

2024-2025 Goals for Ian Magness, Superintendent FASD

- ✓ *Continue staffing analysis and re-alignment not only to identify potential savings, but also to position people and departments to add or modify offerings to meet emerging needs and taking into consideration future building projects while doing so with less resources.*

- ✓ *Serve on WPIAL Board of Directors and any committees needing representation as an advocate for student-athletes and interscholastic athletics at FASD and beyond.*

- ✓ *Serve in an advisory capacity directly with the statewide employability certificate workgroup for the Departments of Labor and Industry and Education as stakeholders assisting in the development of the credential. This includes co-presenting at the annual SAS Conference.*

- ✓ *Advocate as a new member of the PASA Board of Governors. This advocacy includes direct lobbying and communications with legislators to benefit our school community here at FASD.*

- ✓ *Continue to improve safety of our schools, students, and staff, which includes guiding the implementation of protocols and policy around Artificial Intelligence and other emerging technology tools for education.*
