus and Bus Stop Rules: The school district school bus safety rules are to be posted on every bus. If these rules are broken, the school district's discipline procedures are to be followed. In most circumstances, consequences are progressive and may include suspension of bus privileges. It is the school bus driver's responsibility to report unacceptable behavior to the school district's transportation director/school office.
 2. Rules at the Bus Stop
 - a. Get to your bus stop five minutes before your scheduled pick up time. The school bus driver will not wait for late students.

and extracurricular events (for example, field trips or competitions) will be in the sole discretion of the school district. Parents or guardians will be notified of any suspension of bus privileges. Consequences for misconduct on buses will be assigned based on the nature of the offense and the severity of a student's conduct. Consequences up to and including suspension or expulsion from school may result from school bus/bus stop misconduct.

- b. Records of school bus/bus stop misconduct will be forwarded to the individual school building and will be retained in the same manner as other student discipline records. Reports of student misbehavior on a school bus or in a bus-loading or unloading area that causes an immediate and substantial danger to the student or surrounding persons or property will be provided by the school district to the state in accordance with state and federal law.

- e. In cases involving criminal conduct (for example: assault, chemical violations, weapons, or vandalism), the appropriate school district personnel and local law enforcement officials will be informed.

IV. PARENT AND GUARDIAN INVOLVEMENT

A. Parent and Guardian Notification

The school district school bus and bus stop rules will be provided to each family. Parents and guardians are asked to review the rules with their children.

Parents/Guardians are responsible to:

- B. A person possessing a valid driver's license, without a school bus endorsement, may drive a vehicle with a seating capacity of 10 or fewer persons used as a school bus, but not outwardly equipped or identified as a school bus as set forth below. The notification shall be in writing and shall contain all the information set forth in Attachment C accompanying this policy. This provision does not apply to a school district employee whose normal duties do not include operating a type III vehicle.

VI. SCHOOL BUS DRIVER TRAINING

A. Training

1. Contracted bus services will be responsible for ensuring that all new school bus drivers shall be provided with pre-service training, including in-vehicle (actual driving) instruction before transporting students and shall meet the competency testing specified in the Minnesota Department of Public Safety Model School Bus Driver Training Manual. All school bus drivers shall, through contracted services, receive in-service training annually. For purposes of this section, "annually" means at least once every 380 days from the initial or previous evaluation and at least once every 380 days from the initial or previous license verification. Such in-service training sessions shall be scheduled so as not to interfere with daily student transportation. Contracted bus services shall retain on file, and provide to the district upon request, an annual individual school bus driver "evaluation certification" form for each school bus driver as contained in the Model School Bus Driver Training Manual.

2. All bus drivers operating a type III vehicle will be provided with annual training and certification as set forth in Section VII.C.1.b., below, by either the school district or the entity from whom such services are contracted by the school district.

VII. OPERATING RULES AND PROCEDURES

A. General Operating Rules

1. School buses shall be operated in accordance with state traffic and school bus safety laws and the procedures contained in the Minnesota Department of Public Safety Model School Bus Driver Training Manual.
2. Only students assigned to the school bus by the school district shall be transported. The number of students or other authorized passengers transported in a school bus shall not be more than the legal capacity for the bus. No person shall be allowed to stand when the bus is in motion.
3. The parent/guardian may designate, pursuant to school district policy, a day care facility, respite care facility, the residence of a relative or the residence of a person chosen by the parent or guardian as the address of the student for transportation purposes. The address must be in the attendance area of the assigned school and meet all other eligibility requirements.
4. Bus drivers must minimize, to the extent practical, the idling of school bus engines and exposure of children to diesel exhaust fumes.

5. To the extent practical, the school district will designate school bus loading/unloading zones at a sufficient distance from school air-intake systems to avoid diesel fumes from being drawn into the systems.
6. A bus driver may not operate a school bus while communicating over, or otherwise operating, a cellular phone for personal reasons, whether hand-held or hands free, when the vehicle is in motion or a part of traffic. For purposes of this paragraph, “school bus” has the meaning given in Minnesota Statutes section 169.011, subdivision 71. In addition, “school bus” also includes type III vehicles when driven by employees or agents of the school district. “Cellular phone” means a cellular, analog, wireless, or digital telephone capable of sending or receiving telephone or text messages without an access line for service.

B. Type III Vehicles

1. Type III vehicles are restricted to passenger cars, station wagons, vans, and buses having a maximum manufacturer’s rated seating capacity of 10 or fewer people including the driver and a gross vehicle weight rating of 10,000 pounds or less. A van or bus converted to a seating capacity of 10 or fewer and placed in service on or after August 1, 1999, must have been originally manufactured to comply with the passenger safety standards.
2. Type III vehicles must be painted a color other than national school bus yellow.
3. Type III vehicles shall be state inspected in accordance with legal requirements.
4. Vehicles model year 2007 or older must not be used as type III vehicles to transport school children, except those vehicles that are manufactured to meet the structural requirements of federal motor vehicle safety standard 222, Code of Federal Regulations, title 49, part 571.
5. If a type III vehicle is school district owned, the school district name will be clearly marked on the side of the vehicle. The type III vehicle must not have the words “school bus” in any location on the exterior of the vehicle or in any interior location visible to a motorist.
6. A “type III vehicle” and “Type III Head Start bus” must not be outwardly equipped and identified as a type A, B, C, or D bus.
7. Eight-lamp warning systems and stop arms must not be installed or used on type III vehicles.

8. Type III vehicles must be equipped with mirrors as required by law.
9. Any type III vehicle may not stop traffic and may not load or unload before making a complete stop and disengaging gears by shifting into neutral or park. Any type III vehicle used to transport students must not load or unload so that a student has to cross the road, except where not possible or impractical, then the driver or assistant must escort a student across the road. If the driver escorts the student across the road, then the motor must be stopped, the ignition key removed, the brakes set, and the vehicle otherwise rendered immobile.
10. Any type III vehicle used to transport students must carry emergency equipment including:
 - a. Fire extinguisher. A minimum of one 10BC rated dry chemical type fire extinguisher is required. The extinguisher must be mounted in a bracket, and must be located in the driver's compartment and be readily accessible to the driver and passengers. A pressure indicator is required and must be easily read without removing the extinguisher from its mounted position.
 - b. First aid kit and body fluids cleanup kit. A minimum of a ten-unit first aid kit and a body fluids cleanup kit is required. They must be contained in removable, moisture- and dust-proof containers mounted in an accessible place within the driver's compartment and must be marked to indicate their identity and location.
 - d. Passenger cars and station wagons may carry a fire extinguisher, a first aid kit, and warning triangles in the trunk or trunk area of the vehicle if a label in the driver and front passenger area clearly indicates the location of these items.
11. Students will not be regularly transported in private vehicles that are not state inspected as type III vehicles. Only emergency, unscheduled transportation may be conducted in vehicles with a seating capacity of 10 or fewer without meeting the requirements for a type III vehicle. Also, parents may use a private vehicle to transport their own children under a contract with the district. The school district has no system of inspection for private vehicles.
12. All drivers of type III vehicles will be licensed drivers and will be familiar with the use of required emergency equipment. The school district will

not knowingly allow a person to operate a type III vehicle if the person has been convicted of an offense that disqualifies the person from operating a school bus.

13. Type III vehicles will be equipped with child passenger restraints, and child passenger restraints will be utilized to the extent required by law.
