

ANNUAL MILK PASS

Quest Food Management Services is offering a \$56 annual milk pass as convenience to families whose students regularly bring their own lunch to school. This pass is intended to ease congestion in the elementary lunch lines and eliminate the need for families to pre-order milk. Orders can be placed on www.mymealorder.com. After logging in click on the link called "Fees and Activities" and choose milk pass. There will be a drop down menu that asks for the type.

The annual milk pass cannot be used to replace a drink included with any pre-ordered lunch; therefore, please consider your lunch situation carefully before purchasing. Refunds are not available for student absences or unused days and the price of the pass will not be prorated. The annual pass will be available through the Quest pre-order program at www.myMealOrder.com.

The annual milk pass entitles a student to one carton of milk per day (multiple passes are available for purchase) or an additional carton of milk to their pre-ordered lunch (all pre-order lunches includes a drink as part of its purchased price). The milk pass assumes a break-even cost point of 160 days per school year to give credit for the remaining days where a student may participate in the PTO special lunch days.

For example:

$$\$0.35 \text{ per carton} \times 160 \text{ lunch days} = \$56$$
