Discipline

A positive environment for learning can exist only through the cooperation of students, parents, staff and administration. Just as students are expected to meet behavioral expectations, all staff members and administrators are expected to enforce the discipline policies.

High school students should already be aware of generally-accepted behaviors in the different situations at school.

Various rules and procedures are not for the purpose of restricting individual freedom but are necessary for the school to have a sense of safety, order and progress and a common ground for getting along with others. Discipline is used to help students develop appropriate behaviors. If the misbehavior continues, the disciplinary measures have increased consequences.

Discipline

- Students may receive discipline for a variety of actions, from accumulating “tardies” to violating student discipline code.
- Teachers may assign detentions, and/or refer a student to the grade level office for discipline.

Discipline

Progression of Discipline:

- Detention: Served Monday - Thursday after school.
- Multiple detentions
- Saturday detention: 2 or 4 hours
- In School Suspension - ISS
- Out of School Suspension - OSS
- Out of School Suspension with referral to Superintendent for additional days
- Long-Term ISS

Habitual referrals to a grade-level office may result in consequences up to, and including Out of School Suspension with Referral.

enough to see it
If only we're brave
enough to **be** it
