

Menya

Class of 2025

From: Ardsley, NY

First Year at HM: 6th Grade

Favorite Classes: Engineering and Maths

On Campus Activities: Boys Varsity Soccer, FRC Robotics, STEPS Mentor, *Linguist* Publication (HM's language magazine)

Favorite Things about HM: Sciences, athletics, food, arts, the engineering shop.

Out of School Activities: Club Soccer, Robotics Design Research, Piano

Best Food at the International Food Festival: Jerk Chicken

Favorite Spot on Campus: 1st floor of library tall room

Why HM?: I got attracted to HM's academic diversity. I can build a robot in the basement of Tillinghast, practice drawing Mandarin characters, learn how to use the dark room in the photography studio, and play soccer on Alumni Field all in one day. It's very fulfilling as a student to know that regardless of my career choice, I get an introduction to a variety of fields that I can choose to either pursue academically or as a hobby in the future.

Favorite HM Event: Homecoming

Most Underrated Thing about HM: Four Acres

Favorite TV Show: *Black-ish*
